105 Billions. Be Calm Our Business, Mr. Amau With Mussolini Argue Not Fourth Place for Us

—By Arthur Brisbane—

Copyright, 1934, by King Features Syndicate, Inc., International copyright and all other rights reserved.

Secretary Ickes has a REAL plan and possesses what might be called vision in spending. He has confidence in this country and its wealth. As chairman of the resources board, Mr. Ickes favors spending *ONE HUNDRED AND FIVE THOUSAND MILLION DOLLARS IN THE NEXT TWENTY OR THIRTY YEARS ON PUBLIC WORKS.*

Do not "stand and gaze" or fall backward; that isn't so much money for Uncle Sam. F. H. Ecker, whose Metropolitan Life Insurance Company, biggest in the world, has assets of four thousand million dollars, will tell you that in really good times the United States' income was ninety thousand millions a year, sixty billions for wages, thirty billions of other income.

If a man had ninety thousand dollars a year, you wouldn't shudder to hear him suggest spending one hundred and five thousand in twenty or thirty years to help his family.

In this nation, with a good time income of ninety billions, it isn't so awful to talk about spending one hundred and five billions in twenty or thirty years, for useful work, *not for bloody war.*

Three cheers for Mr. Ickes and his vision. Spending one hundred and five billions on wages and materials ought to break any depression, especially if the people hired would really work.

A suave statesman, Eiji Amau, of Japan's foreign office, hopes and trusts that nothing will come of the United States plan to build a canal across Nicaragua, because the Panama canal is plenty for us, "able to handle all commercial traffic," and "a Nicaraguan canal would have strategic value only."

To be frank with Mr. Amau, it is for its strategic value largely that this country wants a Nicaragua canal. Friendly neighbors in Europe or Asia, becoming suddenly less friendly, might blow up the locks of the Panama canal. Then our boats would have to go all around the tip end of South America.

A Nicaraguan canal would be a SEA LEVEL canal, no locks to blow up.

Mr. Amau also thinks that a Nicaraguan canal would seem like "the United States still enforcing its Caribbean policy in Central America." Possibly, but that is *our* policy, not Japan's.

Japan recently carried out interesting plans by annexing gigantic territory and millions of population in Manchukuo. That is Japan's policy; she lives out there. No really sensible American objects to it.

Objecting would produce no results, and foreign objections to American plans for canals will produce no results.

Advice to small countries: *Don't start an argument with Mussolini* for when it is over he will hand you a bill.

He argued with Greece, when he first began dictating, about trouble on the Greek border, and collected something like fifty million francs from Greece. Europe looked on and watched him do it.

Recently, Ethopia, which runs along the frontier of Italy's Somaliland, complained to the League of Nations that Mussolini's men had behaved badly. The League suggested arbitration. Mussolini said:

"No arbitration, Italy wants from Ethopia an apology, a salute to the Italian flag, punishment for the culprits that attacked Italians, and cash indemnity for Italian native soldiers killed, wounded, or with their feelings hurt."

And Mussolini will probably get what he asks. He is "that way."

An NRA report says the United States comes fourth among nations in the march toward recovery, and is gratified. There was a time when fourth place did not particularly gratify Americans, but "small mercies thankfully received."

Interesting in the report is the statement that countries

'MR. BRAXTON' IN FUR COAT DISAPPEARS WITH CASH

He is a ruddy-cheeked, prepossessing man in a raccoon coat, who goes by the name of Braxton, and the boys in the Tennis and Racquet Club and in the Union Boat Club thought he was a guest, until they found their wallets gone.

Activities of the club "Raffles" who has played squash with some of the members—and a very fair game, too—came to light today when complaints were received from the swanky Tennis and Racquet at Boylston street and the Union Boat Club at Chestnut street.

Last night was selected by "Mr. Braxton" for his cleanup and the complaining club members declare he is the culprit because while he was there the wallets were there—and when he was gone, so were the wallets. Also they have discovered that none of the members brought him in as a guest.

Members of the Tennis and Racquet Club were playing squash while "Mr. Braxton" looked on. Their coats were tossed on benches and from the coat of C. T. Russell, a member, a wallet with cash, driver's license, car registration and other papers were taken.

Another member, unidentified by police, lost a sum of money and a watch.

At the Union Boat Club, the club "Raffles" made a more extensive haul. Richard Payson of Portland, Me., and West Cedar street, Beacon Hill, aviator and a guest, lost his wallet with $20.

Richard C. Cook of 240 Otis street, West Newton, a member, lost a wallet and $12; Paul Bird of West Cedar street, wallet, $5 and papers; F. C. Shepard of the State Street Trust Company, wallet and cash, and Carl Perry, a guest, a wallet and $10.

Ely to Appoint New Judge

Governor Ely declared that he expects to submit the name of a superior court judge to fill the vacancy caused by the promotion of Judge Stanley E. Qua to the supreme court, when the council meets tomorrow.

The governor also said that he expects that one of two State Prison lifers will receive Christmas pardons.

Fernald Acquitted in Stock Charge

George A. Fernald of Winchester, former president of a stock brokerage corporation bearing his name, was found not guilty of larceny today in municipal court by Judge Thomas H. Dowd.

The former broker had been charged with the theft of stocks valued at $4781.50 from Hildred Granstrom of West Milton street, Readville, but Judge Dowd ruled that Fernald was not responsible for every act of the corporation.

STORM DELAYS SHIP RESCUE

By Associated Press

New York, Dec. 18—A message from the rescue tanker Momiloil to the distressed freighter Sisto in mid-Atlantic today indicated that mountainous seas may delay attempts to rescue the freighter's crew until morning.

The Mobiloil has been standing by the disabled Sisto since last night and has pumped tons of oil on the sea in an attempt to calm the water sufficiently to permit an attempt at rescue.

The tanker pumped so much oil from her own tanks that this morning she sent out an appeal asking how soon a ship with oil could reach the scene, approximately 560 miles north of the Azores.

A message from the Mobiloil to the liner New York, which is rushing through the mountainous seas to the scene, said this message had just been received from the commander of the Sisto:

"Consider it too dangerous to go in a small boat now in such high seas. Suggest wait till morning."

Meantime the Aurania and the giant liner Europa were pounding through the heavy seas to the side of the Sisto.

KIDNAP THREAT ON REVERE GIRL

Miss Barbara Hope Harding of Revere, 18-year-old student at the exclusive Kendall Hall School at Pride's Crossing, has been guarded by private detectives against kidnaping for nearly two weeks, the Boston Evening American learned today.

Miss Harding is the only daughter of Harry J. Harding, former Revere fire commissioner, and president and treasurer of the Hutchinson Lumber Company and secretary-treasurer of the Guilford Lumber Company, both of 454 Summer street, Lynn.

Harding is also a past president of the Lynn Rotary Club. The Harding home is at 25 Proctor avenue, Revere.

It was at the Lynn office that the threat against his daughter was received over the telephone, Harding said. He ascribed it to his political activities.

He quoted the threat as follows:

"You'd better lay off this election. Remember you have a daugh-

Widow of Camp Dies in New Haven

New Haven, Ct., Dec. 18—Mrs. Walter Camp, widow of Yale's famous football authority, died today after an illness of some length.

Mrs. Camp was a sister of the late Professor William Sumner, Yale University's famous economist and writer.

Theater Burned in Schenectady

Schenectady, N. Y., Dec. 18 (AP)—Fire wrecked the old Hudson Theatre and threatened to spread to Schenectady's business section early today.

Several firemen narrowly escaped injury when the roof of the playhouse collapsed.

GLORIA VANDERBILT'S SECRET TESTIMONY

WITNESS IN MAYBERRY CASE GONE

Eventual postponement of the rehearing of disbarment proceedings against Lowell A. Mayberry was in prospect today as a result of failure to locate John A. McArdle, Boston attorney and scheduled defense witness, who was reported in seclusion following a nervous breakdown.

McArdle is chairman of the Massachusetts claims' investigation commission which, with the Boston Bar Association, is presenting the case before Justice Henry T. Lummus of the Supreme Court.

Yesterday, he was reported ill. His second failure to appear was noted at the hearing this morning when Samuel Hoar, chief counsel for Mayberry, asked a check of witnesses.

Hoar asked Frederic A. Crafts, who is directing the case against Mayberry, whether McArdle would appear tomorrow. Crafts said he did not know but that he told Inspector Francis P. Haggerty to contact him and that he would have him present if "humanly possible."

Crafts then called Haggerty who said he had been unable to find McArdle.

During the original investigation of jury fixing charges McArdle was reported receiving telephone threats.

At his State street office today, it was stated that McArdle had not been there for several days

DENY REPORT HITLER SHOT BY GIRL

By Associated Press

Berlin, Dec. 18—Rumors that Reichsfuehrer Adolf Hitler had recently been wounded or shot at were scornfully described as "ridiculous inventions" in official quarters today.

(The newspaper Linzer Volksblatt of Linz, Austria, had published a report saying what it called "a trustworthy source" had stated Hitler was recently wounded by a German girl.

These rumors reached Berlin today almost simultaneously from Austria, Russia and Holland.

An official spokesman, commenting, said:

"If the saying is true that people wrongly reported dead or wounded are assured of a long life, then Der Fuehrer will live to the age of Methuselah."

Today's rumor was that Hitler was shot at by a daughter of the dismissed Silesian Nazi chief, Brueckner.

The utter lack of foundation for the report was shown by the fact that Brueckner's children are all virtual infants. The eldest is a girl of five.

Since July, off and on, the story has been circulated that a daughter or niece of Gen. Kurt von Schleicher, former chancellor of Germany, who was killed in the "blood-purge" last July, had emptied a revolver at Hitler.

Last Sunday, London heard that a strange airplane had fired a machine gun at Hitler's plane as it flew over East Prussia.

Hitler, however, has not been near East Prussia since the funeral of President Von Hindenburg in August.

The Reichsfuehrer today received General Joachim Von Ribbentrop, his personal diplomatic envoy, who reported to him the result of his recent visits to London and Paris.

Hitler Extends "Moral Cleanup"

By Associated Press

Berlin, Dec. 18—The sudden cancellation of leaves of a number of secret police indicated today that Adolf Hitler's moral cleanup would be extended throughout Germany.

Raids in Berlin and its suburbs upon bars and public baths have bagged 600 persons. Hitler's latest "purge" is directed chiefly at ranks of his storm troops.

Many of the raided baths, some in exclusive sections, police said, were centers of abnormality.

State Rests Trial of Martin Insull

Chicago, Dec. 18 (INS)—The prosecution in the trial of Martin J. Insull, charged with embezzlement of $344,000 from Insull Utility Companies, rested its case today.

Insull, former president of the Middle West Utilities Company, will take the witness stand later to tell his story.

Schoolgirl Flier Fire Heroine

BEVERLY BATES

FIRE DESTROYS ABINGTON HIGH

Fire of suspected incendiary origin destroyed the Abington High School today with a loss of $120,000.

Four firemen nearly lost their lives in a series of explosions as the departments of five cities and towns battled five hours in an effort to save the 35-year-old building on Washington street.

A girl senior, Miss Beverly Bates, student aviatrix, led 30 youths, many of them pupils, in dashes through the flames to save $1,000 worth of school supplies and athletic trophies.

This was the second disastrous

MOTHER WAS UNKIND, SHE SAYS

By Associated Press

New York, Dec. 18—Little Gloria Vanderbilt, 10-year-old heiress, tearfully protested to Supreme Court Justice John F. Carew that she "never" wanted to go back to her mother, Mrs. Gloria Morgan Vanderbilt, a transcript of her testimony in the custody fight made public today disclosed.

The transcript of the interview with Justice Carew was filed by Frank L. Crocker, counsel for the child's aunt, Mrs. Harry Payne Whitney, who was given principal custody of the child.

It was filed in opposing Mrs. Vanderbilt's petition for a stay of execution of Justice Cafew's decision.

Not only Justice Carew, but Nathan Burkan, the Vanderbilt attorney, and Herbert C. Smyth, a Whitney attorney, questioned the child the transcript showed.

Q. (By Justice Carew) Do you want to stay in the country? At Mrs. Whitney's home in Old Westbury, N. Y.) A.—Yes. I never want to live in the city.

Q.—Do you would you like to live with your mother in the country? A.—Never. I always want to live with my aunt.

Q.—You have lived a long time with your mother, A.—Yes. But I hardly ever see her—anything of her. She has never ben nice to me.

Q.—I think your mother would get you a pony. A.—No. I never want to go back to her. Do I have to?

Q.—I think you will want too. A.— o. (Tearfully)

Q.—It is not that you have to. I think you will begin to love her and want to go back. A.—No, I won't.

Justice Carew then told Gloria how glad his little girl always was when he came home to her.

"Yes, but probably you were nice to her. Gloria answered.

Q.—How were they not nice to you? What did they do that was not nice? A.—Well, they used to take things away from me and in the morning she would not let me come in her room. She used to say she is busy.

Q.—Whom do you mean by she? A.—My mother.

Q.—They always bought you nice clothes, toys, dolls, fairy books, fairy tales and things like that, didn't they? A.—Sometimes. Hardly ever. In England they hardly ever used to pay any attention to me. They used to go out to parties and things.

Q.—Well, they were grownup people, and children ought to go to bed early. "Early to bed and early to rise, makes a man healthy, wealthy and wise." Did you ever hear that? A.—Yes.

Q.—When you grow up, will you be able to go to parties and dances? (There was no answer, according to the record.)

The above testimony given by little Gloria at the long hearing that was mainly responsible for Justice Carew's decision awarding the child for five days a week to her aunt, Mrs. Harry Payne Whitney.

Wings Over America

Congress Must Provide U. S. With an Aerial Defense That Is Invincible

NOT many of man's achievements can mark the exact moment of birth with the precision that belongs to aviation.

The hour was 10:30 on the morning of December 17, 1903, when the Wright brothers made the historic first flight in a heavier-than-air machine at Kitty Hawk.

At that same hour today the event was celebrated throughout the nation when virtually all the airplanes in the country took off simultaneously. It was a dramatic idea—army, navy, marine corps, coast guard and civil aviators all aloft at once.

And Eugene L. Vidal, director of air commerce, made an acceptable suggestion when he proposed last Friday to the Aero Club of Boston that the coast-to-coast demonstration be repeated each year on December 17 as national aviation day.

BUT the officials responsible for our aviation must do more than plan celebrations.

They must see to it that American aviation is increasingly worth celebrating.

Our military and naval air corps must be invincible. And our commercial aviation must surpass the rest of the world.

America deserves and must have nothing less.

Congress, when it convenes in January, will receive the urgent recommendations of the Baker board and of the war and navy departments for specific appropriations for better aerial defense.

Congress should grant these requests unqualifiedly.

And Congress should do more than this.

The air frontier defense committee, representing the Chambers of Commerce of the country, has proposed a really adequate military aviation program—a chain of air bases, each with its flotilla, ranging from coast to coast and from Panama to Alaska, to guard our cities and our possessions.

A TIME will come when America will need such a defensive system. Let us have it!

Finally, civil aviation, impaired and impeded by fatuous measures must be rescued from politics and fostered and developed expansively, not only for commerce and travel and mail transport, but also to serve as an auxiliary to the armed forces in times of national danger.

America will be safer from foreign attack and more prosperous at home when National Aviation Day celebrates the practical fulfillment of these policies.

Wadsworth Warns

ELIOT WADSWORTH, president of the Boston Chamber of Commerce, on his return from the Orient warns American industry that it faces keen competition from across the Pacific.

New England industries in particular must be on the alert. For the up-to-date textile and hardware manufacturing plants of Japan and Shanghai are invading their foreign markets.

Already building hardware is made in Japan for a fraction of its import cost and sales of American cotton abroad are declining. It is the usual story of nations assuming a commanding place in world trade.

Operating with low cost labor and low taxes it is but a question of time before these nations will have conquered foreign markets once ours and will turn their eyes toward our domestic markets.

Yet, the internationalists would have American tariffs lowered in order to seek illusory gains for domestic industry, when the real threat is how we are to save established manufactories.

Industrial New England, and all those with her welfare at heart, must work unceasingly for the protection of home industry, the well being of whose workers depends on the freedom of American markets from cheap foreign goods.

Harvard Tercentenary

July, August and September of 1936 will be notable months. They will see the celebration of Harvard's Tercentenary.

Details of the observance of Harvard's 300th anniversary, recently made public, cover a very wide range.

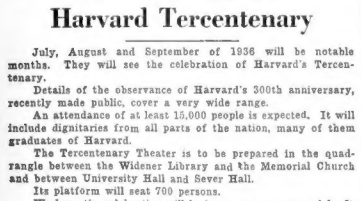
An attendance of at least 15,000 people is expected. It will include dignitaries from all parts of the nation, many of them graduates of Harvard.

The Tercentenary Theater is to be prepared in the quadrangle between the Widener Library and the Memorial Church and between University Hall and Sever Hall.

Its platform will seat 700 persons.

We hope the celebration will be in every way successful. It will mark another notable milestone in education.

"No Invalid Is Incurable"



Patricia Maguire has recently come back to the world of the living.

After two years and nine months of sleep from which nothing could awaken her, she now responds to commands written and placed before her eyes.

The re-awakening of the girl after nearly every method known to science had failed, is a solemn warning to those scientists who advocate euthanasia—the painless termination of the lives of hopelessly incurable invalids.

Patricia's case proves that there is always hope.

It shows that science should think twice before it departs from its true role of saving human life; that it takes a crushing responsibility when it dares to end one.

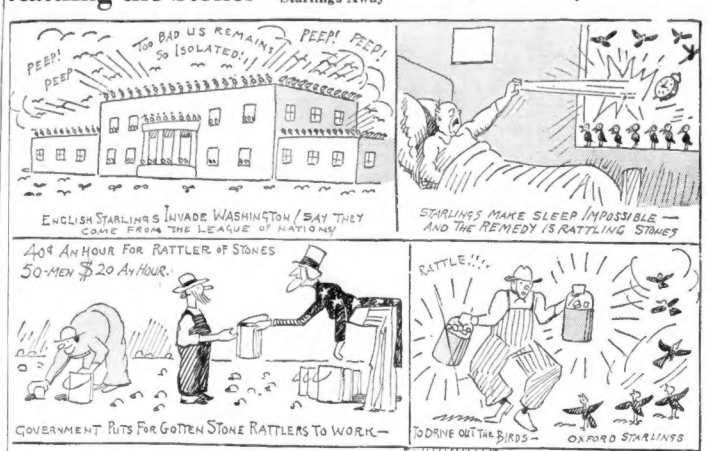
Rattling the Stones—

To Scare the Starlings Away

-:- By T. E. Powers



Problem of Balkans

-:- By Hendrik Van Loon -:-

Blessed be the land without any history. And when Goethe called America the luckiest of all countries because it didn't have any past he knew whereof he spoke. All this of course is against my own interests for I make my living writing about the follies of those five thousand years, during which we have enough written evidence to reconstruct that great human drama which we know by the name of history.

Hendrik Van Loon

Nevertheless and notwithstanding, we in America are hardly aware of our blessings because we only have some 150 years of a conscious past.

Except for the incidents of the Civil War, our brains are not cluttered up with the memories of lost causes and the manifold wrongs of our ancestors.

SEES NO SOLUTION

Our present may be somewhat lacking in charm, but thank God for a future that does not have to drag fifty centuries of wrong with it, no matter where it goes.

Every morning the newspapers bring a fresh solution of the Balkan problems. Every evening proves the futility of that morning's solution. And every new morning brings new solutions which will be refuted ere twenty-four hours have gone by.

If you ask me, I do not believe that there is any solution. The Balkans probably will continue to muddle along for the next two thousand years.

You know how hard it is in one of our big cities to keep the peace among all the different racial elements, and yet all of them are, comparatively speaking, newcomers, and do not live on soil which they can claim as their own. Keep this firmly in mind, and then try to realize what is happening in the Balkans.

THEN CAME TROUBLE

Here was a piece of land that formed the entrance gate to the fertile fields of western Europe. Since prehistoric times wandering tribes from the East had passed through this region, and a few of them had settled down in some of the more remote valleys.

Then came the Romans, to whom all people were barbarians unless they happened to have been born within sight of the Forum.

They quietly and quickly subjugated these masses, tribes, families, hordes, villages or whatever you want to call them, and for almost six hundred years meted out that particular form of Roman justice which remains one of the wonders of the world.

But further tribes pushed westward, driven onward by hunger and a thirst for plunder, and gradually the power of Rome weakened and once more anarchy ruled over the land.

Then came the domination by a foreign people—the most cruelly destructive invaders, next to the Huns, of which Europe carries the memory. Then came a number of uprisings by which the different subject nations tried to rid themselves of the unspeakable Turkish yoke.

Then came the Great War, which definitely undid everything which the statesmanship of the previous fifty years had tried to build up.

And now, under modern hygienic conditions, for hygiene has found its way even into the Balkans—the rate of mortality is steadily declining. That means a rapidly increasing surplus of people among all the different hostile tribes which go to make up what we call the Balkan States.

Where are they to go? How are they to live? Where are they to find food and outlets for their domestic products? Africa is out of the question. Every other part of the world is closed to them. In short, the Balkans are a pot that is forever boiling and of which the lid has been screwed on so tightly that there is no means of escape for the extra steam.

The result will be a continuation of more or less violent explosions. We will not be able to prevent these explosions. The only thing we can do is to make sure that they shall not affect our own happiness and peace of mind.

Human Side of the News

-:- Chimpanzees Can Earn Thousands -:-

By Edwin C. Hill

The Globe Trotter of Hearst Metrotone News

Eleven-year-old Joe Mendi is dead—done for by trench mouth and attending infection. His fifteen thousand dollars earning capacity has gone with him, for there is not another the equal of Joe.

However, Meshie Mungkut was not far behind him and, perhaps, one day she will be counted as good as Joe. She has quite a reputation already, has Meshie, and she is not much more than five years old.

They said for Joe, that he was the most intelligent chimpanzee in the world, which meant that of all the birds, beasts and fowls, he was the closest to a human being in appearance and characteristics.

Joe's last three years were spent in the Detroit zoo, where he put on such a show that visitors willingly paid an admission, $18,000 in the year 1933, to watch his antics. Close upon Joe's obituary notices comes the word that young Meshie is on her way to the Brookfield Zoo, in Chicago, from the home of Dr. Henry C. Raven, at Baldwin, Long Island.

FOUND IN CONGO

The doctor, who is attached to the American Museum of Natural History, picked up Meshie in the Congo four years ago. The baby chimpanzee's mother had been killed, and Dr. Raven brought back the orphan from the tree tops of Darkest Africa to the suburban village just 25 miles from Broadway.

The chimpanzee spends most of his time in the tree tops, swinging from branch to branch and, when he does come down to terra firma, he walks bent over on his forearms and knuckles. Men frighten him and he avoids contact, but woe to the native who gets him in a corner and then comes within range of his claws and teeth.

MATCH FOR LEOPARD

Dr. Livingston, famous missionary, reported that the chimpanzee was a match for the leopard. He also found native tribes which believed that this particular ape once had been a human and had been degraded to its forest life—a reversal of the Darwinian theory. It was, Darwin, by the way, who started the scientists to studying the apes.

Books have been written about specimens such as Sally and Jenny of the London Zoo. At the present time the psychologists at Yale University have a troop under observation and from time to time report their doings to scientific societies.

Lately they have come to the conclusion that "chimpanzee reaction times do not vary significantly from those of human children."

The prize test at Yale, recorded in a motion picture, had to do with teaching the apes the difference in kinds of money, the necessity for work to obtain it, the use to which it may be put, and the habit of saving.

A mechanical device, similar to an automatic restaurant, was set up, and chips, red, white, green, yellow and blue, were provided for insertion in the slots for the obtaining of food.

In the Yale film the primates may be seen chinning the bar the required number of times for the various chips, fitting them in the slots for the oranges, bananas or water as their palates dictate and then putting their unspent wealth in a bank for safe keeping.

Few have any left, because the chimpanzee is a spendthrift. However, he has learned that if he has any chips remaining after the closing of the restaurant, the only safe place is the bank, or his brothers will steal them from him.

By Edgar A. Guest

THE GEESE AND MEN

Jack Miner, friend to all the birds,
Once said (I'm sure I quote his words):
"The smartest feathered creature loose
Beyond all doubting is the goose.
The wild geese winging through the sky
Soon learn the paths where dangers lie.
And yet," he adds, "'tis also true
One downright foolish thing they do.
Though swift and certain is their flight,
They honk their coming, day and night."

High in the gray November skies
With honk, honk, honk, the wild goose flies.
The hidden hunter smiles to hear
The sound which tells the game is near.

"'Tis strange," says Jack, "I do not know
Why they announce their coming so.
Smart birds are they; few shots would kill
If I could teach them to be still.
But though death waits for them below
Still must they honk where'er they go."

Thinking of Jack today I pen
These lines for all horn-honking men,
Who, like the geese, with brains endowed,
Still sound their coming to the crowd
And think that noise instead of care
Will safer make the thoroughfare.
Blocked in a standing motor row
Incessantly their horns they blow.
And like the geese, some never will
Acquire the art of keeping still.

(Copyright, 1934, Edgar A. Guest.)

Isn't It So?

Love keeps the heart warm and the face bright.

All life is honeycombed with the silly hypocrisy of keeping up appearances.

One of the most dangerous things we produce is the uneducated specialist.

The good player plays not for himself, but for his team.

"The conquest of power by the proletariat is the VIOLENT ABOLITION of the power of the bourgeoisie, the DESTRUCTION of the MACHINERY of the capitalist state.

"WE proclaim openly that our design can only be realized by the VIOLENT OVERTHROW of the ENTIRE TRADITIONAL social order."

The above policies were formally adopted and promulgated as the Communist program by the Sixth Congress of the Kommintern of the Communists Internationale which was held in 1928 in Moscow.

Tragic Illusions

By ROBERT H. HEMPHILL

Financial Authority

THE vast housing project which is to be launched as the Administration's supreme effort to restore prosperity hinges on who is to furnish the money—the Government or "private capital."

Almost our whole so-called "recovery program" is based upon the assumption that there exists in some unspecified, undefined place a vast fund of "private capital" which remains idle for various theoretical reasons, among which are said to be "lack of confidence," and "unbalanced budget," and "unstable dollar," or some other vaguely disturbing inferential reason.

The major announced purposes of the Government's financing activities center around thawing out the assumed mass of frozen "private capital."

WHERE IS THIS GREAT FUND OF PRIVATE CAPITAL?

WHO OWNS IT?

* * *

UNBELIEVABLE as it may sound after all the grandiose plans, the thousands of columns of newspaper space devoted to exploiting projects designed to restore this vast mysterious fund to activity, the pathetic hopes and dreams that have been built upon the time when it shall come out of hibernation and revive the halted flow of trade and commerce—

NO SUCH FUND OF PRIVATE CAPITAL EXISTS.

It is an amazing, and may prove to be a disastrous, delusion.

THE SIGNIFICANCE OF THIS SITUATION CAN HARDLY BE OVERESTIMATED.

This great mythical fund, upon which hinges so much of our recovery program, exists only in the UNINFORMED IMAGINATION of our political leaders and teachers.

* * *

IT SEEMS incredible that almost a whole intelligent nation, its statesmen and leaders and many of its economists and teachers, should continue to grope around in a fog of misconception regarding all things monetary; should gravely debate and plan for the welfare of a bewildered and stricken nation upon assumptions which have not the slightest foundation in fact—but there it is.

No one, no class in this nation has any substantial IDLE FUNDS.

We have in savings banks and in savings accounts in commercial banks 23,000 millions of savings deposit credits. Ninety-seven per cent of these funds were immediately invested by the banks and are now invested in mortgages and mortgage bonds and other senior fixed securities. Only three per cent of these accounts is money. It is the minimum cash reserve.

THERE ARE NO IDLE FUNDS IN THIS DEPARTMENT.

* * *

IN CONSTANT circulation in our checking accounts—the working balances of our individuals, firms and corporations in our commercial banks—we have the meagre overworked total of less than 16,000 millions of credits with which to effect the exchange of the goods and services of this mighty nation.

It is so inadequate that, moving at top speed, it will serve as a medium of exchange for the products of little more than one-half the normal output of our producing and distributing facilities.

We are suffering from almost universal abysmal tenacious ignorance which refuses to be enlightened upon fundamentals so simple that they are well within the grasp of the average adolescent.

It is a stupendous tragedy of ignorance.

We have the producing capacity to supply every citizen with an abundance of the necessaries and comforts of life; we have a highly developed and adequate distributing system; we have ample and willing labor, and we are begging to be permitted to produce and exchange our labor and products for the labor and products of our neighbors, but under our system our labor and products must first be converted into money before the exchange can be completed, AND WE HAVEN'T THE MONEY OR ANY USABLE SUBSTITUTE.

* * *

THAT is our tragic situation in a nutshell.

NOTHING IS SO IMPORTANT TO THIS NATION AS THE IMMEDIATE DISSIPATION OF THE WIDESPREAD ILLUSIONS WHICH ARE DIRECTLY RESPONSIBLE FOR THE CONTINUANCE OF OUR UNHAPPY SITUATION.

Words of Wise

The best way to insure peace is to be strong.—Marshal Joffre.

Today it is a sin to be socially blind.—Rev. Dr. Minot Simmons.

Everyone should be respected as an individual, but no one idolized.—Albert Einstein.

We are stumbling in the dark, but we are facing toward the light.—Helen Keller.

Stars and Stripes

When Borah and Nye reorganize the G. O. P. they ought to get another emblem. Barnum was the only man who ever understood the politics of an elephant.

North Carolina boasts of having the world's greatest laugher. The other day, when an auto truck hit him, he kept right on laughing. He said it struck his funny side.

"Machine Gun" Kelly and Al Capone are going to have a fine turkey dinner for Christmas. That's what they'll get for being good little bad boys.

STILL WAITING FOR ANSWER

General Johnson, when asked what he thought of the new NRA, said—well, what DID General Johnson say?

Algeria is supposed to have a river of ink—mostly red.

And you can't "muss up" a hardened criminal by slapping him on the wrist.

Hallowell, Me., boasts a dog that talks over the telephone. We can imagine hearing it "tel. and tel."

Lubec, Me., garages are being jacked up and put on skids, ready to avoid the snowdrifts. Now we know how a garage can be made really portable.

Mussolini says Italy is on the gold standard to stay. That's how the other gold standard nations once felt.

Now it's "Old Man Winter, keep away from my door."

Senator Nye is quoted as saying the Republican party need to be reborn. Is it really as dead as all that?

Chairman Woodman of the Maine Liquor Commission, seeking to give the railroads exclusive rights to transport the commission's liquor, says it must be "fully protected from theft and damage." Are the railroads in Maine as good as that?

Today

105 Billions. Be Calm Our Business, Mr. Amau With Mussolini Argue Not Fourth Place for Us

—By Arthur Brisbane—

Copyright, 1934, by King Features Syndicate, Inc., International copyright and all other rights reserved.

Secretary Ickes has a REAL plan and possesses what might be called vision in spending. He has confidence in this country and its wealth. As chairman of the resources board, Mr. Ickes favors spending *ONE HUNDRED AND FIVE THOUSAND MILLION DOLLARS IN THE NEXT TWENTY OR THIRTY YEARS ON PUBLIC WORKS.*

Do not "stand and gaze" or fall backward; that isn't so much money for Uncle Sam. F. H. Ecker, whose Metropolitan Life Insurance Company, biggest in the world, has assets of four thousand million dollars, will tell you that in really good times the United States' income was ninety thousand millions a year, sixty billions for wages, thirty billions of other income.

If a man had ninety thousand dollars a year, you wouldn't shudder to hear him suggest spending one hundred and five thousand in twenty or thirty years to help his family.

In this nation, with a good time income of ninety billions, it isn't so awful to talk about spending one hundred and five billions in twenty or thirty years, for useful work, *not for bloody war.*

Three cheers for Mr. Ickes and his vision. Spending one hundred and five billions on wages and materials ought to break any depression, especially if the people hired would really work.

A suave statesman, Eiji Amau, of Japan's foreign office, hopes and trusts that nothing will come of the United States plan to build a canal across Nicaragua, because the Panama canal is plenty for us, "able to handle all commercial traffic," and "a Nicaraguan canal would have strategic value only."

To be frank with Mr. Amau, it is for its strategic value largely that this country *wants* a Nicaragua canal. Friendly neighbors to Europe or Asia, becoming suddenly less friendly, might blow up the locks of the Panama canal. Then our boats would have to go all around the tip end of South America.

A Nicaraguan canal would be a SEA LEVEL canal, no locks to blow up.

Mr. Amau also thinks that a Nicaraguan canal would seem like "the United States still enforcing its Caribbean policy in Central America." Possibly, but that is *our* policy, not Japan's.

Japan recently carried out interesting plans by annexing gigantic territory and millions of population in Manchukuo. That is Japan's policy; she lives out there. No really sensible American objects to it.

Objecting would produce no results, and foreign objections to American plans for canals will produce no results.

Advice to small countries: *Don't start an argument with Mussolini* for when it is over he will hand you a bill.

He argued with Greece, when he first began dictating, about trouble on the Greek border, and collected something like fifty million francs from Greece. Europe looked on and watched him do it.

Recently, Ethopia, which runs along the frontier of Italy's Somaliland, complained to the League of Nations that Mussolini's men had behaved badly. The League suggested arbitration. Mussolini said:

"No arbitration. Italy wants from Ethopia an apology, a salute to the Italian flag, punishment for the culprits that attacked Italians, and cash indemnity for Italian native soldiers killed, wounded, or with their feelings hurt."

And Mussolini will probably get what he asks. He is "that way."

An NRA report says the United States comes fourth among nations in the march toward recovery, and is gratified. There was a time when fourth place did not particularly gratify Americans, but "small mercies thankfully received."

Interesting in the report is the statement that countries

Society 'Raffles' Robs Rich Boston Clubmen

'MR. BRAXTON' IN FUR COAT DISAPPEARS WITH CASH

He is a ruddy-cheeked, prepossessing man in a raccoon coat, who goes by the name of Braxton, and the boys in the Tennis and Racquet Club and in the Union Boat Club thought he was a guest, until they found their valets gone.

Activities of the club "Raffles" who has played squash with some of the members—and a very fair game, too—came to light today when complaints were received from the swanky Tennis and Racquet at Boylston street and the Union Boat Club at Chestnut street.

Last night was selected by "Mr. Braxton" for his cleanup and the complaining club members declare he is the culprit because while he was there the wallets were there—and when he was gone, so were the wallets. Also they have discovered that none of the members brought him in as a guest.

Members of the Tennis and Racquet Club were playing squash while "Mr. Braxton" looked on. Their coats were tossed on benches and from the coat of Dr. T. Russell, a member, a wallet with cash, driver's license, car registration and other papers were taken.

Another member, unidentified by police, lost a sum of money and a watch.

At the Union Boat Club, the club "Raffles" made a more extensive haul, Richard Payson of Portland, Me., and West Cedar street, Beacon Hill, aviator and a guest, lost his wallet with $20.

Richard C. Cook of 240 Otis street, West Newton, a member, lost a wallet and $12; Paul Bird of West Cedar street, wallet, $5 and papers; F. C. Shepard of the State Street Trust Company, wallet and cash, and Carl Ferry, a guest, a wallet and $10.

Ely to Appoint New Judge

Governor Ely declared that he expects to submit the name of a superior court judge to fill the vacancy caused by the promotion of Judge Stanley E. Qua to the supreme court, when the council meets tomorrow.

The governor also said that he expects that one of two State Prison lifers will receive Christmas pardons.

Fernald Acquitted in Stock Charge

George A. Fernald of Winchester, former president of a stock brokerage corporation bearing his name, was found not guilty of larceny today in municipal court by Judge Thomas H. Dowd.

The former broker had been charged with the theft of stocks valued at $4781.50 from Mildred Granstrom of West Milton street, Readville, but Judge Dowd ruled that Fernald was not responsible for every act of the corporation.

GLORIA VANDERBILT'S SECRET TESTIMONY

STORM DELAYS SHIP RESCUE

By Associated Press

New York, Dec. 18—A message from the rescue tanker Momiloil to the distressed freighter Sisto in mid-Atlantic today indicated that mountainous seas may delay attempts to rescue the freighter's crew until morning.

The Mobiloil has been standing by the disabled Sisto since last night and has pumped tons of oil on the sea in an attempt to calm the water sufficiently to permit an attempt at rescue.

The tanker pumped so much oil from her own tanks that this morning she sent out an appeal asking how soon a ship with oil could reach the scene, approximately 660 miles north of the Azores.

A message from the Mobiloil to the liner New York, which is rushing through the mountainous seas to the scene, said this message had just been received from the commander of the Sisto:

"Consider it too dangerous to go in a small boat now in such high seas. Suggest wait till morning."

Meantime the Aurania and the giant liner Europa were pounding through the heavy seas to the side of the Sisto.

KIDNAP THREAT ON REVERE GIRL

Miss Barbara Hope Harding of Revere, 18-year-old student at the exclusive Kendall Hall School at Pride's Crossing, has been guarded by private detectives against kidnaping for nearly two weeks, the Boston Evening American learned today.

Miss Harding is the only daughter of Harry J. Harding, former Revere fire commissioner, and president and treasurer of the Hutchinson Lumber Company and secretary-treasurer of the Guilford Lumber Company, both of 404 Summer street, Lynn.

Harding is also a past president of the Lynn Rotary Club. The Harding home is at 25 Proctor avenue, Revere.

It was at the Lynn office that the threat against his daughter was received over the telephone, Harding said. He ascribed it to his political activities.

He quoted the threat as follows:

"You'd better lay off this election. Remember you have a daugh-

Widow of Camp Dies in New Haven

New Haven, Ct., Dec. 18—Mrs. Walter Camp, widow of Yale's famous football authority, died today after an illness of some length.

Mrs. Camp was a sister of the late Professor William Sumner, Yale University's famous economist and writer.

Theater Burned in Schenectady

Schenectady, N. Y., Dec. 18 (AP)—Fire wrecked the old Hudson Theatre and threatened to spread to Schenectady's business section early today.

Several firemen narrowly escaped injury when the roof of the playhouse collapsed.

WITNESS IN MAYBERRY CASE GONE

Eventual postponement of the rehearing of disbarment proceedings against Lowell A. Mayberry was in prospect today as a result of failure to locate John A. McArdle, Boston attorney and scheduled defense witness, who was reported in seclusion following a nervous breakdown.

McArdle is chairman of the Massachusetts claims investigation commission working with the Boston Bar Association in presenting the case before Justice Henry T. Lummus of the Supreme Court.

Yesterday, he was reported ill. His second failure to appear was noted at the hearing this morning when Samuel Hoar, chief counsel for Mayberry, asked a check of witnesses.

Hoar asked Frederic A. Crafts, who is directing the case against Mayberry, whether McArdle would appear tomorrow. Crafts said he did not know but that he told Inspector Francis P. Haggerty to contact him and that he would have him present if "humanly possible."

Crafts then called Haggerty who said he had been unable to find McArdle.

During the original investigation of jury fixing charges McArdle was reported receiving telephone threats.

At his State street office today, it was stated that McArdle had not been there for several days

HURRY! Only 7 DAYS to CHRISTMAS!

DENY REPORT HITLER SHOT BY GIRL

By Associated Press

Berlin, Dec. 18—Rumors that Reichsfuehrer Adolf Hitler had recently been wounded or shot at were scornfully described as "ridiculous inventions" in official quarters today.

(The newspaper Linzer Volksblatt of Linz, Austria, had published a report saying what it called "a trustworthy source" had stated Hitler was recently wounded by a German girl.

These rumors reached Berlin today almost simultaneously from Austria, Russia and Holland.

An official spokesman, commenting, said:

"If the saying is true that people wrongly reported dead or wounded are assured of a long life, then Der Fuehrer will live to the age of Methuselah."

Today's rumor was that Hitler was shot at by a daughter of the dismissed Silesian Nazi chief, Brueckner.

The utter lack of foundation for the report was shown by the fact that Brueckner's children are all virtual infants. The eldest is a girl of five.

Since July, off and on, the story has been circulated that a daughter or niece of Gen. Kurt von Schleicher, former chancellor of Germany, who was killed in the "blood-purge" last July, had emptied a revolver at Hitler.

Last Sunday, London heard that a strang airplane had fired a machine gun at Hitler's plane as it flew over East Prussia.

Hitler, however, has not been near East Prussia since the funeral of President Von Hindenburg in August.

The Reichsfuehrer today received General Joachim Von Ribbentrop, his personal diplomatic envoy, who reported to him the result of his recent visits to London and Paris.

Hitler Extends "Moral Cleanup"

By Associated Press

Berlin, Dec. 18—The sudden cancellation of leaves of a number of secret police indicated today that Adolf Hitler's moral cleanup would be extended throughout Germany.

Raids in Berlin and its suburbs upon bars and public baths have bagged 600 persons. Hitler's latest "purge" is directed chiefly at ranks of his storm troops.

Many of the raided baths, some in exclusive sections, police said, were centers of abnormality.

State Rests Trial of Martin Insull

Chicago, Dec. 18 (INS)—The prosecution in the trial of Martin J. Insull, charged with embezzlement of $344,000 from Insull Utility Companies, rested its case today.

Insull, former president of the Middle West Utilities Company, will take the witness stand later to tell his story.

Schoolgirl Flier Fire Heroine

FIRE DESTROYS ABINGTON HIGH

Fire of suspected incendiary origin destroyed the Abington High School today with a loss of $120,000.

Four firemen nearly lost their lives in a series of explosions as the departments of five cities and towns battled five hours in an effort to save the 35-year-old building on Washington street.

A girl senior, Miss Beverly Bates, student aviatrix, led 20 youths, many of them pupils, in dashes through the flames to save $1,000 worth of school supplies and athletic trophies.

This was the second disastrous

MOTHER WAS UNKIND, SHE SAYS

By Associated Press

New York, Dec. 18—Little Gloria Vanderbilt, 10-year-old heiress, tearfully protested to Supreme Court Justice John F. Carew that she "never" wanted to go back to her mother, Mrs. Gloria Morgan Vanderbilt, a transcript of her testimony in the custody fight made public today disclosed.

The transcript of the interview with Justice Carew was filed by Frank L. Crocker, counsel for the child's aunt, Mrs. Harry Payne Whitney, who was given principal custody of the child.

It was filed in opposing Mrs. Vanderbilt's petition for a stay of execution of Justice Cafew's decision.

Not only Justice Carew, but Nathan Burkan, the Vanderbilt attorney, and Herbert C. Smyth, a Whitney attorney, questioned the child the transcript showed.

Q. (By Justice Carew) Do you want to stay in the country? At Mrs. Whitney's home in Old Westbury, N. Y.? A.—Yes. I never want to live in the city.

Q.—How would you like to live with your mother in the country? A.—Never. I always want to live with my aunt.

Q.—You have lived a long time with your mother. A.—Yes. But I hardly ever see her—anything of her. She has never ben nice to me.

Q.—I think your mother would get you a pony. A.—No. I never want to go back to her. Do I have to?

Q.—I think you will want too, A.—o. (Tearfully)

Q.—It is not that you have to. I think you will begin to love her and want to go back. A.—No, I won't.

Justice Carew then told Gloria how glad his little girl always was when he came home to her.

"Yes, but probably you were nice to her, Gloria answered.

Q.—How were they not nice to you? What did they do that was not nice? A—Well, they used to take things away from me and in the morning she would not let me come in her room. She used to say she is busy.

Q.—Whom do you mean by she? A—My mother.

Q.—They always bought you nice clothes, toys, dolls, fairy books, fairy tales and things like that, didn't they? A.—Sometimes. Hardly ever. In England they hardly ever used to pay any attention to me. They used to go out to parties and things.

Q.—Well, they were grownup people, and children ought to go to bed early. "Early to bed and early to rise, makes a man healthy, wealthy and wise." Did you ever hear that? A.—Yes.

Q.—When you grow up, will you be able to go to parties and dances? (There was no answer, according to the record.)

The above testimony given by little Gloria at the long hearing that was mainly responsible for Justice Carew's decision awarding the child for five days a week to her aunt, Mrs. Harry Payne Whitney.

PROBERS TOLD HOW GANGS GET MACHINE GUNS LEGALLY

PARTS BOUGHT SEPARATELY, ASSEMBLED

By International News Service

Washington, Dec. 18—The Senate Munitions committee today investigated the ease with which machine gun parts can be purchased from reputable manufacturers and assembled into competent weapons—even by gangsters.

Robert Wohlforth, committee investigator, charged there were "no restrictions on the assembling of such parts into a dangerous weapon which often get into wrong hands."

Senator Clark (D.) of Missouri pointed out the committee had evidence that a Pittsburgh chemical company purchased different machine gun parts some time ago "and assembled them into good machine guns for sale in Cuba." He agreed there were no restrictions on this practice.

WAR GUNS SOLD

Edwin Pugsley, a Winchester official, said his company sold sporting and military barrels for rifles to R. E. Sedgley of Philadelphia. He explained the machine guns were left over from the World War.

One Winchester letter, signed by H. F. Beebe, foreign manager, offered Sedgley "our stock on hand of these guns at $75 each net." It referred to machine guns.

Beebe also offered Sedgley 1,000,000 government cartridges "for export." Pugsley indicated Sedgley had not closed this deal.

PROBE NEXT WAR PLANS

At a secret session before the public hearing began, the committee decided to go ahead with its inquiry into the government's industrial plans for the next war. It has been revealed that 12,000 plants are listed for immediate manufacture of war materials.

Testified his company had sold 200 machine gun barrels to Griffin and Howe, a subsidiary of Abercrombie and Fitch of New York, and 100 to the Hyde Arms Co., of Brooklyn.

"By shopping around, a firm could get the parts from reputable manufacturers and then assemble the machine guns?"

"Yes, I think we would sell the parts to any reputable customer."

"On what scale could a person engage in assembling machine guns in this manner?"

"It would be possible," was Pugsley's reply.

No School Today—Nor for Many Days to Come at Abington! $120,000 Fire Ruins Face Pupils

Here is what is left of the Abington high school's assembly room, where boys and girls of the community have met for morning exercises for the past 30 years. The $120,000 fire which swept the building today reduced the structure to ruins. Buckling walls and collapsed roof beams still remain as a menace to the lives of wrecking crews.

At school on time, as usual—but the school is only a mass of smoking ruins. Here are a few of the Abington high school's pupils, peering through what used to be the door of the big assembly hall. The building was destroyed today by a $120,000 fire, suspected to have been of incendiary origin. (Picture by Boston Evening American Staff Photographer.)

Directors Delay Action on Southbridge Mill Closing

After two and one half hours of discussion today the Board of Directors of the Hamilton Woolen Company of Southbridge, meeting at the Second National Bank, Boston, to decide whether they would recommend liquidation of the mill to the stockholders, adjourned with the matter still under consideration to meet tomorrow morning.

A statement for the Board of Directors issued by Thomas P. Beal, president of the Second National Bank, who is a member of the board of directors of the Southbridge mill, stated:

"The Board of Directors is giving serious consideration to the problem existing in Southbridge and has adjourned its meeting until tomorrow."

The board of directors cannot liquidate the mill. It must be done by the stockholders. But if the board of directors recommends it to the stockholders it will be done.

FIRE DESTROYS SECOND SCHOOL

Continued from First Page

and suspicious school fire in four day. Fitchburg high school was destroyed Saturday, with a loss of $750,000 and one life.

LACK OF WATER

As was the case in Fitchburg, the Abington fire started in the chemistry laboratory. The flames were so destructive that the cause may never be determined.

State Fire Inspector Edward Murtaugh was summoned by Chief John L. Casey. The latter, after conference with town officials made the estimate of the damage.

Brockton, Braintree, Weymouth and Rockland firemen aided Abington. Their efforts were nullified by lack of water pressure through a six-inch main and the blowing off of a safety valve, when extra pressure was turned into the main from the Hanover water supply.

Raymond Eldredge, volunteer fireman, discovered the fire at 2:30.

RECORDS SAVED

The four whose lives were imperiled were volunteer firemen, Frank Merrill, Ralph Brett, Walter Nixon and George Hitchfield.

Fighting the flames on the third floor soon after the alarm, they were felled and rendered unconscious by a series of blasts in the chemistry rooms.

All but trapped, they were carried to safety by a rescue detail directed by Chief Casey. Revived at the scene, they went back to work.

Edwin D. Cole, headmaster, saved the records of the 600 pupils from his first floor office.

Town officials met with Cole and School Superintendent H. D. Arnold later, to decide whether temporary high school classrooms shall be established in one of several vacant factories, or classes shall be held in the primary schools afternoons.

Two wings were to have been added to the building destroyed.

Family Flees Fire in Brockton Block

By Associated Press

Brockton, Dec. 18—Mr. and Mrs. Anthony Garauskas and four daughters, ranging in age from 11 to 18 years, were rescued by firemen and policemen as a two-alarm fire caused $4200 damage to a 12-tenement block at Arthur and Intruder streets today.

They were driven out by smoke from the fire, which was confined to the drugstore of Adam Yeskevitch on the ground floor, to the porch of their apartment on the third floor. They were taken down over ladders.

CCC Death Driver Pleads Not Guilty

Great Barrington, Dec. 18 (AP)—William J. Pelleer, driver of a truck in which five members of the Civilian Conservation Corps plunged to their deaths and several others were injured Sunday, was discharged from Fairview Hospital today and a short time later pleaded not guilty in district court to a charge of dangerous driving. He was released in $500 and his case continued a week.

Death Near for Mrs. Rumsey

By Universal Service

Washington, Dec. 18—Hope for Mrs. Charles C. Rumsey, consumers' adviser of the NRA and prominent socially in New York and Washington, has been abandoned. Today she had developed pneumonia, said her doctors.

Mrs. Charles Rumsey

Mrs. Rumsey co-founder of the Junior League, was seriously injured in a fall from her horse during a hunt at fashionable Warrenton, Va., a month ago. She suffered severe internal injuries that affected her abdomen and kidneys.

Mrs. Rumsey took a sudden turn for the worse last night, her second relapse in ten days.

Holiday Mail Taxes P.O. Help

Crowds jammed corridors on the street floor of the Federal Building today, buying stamps and mailing Christmas "greetings" and packages at the postoffice windows.

Similar crowds were reported at the North and South stations.

Railway Mail Service reported increased business at the Burlington avenue terminal of the Boston postoffice. Extra freight cars are being pressed into service to ship Yuletide mail.

2 Hunters Lost After Ice Crushes Skiff

By Associated Press

Cape May, N. J., Dec. 18—Two gunners who scrambled from one ice cake to another, gaining momentary safety after their skiff was crushed by grinding ice floes, were lost today in the icy water of Delaware bay.

For three hours they leaped for their lives yesterday, while coast guard boats and a seaplane tried in vain to reach them, only to be tossed at last to death.

The men, unidentified as their bodies were lost in the ice, were almost within reach of the cruiser from which they had set out in the skiff, when their desperate struggle ended.

Fred M. Pepper of Reed's Beach, who watched from shore and summoned coast guardsmen, said he saw the cruiser leave Dennis creek and anchor about a mile from shore after forcing its way through the ice.

"They apparently were duck hunters," he said. "They were heavy clothes and boots and put guns into their small boat.

"After anchoring the cruiser they set out in the skiff. They got several hundred yards from the cruiser when there was a sudden shift in wind and tide and heavy floes began sweeping up the bay.

"Apparently they realized their danger for they tried to row back to the lee of the cruiser.

"But before they moved far the skiff was caught in the floes and crushed. The skiff was splintered to pieces and the men jumped clear onto the nearest floating ice. They leaped from cake to cake but the movement of the floes made it impossible for them to get back to the cruiser."

Police tried to put out to the rescue in skiffs, but the grinding ice made this impossible. A Gibseaplane arrived half an hour later and circled low in an attempt to reach the marooned men. The ice was so thick, the plane could not find a clear patch of water for a landing.

PASTOR TRAILED AS DR. BIGELOW

The two weeks' hunt for Dr. George H. Bigelow, missing director of Massachusetts General Hospital, gave the Rev. George Noyes of Manomet a busy time last night and today.

The clergyman missed the last train home last night and decided to hitch-hike. One motorist, who drove him as far as Quincy square, hastened to report that "a man who said he was a minister and on the way to Plymouth and Manomet resembled Dr. Bigelow."

State troopers and Plymouth police finally found the man described to the Quincy officers.

But they found that the man was the Rev. Noyes, bound for Manomet, wheer he is minister of the First Congregational Church.

FR. COUGHLIN SEES WAR

By Associated Press

Detroit, Dec. 15—The Rev. Father Charles E. Coughlin today termed the current munitions investigation "the greatest movement toward peace in 2000 years," and said that because of its revelations the American Liberty League and the United States Chamber of Commerce have "folded up."

At a meeting with newsmen, the militant priest said that "Russia has it over us like a tent," because it is building airplanes instead of ships. Shipbuilding he termed a "munitions racket," and advocated the construction of one plane for each mile of United States coast line.

"I'm against war," he said, "but let's be practical. We are going to have war. Human frailties make it inevitable."

$300 for Santa Taken by Thief

It's an annual custom with James J. Harrower, of School street, Charlestown, to make real Christmas gifts to relatives and loved ones.

Annually he draws $300 from his savings of the year for this purpose.

Today he went to a bank and withdrew $300, then he started home.

He joined the crowd in a rush for a car in Scollay square and was jostled.

He put his hand in the pocket where he had placed the money. It was gone. Harrower told police pickpockets had it.

HAVANA BOMBED BY REBELS

By International News Service

Havana, Dec. 18—All soldiers and sailors today were under orders to stand by in their quarters for an emergency, as opponents of the government, hitherto fighting among themselves, suddenly moved toward union to oust Provisional President Carlos Mendieta.

Firm precautionary action was taken promptly following a night of terror in which more than 40 huge bombs burst in Havana, wounding three women and two men.

Busy White House Much in the Air

For Yule Fetes

NEW ROMANCE, PARTY DETAILS TO BE SOLVED

Down at the White House in Washington, and on or about Christmas Eve, lots of things may happen, but tonight was one of suspense, what with lack of the new state china set and a chance that a new Roosevelt engagement would be announced.

Taking things in order, the new set of White House china, costing nearly $10,000, with its red-white-and-blue stripes, its 48 gold stars, and the Presidential-seal center, just won't be ready.

And for that matter, as indicated by none less than the First Lady of the Land, announcement of the engagement of Reno-divorced Anna Roosevelt Dall and John Boettinger, former capital newspaper man, won't be ready either.

But Barbara "Babs" Cushing, current debutante of the Boston

MRS. ANNA DALL JOHN BOETTINGER

Linked in Romance

social season (the Mitts and the Roosevelts, by the way) is getting ready.

And so are "Sistie" and "Buzzie" Dall, the children to whom the newspaper man may be step-papa.

The "Beer Party"

Miss Cushing, younger sister of Mrs. James Roosevelt of Brookline, and daughter of the Peter Bent Brigham's onetime ace brain surgeon, Dr. Harvey Cushing, has had her New England debuts, in both this city and in New Haven.

Now it remains for her to join

SISTIE DALL

BUZZIE DALL

He Wants a Harmonica; She Wants a Cornet-

the "light punch and beer" pre-Christmas party to be tendered to the younger Roosevelts and their friends at the White House.

Gossips have it that there will be keen rivalry between "Deb" Barbara and Miss Ethel Du Pont of the millionaire Delaware Du Ponts, according to dispatches from the nation's social center.

Miss Barbara Cushing will share the favors of a presidential-daughter-in-law's sister. Miss Du Pont charged by John Roosevelt, as Franklin D., Jr., "girl," may be in the position of a possible presidential-daughter-in-law.

Anyhow, they'll both be there. Also personal and college friends of Franklin, Jr., John, and company.

But that is getting away from the Christmas Eve party of the Dall youngsters. After all, there are lots who consider that more important.

"Sistie" and "Buzzie" have turned thumbs down on dolls, baby carriages and teddy bears, they say. They dont want any "kids toys."

Amelia to Fly the Pacific! First Solo by Girl

From Hawaii

PLANS CROSSING TO CALIFORNIA IN 6 WEEKS

By Universal Service

San Francisco, Dec. 18—Amelia Earhart Putnam, first woman to fly the Atlantic, will take off from Honolulu within six weeks in a solo flight to Oakland, Calif.

This was revealed today as Mrs. Putnam prepared to sail from Los Angeles for Hawaii on December 21.

Weather conditions will determine the exact time of the takeoff. The flier's plane will be equipped with two-way radio.

Amelia Earhart

Mrs. Putnam declared today that she hoped the flight would demonstrate the close proximity not only of points in America but between America and her territories now that the high speed of airplanes is utilized.

The federal communications commission has issued Miss Earhart a special license to broadcast from her plane during a flight over the ocean.

Her plane, now in California, has been fitted with extra gas and oil tanks and is being equipped with radio devises to enable her to fly on a radio beam course over the 2200 mile journey.

Commerce Department records show her plane has a speed of 160 miles an hour fully loaded, and a cruising radius of about 3000 miles.

Miss Earhart is the only woman to fly the Atlantic alone, making the solo hop from Newfoundland to Wales. Previously she had flown the Atlantic, but with a man as co-pilot.

Beautiful Florence Desmond, above, is the second prize collected by Campbell Black, co-winner with C. W. A. Scott in the England-to-Australia air derby . . . The couple announced their engagement in the actress' dressing room in London, between her stage appearances . . . Before the flight she promised to wed, if he won . . .

SHE SAID "YES" WHEN AIR KING POPPED

New Turmoil Over Carol's Girl Friend

SPEECH AGAINST LUPESCU IS SILENCED

Copyright, 1934, by the Associated Press

Vienna, Dec. 18—Rumania's red-headed apple of discord—King Carol's friend, Magda Lupescu—became the most burning topic of discussion in that country's Parliament today.

Speeches involving her, however, were strictly suppressed in Bucharest, although some foreign legations have been receiving stenographic reports of them from Rumanian informants.

A speech which Juliu Maniu, leader of the Peasant party, planned to deliver against Madame Lupescu in the Chamber of Deputies was called off, and when Maniu sent newspapers a digest of it publication was forbidden.

According to Maniu, Madame Lupescu solemnly promised, prior to Carol's departure from Paris, to leave Rumania forever and "vanish permanently" from Carol's life. Maniu therefore encouraged Carol's bid for the throne and hoped to effect a reconciliation between him and his estranged wife, Helen.

Maniu's action provoked a sharp counter-attack from former Premier Nikolai Horgs, who without mentioning Madame Lupescu by name, excoriated Maniu for "dabbling in gossip unworthy of statesmen and characteristic of knaves and servants."

Wed 7 Men, Divorced 6, At 26, She's Disillusioned!

'DON'T EVER MARRY,' IS HER ADVICE TO GIRLS

By Universal Service

New York, Dec. 18—And—zip went another marriage. The disillusionment of Mrs. Virginia Overshiner-Paterson-Stark-Seeger-Gilbert-Kahn-Cogswell continues apace. The seven times married—there is one name for the list she will not reveal—lady is about to exit from matrimony once again.

If she can find her latest husband to serve papers on him, she announced today, she will sue him for either divorce or annulment. She hasn't worked out the details yet.

Her not surprising advice to girls is:

"Don't marry."

Mrs. Cogswell acquired her present husband last June, following an involved legal tangle with Kahn. All the time she bespoke great hopes of the future, but now she says:

"Marriage has lost its illusion for me."

Her parting remark to interviewers was:

"Never again."

These many marriages have been crowded into only 12 years of searching for happiness. She is 27. At the age of 15 she married Asa Paterson, of Atlanta, Ga. Thereafter, in order, came Stark, Seeger, Gilbert, Kahn, the unnamed one, and then Cogswell. The longest marriage lasted a year. The shortest was over and done in three weeks.

MRS. VIRGINIA OVERSHINER - PATERSON-STARK-SEEGER - GILBERT - KAHN - COGSWELL

What Next! Teacher Jobs in 'Huey Net'

DICTATOR LONG PLAN SURE TO BE APPROVED

Baton Rouge, La., Dec. 18—Fifteen thousand Louisiana school teachers will be drawn into the Huey Long dictatorship if the 33 bills he sponsors are enacted by the special session of the legislature. They would take effect 20 days later.

The "joker" in one bill, placing the jobs of all teachers in the state at the whim of a Long-controlled board, went unnoticed for the first two days of the session.

The House buzzed over the measure today as the House prepared to pass the bills and send them to the Senate for reference to committee before the upper body considers them Thursday. The House probably will concur in all amendments the same day.

When the "teacher patronage" bill came before the House Long sketchily explained it merely gave the state budget committee power to compel parishes to allow children from other parishes to attend their schools.

Printed copies of the bill revealed the act also granted the budget committee supervision of the appointment of all school teachers.

KNOW HIM 'QUINS' SURE DO SAYS DR. DAFOE

By Associated Press

Callander, Ont., Dec. 18—Dr. Allan R. Dafoe, back from a trip to the United States, says his little charges, the Dionne quintuplets, were glad to see him.

"Sure they know me," he said, after greeting the babies. "Look at them laughing and smiling. It's good to be back with them again."

As if to show their appreciation, the babies held their own or gained a bit of weight yesterday.

Royal Love Notes

London, Dec. 18 (USI)—A collection of 218 love letters written by the Emperor Napoleon to Princess Marie Louise of Austria was purchased by the French government for $75,000 at Sotheby's auction here.

HE'S A FAKE

Warning has been issued to residents in and near Cambridge that a man soliciting funds for St. Peter's Church, Cambridge, and for its pastor, Reverend Francis V. Murphy, is a fraud. The man is described as being about 40 years old, and has a cast in one eye.

Ganna on Way

In Blaze of Color Departs to Sing

By International News Service

Paris, Dec. 18—Passengers gasped today as an impressive figure, topped by a startling green beret whose color was borne out in a two-piece Scotch plaid tailored suit, with her arms filled with bouquets of white narcissus, boarded the Ile de France boat train at St. Lazare station.

She was Ganna Walska, off in splendor to sing, she announced, in New York and Chicago.

Asked if she was contemplating another marriage, she dismissed the thought with:

"Not even to please the press."

Fitchburg Burial for E. S. Crocker

Fitchburg, Dec. 18—Burial of Edward Savage Crocker, 78, who died from a self-inflicted bullet wound in Pasadena, Cal., will take place here.

Crocker, formerly a paper manufacturer here, moved to Pasadena when he retired from business in 1908. He is survived by his widow, the former Adelaid Putnam of this city, a sister and two brothers.

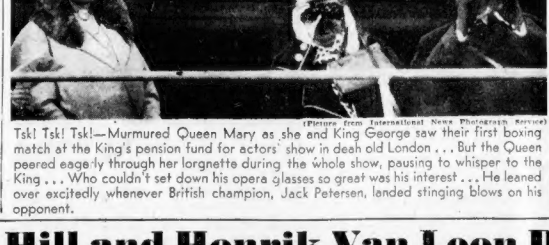
ELEVATOR Grips Victim

Ruel Baird, 38, of Hayes street, Revere, suffered injuries to his left foot today when he was caught between the wall and platform of a freight elevator in the Whiting building, 221 High street.

Firemen released the injured man after 10 minutes when they jacked up the elevator three feet. Bair was taken to Haymarket Relief.

Queen Gasped, But Loved It!

KING GEORGE AND MARY VIEW THEIR FIRST BOXING BOUT



(Picture from International News Photograph Service)

Tsk! Tsk! Tsk!—Murmured Queen Mary as she and King George saw their first boxing match at the King's pension fund for actors' show in dash old London . . . But the Queen peered eagerly through her lorgnette during the whole show, pausing to whisper to the King . . . Who couldn't set down his opera glasses so great was his interest . . . He leaned over excitedly whenever British champion, Jack Petersen, landed stinging blows on his opponent.

MUST BE COLD

Unclad Man Scares Young Skaters

An unclad man, who terrified two young Swampscott children, chasing them out of the wooded section near Standpipe Hill, is being sought today by six policemen. The children, a boy and a girl, both about nine years, had been skating and were taking off their skates near Jimmy's Pond, when the man made his appearance.

Dr. Cadman 70 Years Old

New York, Dec. 18—Dr. S. Parks Cadman will observe his 70th birthday today.

Ambrose Bierce--What Happened To Him?

By WIN BROOKS

This is the fourth of a series of daily articles based on the disappearance of prominent persons.

Ambrose Biercee was one of literature's most interesting figures. He was a sort of American composite of Shaw and Bennett and one of those obscure Russian authors of horror tales.

He never wrote or imagined anything stranger than his own life story.

One day in 1914—a well-preserved gentleman of 72, with a background of adventure, possessing a fortune and a world-wide reputation—he sat in his California study on Howell mountain penciling some subtly vituperative criticism of his fellow men.

The next day the study was deserted and Bierce had vanished.

"GOOD WAY TO DIE"

For his secretary he left a short note, stating his intention of going to Mexico and becoming a member of the Villa bandit army, and adding:

"If you hear of my being stood up against a Mexican stone wall and shot to rags, please know that I think that a pretty good way to depart this life. It beats old age, disease, or falling down cellar stairs."

The nation did hear exactly that. It also heard he died in other ways—lost at sea as a member of Lord Kitchener's staff—in a French war hospital from wounds received in action—at the age of 74!

And two years ago word came that Bierce was still alive, a long-haired old man of 85, living with the Indians in the heart of the Brazilian jungle. It seemed inconceivable, but so did many of the actualities of Bierce's life.

He was the son of Marcus Aurelius Bierce, a New England farmer transplanted in Ohio.

SERVED AN EMPRESS

He was an engineer with the Union Army for the four years of the Civil War, discharged with a distinguished record and a major's rating.

Immediately after the war he edited the News Letter in California, but gave that up to go to England and champion Empress Eugenie, then in exile.

Returning to the United States he achieved fame as a cynic. He was really a great wit.

The nation hailed him in 1893 as "The Modern Scoffer." His pen dripped vitriol. Few things, to judge by his writings, pleased him. Actually he was easily contented, but more so when embroiled in a controversy; the triviality of the subject of the controversy never mattered to him.

ROUSED DOG OWNERS

With a mangey, half-breed hound cuddled at his feet, he wrote that the only thing lower than a person who loved a dog was the dog itself. Assailed on all sides, he chuckled and wrote worse.

He put the Civil War into fiction and young army officers flayed him as knowing nothing of it. They didn't know he was a veteran. Grinning, he gave them battle and never told them.

He had become, at the time of his vanishing, something of a hermit. But he lived on the mountain only because he suffered from asthma.

The search for him was carried on throughout California and Mexico for years.

FIRING SQUAD DEATH

Six years after he vanished, a San Francisco newspaperman claimed evidence proving Bierce actually joined Villa and was killed by a Villa firing squad for aiding Carranza.

The State Department at Washington heard the deliberately-walked into death at the head of Villa forces in Chihuahua.

This was wholly at variance with a letter received by his daughter in 1915, supposedly from him, stating he was with Kitchener.

"FOUR-EYED MAN"

Strangest of all the stories was that which came out of Buenos Aires in 1932, of a white man seen in the Brazilian jungle. It matched

AMBROSE BIERCE

the story told by a high official of the Argentine government that an aged white man, named Bierce or Pearce, was living with the Murcielago Indians.

The Indians called him "The Four-Eyed Man" because he had spectacles. This man gave a guide a bundle of addressed manuscripts to take out of the jungle but they were destroyed in their rotted hide covering before he could get them out to civilization.

(Tomorrow—The mystery of the disappearance of Judge Crater.)

TODAY -:- By Arthur Brisbane

Continued From First Page

still on the gold basis, France, Italy, Belgium, Holland, Switzerland, show least evidence of progress.

Wm. J. Cameron, who speaks with authority, says:

"I believe in higher wages than ever. We haven't seen any REAL wages yet."

The prophecy as to higher wages will come true. When this country was younger, only one mechanic in the United States, a New England carpenter, was able to earn as much as one dollar a day all the year round. See Bancroft. And a President of the United States once complained publicly that you could no longer hire a good man in the United States for less than one hundred dollars a year. Today's wages would have surprised those old gentlemen. Future wages would surprise today's workers.

Mrs. Franklin D. Roosevelt, an absolute teetotaler, but, unlike some others, one who does not enforce her views or habits upon her guests, says that her Christmas party for young men and women, in the White House, will include "beer and fruit punch." At many parties, in the prohibition era, where punch only was officially served, many young people were very drunk, but NOT on fruit punch.

Mrs. Roosevelt sets a good example free from hypocrisy. It is not beer that makes young people drunk.

New York's public utilities have been taxed $14,000,000. Gas and other utility companies say "we should like to get that back in increased rates, please."

City officials are horrified. By whom did they think the taxes would be paid? Don't they know that all taxes are passed on to that gentle beast of burden, *the consumer?*

France will buy airplanes made in the United States, General Denain, head of the air ministry, says so. Intelligent France *wants airplanes in case war should come,* and has no objection to manufacturers making a "war profit," if they can make the right sort of plane.

TRADE LEADERS DIVIDED ON LOAN PLAN

By Associated Press

White Sulphur Springs, W. Va., Dec. 18—American industrial leaders, meeting to promote co-operation with the administration, received today with mixed opinions the plan for a nation-wide network of federal lending agencies.

Some members privately expressed doubt of the probability of the plan, recommended to Secretary Morgenthau yesterday by special treasury department investigators. They declined to be quoted, however, explaining that the meeting itself may take up the subject.

There was informal comment that individual banks should become more active immediately in lending money, with opinion divided as to whether there should be a cessation of government lending.

Determination was evinced by the 90 business executives, meeting as the "joint business conference for recovery," to end what is regarded as a period of exile from government councils.

One basic principle—that there should be a continuing committee to represent all business—underlay the study for a permanent liasion in the capital among various business organizations, which could voice effectively the views of commerce before the administration and Congress.

The executives were careful to avoid the implication they are setting up a lobbying organization. They explained the theory behind the idea of the liasion is simply that business has failed to present its views adequately, and that its efforts in the administration have been so diffused as to be ineffective.

"Burlycue" Tag Riles Her

Her feelings were injured to the extent of $50,000 when she saw her photograph displayed with semi-draped "Oriental Beauties" in the lobby of a Washington street burlesque house, said Fofo Louka. So the Greek actress filed a suit for damages. (Picture by Boston Evening American Staff Photographer.)

FOFO'S PICTURE BRINGS SUIT

And furthermore, when is an 'Oriental Beauty" not an oriental beauty?

Let Miss Fofo Lauka of West 43rd street, New York, and other addresses in the United States and Europe, tell about it.

Miss Fofo says, as leading dramatic actress for the Athenian Theatrical Company, that she objects, to the tune of $50,000, to the use of her picture in front of a theater as such a beauty.

In particular she specifies the picture she claims was displayed at the Minsky's Washington street burlesque house in June of the current year.

Therefore, maintains Miss Fofo, she thinks that $50,000 is little enough for reimbursement, and her suit pends in the municipal court.

In the papers on file, Miss Fofo declares that she was never identified with the burlesque profession until her photograph was displayed among a group of "Oriental Beauties" or "All Aboard to Minsky's Summer Follies."

In answer to which, the defendants denied each and every allegation and said that if such a picture was used, it was privileged.

James R. Douglas Dies

Montreal, Dec. 18—James Robson Douglas, former lieutenant-governor of Nova Scotia, is dead here.

BUSY DAYS AT WHITE HOUSE

Continued from Page 3

They want Santa Claus to bring "real musical instruments.

A doll was never desirable to "Sistie, her grandmother, the First Lady, disclosed. "Sistie wants a cornet, with all variations.

"Buzzie" cherishes a want for, not one, but several harmonicas, with not only enough variations to accompany Sistie, but a few for his own entertainment.

Two Dinners

Mrs. Franklin D. Roosevelt, the President's wife, said that she would entertain "young friends" at a dinner on December 29 and a similar soirée of older "younger friends" for James and Elliott Roosevelt on New Year's Eve.

But for the business of tonight there will be the opening of the second Roosevelt social season.

For all the absence of the dynasty's new china set, there will be a formal dinner, with "two light American wines" alongside the pre-Rooseveltian plate.

And here it is that there may be something in the way of an announcement of the engagement of a White House daughter.

And this despite Mrs. F. D. Roosevelt's statement:

I have nothing to say. You may have heard the rumor, but I never have."

Forecasts Naval Race

Paris, Dec. 18 (AP)—A naval race was forecast today by Francois Pietri, minister of the navy, as a consequence of Premier Mussolini's proposal for the construction of two 35,000-ton battleships.

Cambridge Fireman Hurt

Edward Malone, 45, of Cambridge fire department suffered serious internal injuries today when he fell through the burning flat roof of a building at 135 Sidney street, Cambridge.

Ward 4 Bingo Party

Members of Ward 4 Democratic Club of Somerville will hold a bingo party tonight at Northeastern junior high school, Marshall street, in aid of the club's Christmas Basket Fund.

GALLOWS NEAR POISON WIFE

By Associated Press

London, Dec. 18—Widespread appeals for clemency stood little chance today of saving Mrs. Ethel Lilie Major, 42, from going to the gallows tomorrow, the first woman to be hanged in eight years.

The condemned woman collapsed when the home secretary's office yesterday denied her application for a reprieve. The jury which convicted her of poisoning her husband had recommended mercy.

Mrs. Major is steadfast in her denial that she killed her husband, with whom she had lived for 17 years. Prayers were read her by a chaplain and she was cheered by a visit from her 15-year-old son.

Gallows were being prepared at Hull prison for her execution at 9 a. m.

DUNN TALKS TO SCIENTISTS

John Randall Dunn, member of the Christian Science Board of Lectureship, addressed a large audience at the Christian Science Church on "Christian Science: The Revelation of Abundant Life."

Many people of today, he said, are afraid to break away from what they term the common sense of a purely material view of existence. He added:

"If they but knew of the good and freedom and more abundant life that awaits every adventurous thought, willing to break tryst with superstition and material limitation and honestly seek the light of spiritual truth, how eagerly and joyously would they turn to the study of the science of Christianity."

Dope Never Essential, Jail Doctor Says

By RUTH MUGGLEBEE

Indiscriminate use of narcotics is the lazy doctor's method and habit-forming opiates could be expunged from the American pharmacopoeia without harm, it was declared today by Dr. Paul Rooney, head physician at Charles Street Jail.

Habit-forming narcotics are not necessary, he said, in the practice of medicine and during his long service at the jail he has never given morphine or other narcotic to a drug addict.

In that time, only one addict has died, and his death was from pneumonia and not because his narcotics had been cut off, Dr. Rooney said:

"There are many substitutes of even greater efficiency, which are not habit-forming. We use amytal tablets, one of the barbituric acid derivatives. While it is a hypnotic and sedative it is not a narcotic.

"We cut down the doses, so that at the end of a week or two the patients are given no furt. er medicine by mouth.

SELDOM NEEDED

"I agree absolutely with Dr. Francis McNamara of Cook County jail in Chicago when he says that morphine and its derivatives could be eliminated.

"In my part-time practice, I have used only two or three tubes of morphine a year and then only in cases of emergency. Harvard Medical School taught us, when I was a student, not to use habit-forming drugs, except in cases of emergency and cancer.

"Like most physicians attached to penal institutions, I have had an opportunity to observe the terrible effects of habit-forming narcotics. Temporary alleviation of pain is a poor excuse for the ravages of opiates carelessly prescribed.

CAUSES ADDICTS

"The truth of the matter is, that the indiscriminate use of narcotics is the lazy doctor's method. In my opinion, this lazy and easy method of giving temporary relief has contributed largely to the army of pitiful addicts in the country today.

"The biggest danger in cutting down the dosage in institutions is that jail physicians are not at the institution 24 hours a day and sometimes officers unwittingly repeat the dosage of the substitutes prescribed by the doctor.

"And it is a favorite practice of addicted inmates—one which we watch most carefully—to obtain derivative tablets on the pretext of headaches, save them until they have an accumulated dose and then inject it.

LOOKS THROUGH CLOTHES

"At this institution we use the cold-turkey method; that is we shut addicts off altogether until they are back to normal. Of course many of them have plants and many of them seek ingeniously to have it brought in to them by their friends, but with the new detector instrument employed at Charles street jail on visitors to known drug addicts, nothing has slipped by the guards.

"By the use of this instrument, the guards are able to look through the clothing of the visitor. The change of color in the clothing discloses the presence of concealed dope.

"We have found it tucked away in the wadding of the coat shoulders. We have discovered a visitor passing it by mouth during an embrace.

"It is the wisest and safest way not to have a habit-forming narcotic around an institution, for addicts will contrive to get it if it is known to be on the premises."

SLEUTHS FIND NEW CLUES TO BOMBINGS

New clues and information in the recent bombing of four theatres in Boston, Lynn, and Pawtucket, were brought back today by Detectives Benjamin Goodman and William Goldston, of the radical squad from their trip to Brockton.

Sent there to trace down rumors that a well known professional bomber had been seen in Boston prior to the bombing, they returned without a prisoner.

They will report today to Deputy Superintendent James R. Claflin, in charge of the 20 or more detectives assigned to the case, and tell results of their investigation of a tip received by police through the medium of an anonymous letter.

IN PAWTUCKET

Lieutenant George V. Augusta and Detective Joseph Decker were dispatched to Pawtucket to seek additional information, as the unidentified informant posted his letter from there.

Armorer Edward J. Seibolt, police department ballistics and explosives expert, reported to Superintendent of Police King that he was of the opinion that time bombs were not used.

FUSES USED

As a careful search of the destroyed areas in the theaters showed no trace of timing devices, he said, the probabilities are that fuses were used.

That opinion checks with information previously reported in the Boston Evening American that a man was seen to leave the Tremont Theater just before the explosion which wrecked the foyer.

Phone Employes Aid 7000 Children

Christmas cheer for over 7000 destitute children is being provided by employes of the New England Telephone and Telegraph Company this year.

In accordance with a custom now in its fifth year, operators, plant men, clerks and executives of the company are voluntarily foregoing their own office Christmas parties and are contributing to a fund of more than $35,000. Warm outfits of winter clothing will be given to their young guests at parties in practically every office headquarters throughout New England.

Guarded Against Kidnapers

Private detectives do day and night guard duty, protecting Miss Barbara Hope Harding, 18, above, against would-be kidnapers who have threatened the girl's father, wealthy Harry J. Harding of Proctor avenue, Revere, it was revealed today. Miss Harding is a pupil at the exclusive Kendall Hall school at Pride's Crossing.

REVERE GIRL GUARDED

Continued from First Page

ter at Kendall Hall. If you don't lay off, she'll suffer."

This threat was received on Thursday, December 6.

Attempts were made to trace the call but all failed. Three private detectives were then sent to the school. They guarded Miss Harding there until she left for home Friday for Christmas.

The detectives continued their vigil at the home but today took Miss Harding to an unannounced destination when news of the threat became known. Two of the detectives and a woman left with her in a yellow sedan.

NO REPORT TO POLICE

Revere police reported they knew nothing about the threat. Chief Edward J. Tighe said the first he knew of the affair was from a reporter.

Miss Harding, a popular member of the younger set in Revere, graduated from Revere High School last June.

She was kept under cover by the detectives, but her mother reported that the girl was less concerned than the rest of the family.

Daniel R. Pinkham of Lynn, friend of the family, said he was their spokesman and made this statement:

"Twelve days ago Mr. Harding was called on the telephone by some man, who said, 'You'd better get out of that campaign. Don't forget you have a daughter, Barbara, in school at Kendall Hall and you wouldn't want anything to happen to her.'

"Mr. Harding attempted to trace the call without success. He immediately obtained a guard which was sent to Kendall Hall school.

"She was a good sport about being guarded and co-operated nicely. She is still under guard will be for some time.

"It was a straight kidnap threat and only by telephone. There was only one direct threat."

George Kendall, assistant headmaster of the school at Prides Crossing, said that private detectives kept watch at the school last Thursday and Friday and accompanied Barbara home for her Christmas holidays.

'Course, My Daddy'll Win'

JAMES M. O'BRIEN

LORETTA O'BRIEN MRS. O'BRIEN

Here's little Loretta O'Brien, of Revere, right along with dad and mom as they cast their votes in City Hall in today's Revere mayoralty election. Loretta's sure that her father, James M. O'Brien, will win out in his candidacy against present Mayor Andrew A. Casassa. She's been an ardent campaigner. (Picture by Boston Evening American Staff Photographer.)

Harts Convicted of Tax Evasion

Pleading guilty of charges of conspiracy to evade and evasion of income tax payment in 1929, Jacob Hart and his son, Isaac Hart, of Boston, were each given a year and a day, and then placed on probation, by Federal Judge Elisha H. Brewster.

They were stock salesmen for a candy firm, now out of business. A compromise on a tax of $8200 was accepted by the government.

HEAVY GUARD AT REVERE POLLS

Continued from First Page

cast their votes—about 10 per cent of the voting strength of the city. The heavy voting continued during the day.

The polls, which are open until 8 p. m., are guarded by 20 state troopers, 10 extra police from Lynn, 47 of the Revere force, and 18 extra election supervisors appointed by Governor Ely.

In Fall River an equally exciting contest was being waged between Mayor Edmond P. Talbot and Alexander C. Murphy, the latter forced out as city manager by mandate of the voters that eliminated the city manager system at the state election in November.

The state and Lynn polls were furnished on the appeal of many of the candidates.

O'Brien's candidacy for mayor in Revere left his position as treasurer open. Councilman Thomas M. Kelly and Paul C. Wallace are fighting for the post.

Tax Collector Ernest Acker is opposed by Lawrence J. Gillis for that position.

Of the eight candidates who seek the four places as councilman-at-large, the only present councilman is William H. Gallagher. Richard M. Armstrong and Henry J. Currier are also in the field. The others are Athel M. Coolidge, Benjamin Kelliher, John M. MacAuley, Charles W. Nelson and Thomas M. Sayward.

Seeking the four-year term on the school committee are Dr. Frank E. Rowe, present committeeman; Mrs. Mary E. Strong, who served before, and George F. Mitchell and Leo C. Shea.

Tax Assessor Clarence E. Clisbee is opposed for his office by Peter E. MacAuley.

In the contests for ward councilmen, Warren L. Campbell and Georgo A. Cole seek the post for Ward 1; Arthur X. Rubin and Sidney Zuker in Ward 2; Joseph DelGrosso and Allan S. Parker in Ward 3; Councilman James C. Doyle and Roy A. Searle in Ward 4, and Councilman George J. Foley and Stephen J. White in Ward 5.

JUDGE REFUSES ROSEBUD PLEA

A petition filed for reorganization of the Rosebud Dining Rooms, Inc., under authority of the new Corporate Bankruptcy Act, was dismissed by Judge Hugh D. McLellan in Federal court today.

The court's action means that Daniel A. Shea and Hugh J. Shaw will remain in charge of the liquidation of the concern as State court receivers.

Attorney Romney Spring, of counsel for the trustees, stressed sections of the new Corporate Bankruptcy Act permitting the court to direct liquidation to be carried out by Shea & Shaw as trustees.

Judge McLellan said if he so ruled it would tend to create a precedent in allowing trustees to perform functions regularly carried on by the referee in bankruptcy.

McAdoo Leaves Manila Hospital

Manila, P. I., Dec. 18 (AP)—Recovered from an attack of acute indigestion, Senator William Gibbs McAdoo of California today left Sternberg General Hospital where he was confined for four days.

MAYBERRY TRIAL IS DELAYED

Continued from First Page

but that no concern was felt about his absence.

Patrick J. McArdle, Charlestown undertaker and father of the missing witness, said his son is very ill and is somewhere in the country on orders of a physician.

Crafts later revealed that McArdle's absence may cause a postponement of the proceedings.

He said that Mrs. McArdle reported her husband suffering from a nervous breakdown 10 days ago, and refused to disclose his present whereabouts because doctors had ordered that he be not disturbed. Crafts said:

"McArdle is an important witness. The defense wants him as a witness and they will have him. I will ask for a continuance of the hearing if, when the remainder of the case is concluded, he has not appeared and the defence still wants him."

The McArdle home is in Nahant.

The courtroom, as hearing resumed, was crowded, chiefly by lawyers interested in the case. John J. Donnelly, convicted jury fixer, was again taken to court from the Norfolk prison colony, where he is serving eight to ten years.

Mayberry is accused of conspiring with Donnelly to "fix" jurors to bring in verdicts favorable to Mayberry clients. Donnelly was missing at the time of the original Mayberry hearing which resulted in dismissal of the disbarment action.

Carl M. Kohler of Haslett street, Roslindale, was today's first witness, recalled for cross-examination. He was one of two witnesses who yesterday testified that attorneys they received money from Donnelly in connection with verdicts favorable to Mayberry clients.

Kohler testified Donnelly paid him $50 after the jury of which he was a member returned a $5278 verdict in favor of Miss Ina M. Downs of Lexington in a suit against a Boston furniture company.

He was cross-examined regarding his testimony on three previous occasions, before the claims commission, before Judge Lummus at the first court hearing, and at the criminal proceedings against Donnelly. He testified he had said the jury favored a verdict for Miss Downs.

Q.—You were paid $50 for doing what you were going to do anyway? A.—Yes.

He admitted taking the money was wrong and said he did not know why he never reported it to the trial judge.

He said he never saw Mayberry except in court at the trial.

RAIL AGENT ON STAND

Richard W. Hawkins, of Milton, a Boston & Albany railroad claim agent, was called to testify regarding the third of the six cases being presented. This was the claim of John E. Kinchla against the railroad, for which Mayberry was counsel. A verdict for the plaintiff in September, 1931, for $2891 was set aside and a new trial granted. A year later, on retrial, the verdict was for the railroad.

Hawkins said he worked for Mayberry in his spare time as an investigator and that when he was unable to take on this work Mayberry said he would give it to a "Mr. Malloy or Mr. Donnelly."

He denied ever having seen Donnelly in Mayberry's office and, since previous testimony, that he might have has learned one Timothy Donnelly was probably the man he saw.

TESTIMONY READ

By agreement of counsel, testimony given at the first hearing by Robert K. Walker, formerly of Beachmont, was read. Walker was a Kinchla case juror at the second trial. He is now, court was informed, in an insane hospital.

In this first testimony Walker said that a man named Waldren was introduced to him by a man named King, and that in Broadway, Revere, he met one Charles Murtaugh and a stout man with glasses whom he learned was named Donnelly.

Donnelly offered him money for a defense verdict, the testimony continued, and Murtaugh said Mayberry was getting $10,000 a year from the railroad, and the "stout guy said it would mean his job if he didn't win the Kinchla case."

Walker's testimony recounted that, after the jury rendered the verdict for the defense, he received $75 "from the stout man" and gave Murtaugh $5 or $10.

New Lynn School Asked

A Lynn city council meeting tonight will act upon a recommendation that the new $300,000 Highland grade school be erected upon the site of the present structure on Hollingsworth street, Lynn.

LINDY NURSE TO SAIL SATURDAY

By Associated Press

Glasgow, Dec. 18—An authoritative source said tonight that Betty Gow, former Lindbergh nurse, would sail for Canada Saturday on board the S. S. Duchess of York.

This information was the latest development in efforts to ascertain the whereabouts of the woman who is expected to be an important witness in the trial of Bruno Richard Hauptmann, accused of the murder of Miss Gow's former charge, Charles Augustus Lindbergh, Jr.

Early today she was believed to have sailed on the S. S. Aquitania, and later she was thought to be aboard the S. S. Caledonia, both of which are headed for the United States.

A berth has been booked on the Duchess of York, which sails for Halifax, in the name of "Mr. Gow."

The report that Miss Gow was aboard the Aquitania was denied by the purser of that ship, while the fact that she attended a social function in Glasgow last Saturday discredited the belief that she might be aboard the S. S. Caledonia, which now is nearing America.

It was reported here that Miss Gow today received a cable from Hauptmann's lawyer, asking her to sail immediately.

Miss Gow had not been seen in Glasgow for many months until last Saturday, when she went to the exclusive Piccadilly Club.

Her movements recently have been carefully concealed, and it was learned that a short time ago she went to Edinburgh to give the impression that she had left secretly for New York, although later she returned to Glasgow.

Mr. Hultman, Did You Get One

Joseph A. Conry, former Boston traffic commissioner, now living in Washington, D. C., is remembering his friends with Christmas greeting cards, containing a poem, which reads:

"MERRY CHRISTMAS, 1934"
"At This Grand Christmas Season
Aspire for the Highest Goal.
Pray That Humor Wit and Reason
Nuture Knowledge of Your Soul."
JOSEPH A. CONRY,
Washington, D. C.

It is not known whether Police Commissioner Hultman received one.

Boy, 9, Sails to Join Kin for Holiday

Christmas Day, in a tropical setting, will prove a unique experience to many of 99 passengers who sailed today from Commonwealth pier on the liner Lady Hawkins, bound for Bermuda, and the British West Indies. But to the 100th passenger it will mean more than that.

He is Master Charles Darrel Winman of Providence, 9-year-old schoolboy and he is en route to St. Kitts to spend the holiday with his mother and grandmother.

PROF. BRACO DIES IN KEENE, N. H.

Keene, N. H., Dec. 18 (AP)—Jean Charlemagne Braco, 81, professor emeritus of Romance languages at Vassar College, participant in international peace conferences, and author, died in his home in West Keene today.

Good Food Values in and Around Boston

LAST MINUTE GIFTS?

DO NOT BE DISCOURAGED If you've let things slide until the last minute, for you will be more than delighted with French baking dishes made of earthenware pottery which has been baked to a dull orange glaze. Imported from France, where they are among the household equipment of every family. Make an excellent gift suggestion, for the smartest hostesses use them. Come in three different sizes—60c, $1.25, and $2.25—with handles.

A SET OF BOWLS is always a much appreciated gift and these are so attractive they could be used for service at the table. Cream colored pottery bowls with a red or green stripe at the top and raised flower decorations. Set of five for $1.75.

IF YOU ARE of a practical turn of mind, this new cream maker would be an excellent gift suggestion. Cream can be made from butter, salt and milk, for 6c a half pint, instead of the usual 14c. This piece of equipment is a perfect emulsifying agent making of the butter and milk a cream that never separates. This is the principle on which commercial ice cream is manufactured. $4.95 complete.

THE WOMAN WHO ENTERTAINS a great deal will enjoy a triple tray which has one tray placed above two, fitted together, with a handle at the top for ease of serving. Particularly nice for serving a small informal gathering, for sandwiches, cakes and cookies can all be arranged and served at one time. Sells for $3.95—of chromium finish.

SURELY YOU ARE having plum pudding for the Christmas dinner. It is part of the tradition which has been handed down for centuries. According to the old custom, the lighted pudding should be brought in darkened room. There is an especial price on a well-known make of plum pudding—1 lb. for 27c or four for $1. Included in this is the delicious fig pudding. These may be stocked up to serve during the coming winter months.

ICE CREAM IS generally part of the holiday feast and here is a special at a well known chain store. A Yule Tide log roll which contains a Nesselrode ice cream center, with fruit and holiday flavoring surrounded with a layer of delicious strawberry ice cream. 69c and will serve six to eight people. The orders will be individually packed in dry ice to keep until used. Get your order in early.

THERE ARE MANY delightful crackers now available to serve with cocktails or fruit cups. The advantage of these is that there is no preparation and they are not too hearty to be served before a heavy meal. This new cocktail cookie, which is put out by a well known manufacturer, will find great favor with you. Has a celery flavor which makes it ideal for serving with highly seasoned or sweet cocktails. Come in 4½-oz. package and sell at two for 25c.

SOME PEOPLE make a party of appetizers alone, and this note will be of great interest. Delicate, light, crispy wafers are a joy as there is no preparation to making them. Come in cup shape, so that they are perfect for serving. Special at a popular food shop. Come in a tin, 3 pkgs. for 55c, ordinarily 20c a package. This same mixture is also made into a wafer which is excellent to use for a snack or tea, toasted with cinnamon and sugar or cheese, which likewise sells at 3 pkgs. for 55c, ordinarily 20c each. The same wafer made with milk is selling for 35c or 3 for $1. Another advantage of these wafers is that they are made of wheat and rolled in flour, so that the calorie count is low.

HERE IS A FOIL for kitchen labor! An aluminum foil which can be used to keep foods fresh because it seals the moisture in and seals foreign flavors out. Can be used to cover butter, fruit, lettuce, and celery, open dishes, to wrap meats in the refrigerator. Use it to line pans when baking fish. Excellent for covering fruit cakes while baking, to avoid drying out. Perfect for wrapping school lunches or picnic sandwiches. Can even be used for doing up gay, Christmas packages. This aluminum foil should be in every home. Comes either ten large sheets to a package at 25c, or a roll package with a tear-off arrangement, for $1.

MAPLE SYRUP HAS many uses these days in candy making, for hearty holiday breakfasts, or parties. There is a special of a well-known brand at a near-by store, for 21c. With this is given a glass plate which can be used for waffles, candies, cakes, etc.

I SHALL BE DELIGHTED to tell you the where and how much of all the above items, if you will send the column clipped and checked, and that necessary name and address, as well as a loose 3c stamp. Or, telephone Martha Lee, at LIBerty 4000.

Faithfully yours,
MARTHA LEE.

BROWN DERBY'S BASKET PARTY NETS $347

Today the editor of the Boston Evening American Christmas Basket Fund received a check for $347.50 from the Brown Derby out of the big Sunday night show—and because you of the public attended. It will be possible to feed 175 more needy families on Christmas Day.

But there are other shows and parties on the card for this week and for next Sunday night, the largest being the big show at the Cocoanut Grove, where more money will be realized for the Basket Fund and the needy if you turn out.

This party in the popular dine-and-dance spot in Piedmont street, just off Broadway, will be the biggest Sunday night show Boston has yet seen, according to Barnett Welansky, the Grove director.

COMPLETE SHOW

The complete floor show of the Grove, featuring Jacques Renard and his orchestra, will be seen, augmented by a sparkling lineup of radio and stage stars.

Dinner will start at 8 p. m. and the floor show will run from 10 p. m. until midnight, with dancing from midnight until 2 a. m.—and all for only $2.50 a person.

There will be more details later, but, meanwhile, several organizations will hold shows and parties during the week in aid of the Boston Evening American Christmas Basket Fund for the needy and unfortunate at Yuletide.

SMITH CLUB FETE

Tonight the Alfred E. Smith Club of South Boston will hold a big vaudeville show at the Municipal Building in South Boston.

President Martin J. Quinn and Representative Robert V. Lee head the committee for the club.

There will be two parties tomorrow night. One will be sponsored by the Paisley-Walsey Club, which already has held one for the Christmas Basket Fund at the same location, the New Normandie Ballroom in Washington street, on the site of the old B. F. Keith Theater.

DANCING PARTY

The other Wednesday night benefit will be a dancing party in Robert Burns Hall, Berkeley street, South End, under the auspices of Arthur "Red" Harrison.

On Thursday, the Greater Boston Chapter No. 44, Disabled American Veterans of the World War, and its auxiliary, will hold its December bridge and whist party.

Plans for the midnight show at Minsky's Park Theater for the Basket Fund and school children's shows are practically complete. When the curtain rises on Friday night, December 21, every dollar that has entered the box office for the benefit performance will be distributed to the needy of Boston.

The producers, actors, stagehands, ushers and operators all have given their services.

Another midnight show on Friday will be at the Park Theater in Washington street, the second such show given for the Basket Fund at this popular playhouse.

In addition to cash with which to supply baskets to the needy, the theater will provide 100 pairs of shoes for distribution.

U. S. 'SPY' PAIR ASK LENIENCY

By Associated Press

Paris, Dec. 18—A young American couple held in jail a year on charges of participation in a huge spy ring, which peddled France's military secrets, hoped today for an indication of their fate.

An official report was forwarded to the district attorney's office containing recommendations as to what action should be taken against the two, Mr. and Mrs. Robert Gordon Switz, of East Orange, N. J., and 32 Europeans accused with them.

The Switzes were jailed December 17, 1933, and then subjected to constant questioning. Authorities said the Americans disclosed operations of the espionage band.

As a result of their reported confessions, the Switzes are expected to be dealth with leniently. Imprisonment for five years is the heaviest sentence that may be given them.

Mrs. Switz, a former Vassar student, is but 23, while her husband is 30. Switz is a licensed airplane pilot both in the United States and in France.

Vienna to Send Poderjay Back

Vienna, Dec. 18 (U8)—Extradition to the United States of Ivan Poderjay, Yugoslav husband of the missing New York lawyer, Agnes Tufverson, was decided upon by a Vienna court. The foreign ministry will inform the American government of Austria's readiness to turn over the prisoner in a few days.

Popeye Tells 'Em at Basket Concert

ALICE MANNING HARRY WHITE SARAH DANTON BILLY COSTELLO

LAWENCE P. McHUGH JEAN STERNER

Popeye, the Sailor Man, hero of Boston Evening American comics, is shown here in real life telling a new yarn about Wimpy to a group of friends from Scollay Square Theater who helped him entertain at the Christmas Charity Concert in Mary E. Curley school hall. Governor-elect James M. Curley was invited as honorary chairman of the affair.

Please Aid Little Ones, Needy Mothers Beg

Letter after letter pours in on the Boston Evening American Basket Fund. Hardly a writer asks assistance for himself; it is for the children that destitute fathers and mothers ask a little Christmas joy.

Here are a few of the latest appeals. In view of need like this, can YOU put off any longer making that contribution to the Basket Fund?

Case No. 59

I am writing to you to know if you could send us a Christmas basket for Christmas. I have nine children, the oldest is only 16 years and the youngest is two years. My husband is out of work for four years. The children haven't any clothes for Christmas. They have a few rags which they wear to school; the three youngest haven't any shoes at all; they stay in bed all day.

Last Christmas we had a terrible Christmas day, and we had nothing to eat. We had only toasted bread for a Christmas dinner, and the children were crying, for they were hungry. One of my girls said to me, "Mother, why can't we have a Christmas dinner like other people?"

We have no electricity or gas; we use kerosene lamps. Please have pity on me. Please don't forget to send us a Christmas dinner and clothing for my children and make them happy on Christmas day. Please someone help me out and my children.

This mother lives in Cambridge. Anyone wishing to help her may do so by calling the Christmas Basket Editor, Liberty 4000, and asking for Case No. 59.

Case No. 60

Will you please send us a Xmas basket this Christmas? My husband is on the welfare and so are the rest of my people.

I have just been discharged from the Boston City Hospital after having had a major operation. My husband is 100 per cent disabled and is an out-patient at the Boston City Hospital.

We had a very poor Thanksgiving, our dinner consisting of just bread and coffee. Our children, three of them, aged two, four, and six years are undernourished as we get only $7 per week from the welfare.

We are swamped with bills and cannot pay them. Our credit is gone everywhere. I hope you can give us a basket this Christmas as we are in great need.

Hoping you can give us a basket as we have never asked for one before and we always contributed when my husband was working steady.

This mother lives in South Boston. Anyone wishing to help her may do so by calling the Christmas Basket Editor, Liberty 4000, and ask for Case No. 60.

Case No. 61

My husband has been out of work for three years and we have three children (boys), whose ages are 10, nine, and the baby almost five, and they are destitute for clothes, especially blouses, pants, shoes and a coat for my boy, nine years old. His shoes are gone practically, as there is a big hole in the sole of each, and should it snow, I would have to keep them home from school.

Most of my furniture was taken away last year and an old couch which had been left out in the yard to rust was brought in and slept on. I haven't got a mattress for it. Just an old comforter serves that purpose.

My husband is a veteran and we receive soldiers relief aid. Unfortunately Christmas will be a mighty sad one for us, unless some miracle happens. I try so hard to look on the bright side of life but get so discouraged at times.

If you could, just please try to send my children a few of the real necessities of life, warm clothes and shoes and a basket of food I would be so grateful to you. It would help make us so happy at Christmas. If you could send an investigator here proof and conditions would speak for themselves.

This mother lives in Roxbury. Anyone wishing to help her may do so by calling the Christmas Basket Editor, Liberty 4000, and ask for case No. 61.

BASKET DANCE AT NORMANDIE

Winnie Holland is chairman of the Paisley-Walsey dance to be conducted at the Normandie Ballroom tomorrow evening in aid of the American Christmas Basket Fund. Assisting her are Ann Culkin and Dorothy Gorman.

This is the second dance that the club has held for the fund, the first dance netting approximately $150. This affair, in addition to rhythmical arrangements by Bob Brunton's orchestra, will be featured by an attractive floor show.

They Enjoy Pain. Science Finds Some People Who Can't Suffer, and Reveals That Pains and Fevers Are Not Curses, but Blessings. An Article in The American Weekly, the Magazine Distributed in the Dec. 23rd Boston Sunday Advertiser.

Time Short for Donations to Basket Fund

Just one more week to Christmas. You can hardly wait.

But what of the hundreds and hundreds for whom it will be a day just a little more miserable than all others—more miserable because the joy and plenty of all the world just intensify their own poverty and hunger and cold and hopelessness?

It was to bring at least a single day of joy into homes like those that the Boston Evening American years ago established its Christmas Basket Fund. And it is through the fund that you can most readily spread your little bit of Yule happiness.

ONE OF HUNDREDS

If you think there is no need for it, just consider this case. It's typical of hundreds and hundreds that have been brought to the attention of the fund—all properly certified—and for all of which it is hoped to make as adequate provision as possible.

"I don't know how to begin asking for a basket for Christmas for my four children and myself as I never did it before," writes a Roxbury mother. "But Christmas won't be anything to us this year unless someone is good to us.

"The children are looking forward to Santa Claus and I hate to have them disappointed. I have four children, a baby 15 months old, a boy of 2 years, another boy who is 3, and a girl, 6.

"We all sleep in one room as we are short of beds, and the baby sleeps in the kitchen. My husband makes a very small salary, and everything goes for past bills I owe and electricity and fuel. I have very little left for clothes and food.

"My children have all been ill with whooping cough, measles and chicken pox. They are all over it now, but it took all I had for medicine.

"I plead with you not to forget me this Christmas, as I want the children to have something. Thank you, and please remember the poor children. My baby has no clothes to wear—or shoes—and he has a severe cold on account of it. I know I won't be forgotten, please."

SPEAKS FOR SELF

There is no need to comment. The letter speaks for itself. And every mail brings more and more just as pathetic.

The $25 received today from Local 182 of the Boston Operators' Union, 116 Broadway, and the $10 from the employes of the O. H. Lane Company, 396 Atlantic avenue, will care for a number of such cases. Your gift will help yet others.

Please send it today to the Boston Evening American Christmas Basket Fund, 294 Devonshire street, Boston.

Christmas Party at B. U.

Men and co-eds hold a joint Christmas party tomorrow afternoon on the "Marble" of the Boston University College of Liberal Arts.

Public Carol Program

LADDER, CHISEL, GUN, FOOTCAST LINK BRUNO

This is the eighth of a series of 12 articles discussing evidence which will be delved into at the trial next month of Bruno Richard Hauptmann.

By JAMES L. KILGALLEN
International News Service Staff Correspondent

Copyright, 1934, International News Serv.

Flemington, N. J., Dec. 18 (INS)—A ladder, a tiny gun owned by Hauptmann, ransom money, road maps, a chisel, nails, a German-English dictionary and specimens of the defendant's handwriting, will play an important part in the impending trial for murder of Bruno Richard Hauptmann.

The state will use them in an attempt to tie Hauptmann to "the crime of the century."

Perhaps the most specific evidence of all against the defendant is the ransom money. That is hard to refute and the prisoner admits he had it.

When the police raided the Hauptmann home in the Bronx, New York city, at the time of the defendant's arrest they found $13,750 in Lindbergh ransom bills secreted in the suspect's garage.

"You won't find any more money," Hauptmann told the authorities.

But they went back and found $840 more cleverly concealed in holes bored in a plank in the garage. A small automatic pistol was found hidden in one of the holes.

GUN MAY BE SHOWN

The tiny gun may play a significant part in the trial—and again it may not. It will be important if the state claims that Baby Lindbergh was shot.

At the autopsy it was found that the child had suffered a wound on the head, as if it had been struck by a blunt instrument. Nothing was said in the medical examiner's report, however, of a bullet wound.

Hauptmann said he purchased the gun from a friend but declined to reveal this man's name. Later Hans Mueller, a cousin of Hauptmann's said in an interview that it was he who sold the gun to the Lindbergh case suspect.

Hauptmann would not agree that the tiny pistol was the type of "Kamerad" gun said to have been in use by the Germans during the war—a small gun that could be concealed in the palm of the hand when a prisoner was ordered to throw up his hands. Hauptmann was a German machine gunner during the World War.

CHISEL IN DOUBT

The kidnap ladder will be an important exhibit. Lumber from which the ladder was made is declared to have been traced to the Great National Millwork and Lumber Co. in the Bronx. Hauptmann not only worked at this place for a time but also made small purchases there.

However, Hauptmann steadfastly insists he had nothing to do with the kidnap ladder. Although he was a carpenter for nine or ten years he claims he never built a ladder. He admitted he could build one—"any carpenter could."

What part the chisel will play at the trial remains to be seen. Investigators have been trying to trace the chisel, which was to pry open the window of the nursery at the Lindbergh home, to a Bronx hardware store where Hauptmann made purchases.

Experts also have been making tests to determine whether a hammer owned by Hauptmann pounded the nails used in the kidnap ladder. Nails used in the ladder have been stated to match nails found in Hauptmann's garage shop.

Road maps, showing side roads in the vicinity of the Lindbergh home, were also found in Hauptmann's trunk. Also found in his effects was a map showing a region of Martha's Vineyard in the Massachusetts Bay area, the which region the kidnaper directed Colonel Charles A. Lindbergh after the $50,000 ransom was paid.

HOLES LIKE TARGETS

Hauptmann's trunk yielded a German-English dictionary, with pages containing difficult words turned down.

The penmanship of Hauptmann and the symbols on the ransom notes will also come in for much attention at the trial. It is quite probable that experts will testify that holes in the center of the symbols in each note were made with an awl. Hauptmann was a carpenter.

A New York newspaper pointed out that the symbols are similar to targets used by the German army in machine gun practice.

The state has a cast of a footprint left by the kidnaper in St. Raymond's cemetery the night the ransom money was paid over by Dr. John F. Condon. Whether the footprint corresponds with Hauptmann's foot has not been officially disclosed. This may be one of the surprises of the trial.

No fingerprints—at the scene of the crime or elsewhere—are available, as far as known.

(Tomorrow: Mr. Kilgallen will discuss Hauptmann's criminal record.)

Prize for Young Birdmen

TORREY L. CAPO JEANNETT MAHLER

Contact Junior Birdman members! Give 'er the gun! Here's the prize that your zooming planes will have to compete for at the New England Indoor Model Plane Flying Derby to be held at the South Armory next Saturday. Admiring the championship trophy of the Boston wing are Torrey L. Capo of Quincy and Miss Jeannette Mahler of Brookline, both ace birdmen. (Picture by Boston Evening American Staff Photographer.)

Dean Archer has chosen as his subject "Our Forefathers and Their Sons."

* * *

A Christmas supper dance under the auspices of the Greater Boston Undergraduate Club of Holy Cross College, will be held on Thursday night, December 27, in the Copley Plaza. George F. Keenan, Jr., of 207 Bay State road, is chairman.

BIRDMEN TEST AIR SKILL

With official entries received from nearly all of New England's foremost model plane fliers, a keen battle is in prospect when the Junior Birdmen's first official indoor tournament is held at South Armory, on Saturday, Dec. 29.

The goal of the contestants will be the New England championship trophy and a free trip to Detroit during Easter week to compete in the national derby. About 18 gold, silver and bronze medals are to be awarded to the runners-up. In addition certificates of proficiency will be given other winners.

Fifty ambitious Junior Birdmen, anxious to win the chance of competing at Detroit for the William Randolph Hearst trophy and the choice of $250 in cash or a tour of the United States or a trip to Europe, have already signed for the local derby.

Among those who will compete in the Boston derby are: Torrey L. Capo, 18, of Quincy, winner of the Junior Birdmen outdoor contest last July; Bruno L. Marchi, 19, of Medford, winner of many similar past events; Herbert K. Weiss, 17, of Lawrence, instructor and holder of the Lawrence city championship; Frank A. Barrett, Jr., 16, of Brighton; Donald G. Brunton, 19, of Dorchester; Frank DeMarco, 19, of Roxbury.

John DeMonaco, 20, of Lawrence; Thomas J. Fleming, 20, of Charlestown; Dante Flocchesi, 18, Harold C. Mitchell, 20, and Theodore Peterson, 18 all of Everett; William Semichenko, 18, of Boston; Robert B. Shea, 17, of Brighton; Sydney Spellman, 16, of Mattapan and Everett Tasker, 19, of Medford.

Deadline for the filing of official entries is next Saturday.

The tournament will consist of three events, an all Balsa Glider event, a Baby R. O. G. event, and a single stick propelled model event. The events are for endurance, the longest flights being declared the winning flights.

HAMILTON MILL CHIEFS CONFER

The fate of the town of Southbridge will hang in the balance today when President Richard Lennihan of the Hamilton Woolen mill, met with the board of directors of the company here.

A factor in favor of the workers who have been without employment since the mill closed on account of strike trouble November 14, is a petition signed by virtually every citizen in the community, 1000 signatures being affixed.

The petition will be presented to the board of directors today, and is hoped to influence the announced plans of President Lennihan to ask for the liquidation of the mill.

Five court cases growing out of disturbances during the strike were given small fines, free, which all those involved appealed. In addition, two cases were continued, one until Friday, and one until December 28.

ERA Ready To Aid Drouth-Hit Town

Although no application has yet been made, the ERA is ready to help Auburn solve its water famine crisis, if the proper steps are taken, and the administration is assured that the equipment and land involved are owned by the town.

State Administrator Arthur G. Rotch said that Auburn officials had not indicated that they intended to apply. But he said he saw no reason why men now employed in the construction of a recreation center could not be better employed on the water situation.

Capt. Bernier Near Death

Levis, Que., Dec. 18—Captain J. E. Bernier, 82, whose Arctic expeditions earned him international fame, suffered a severe paralytic stroke and is gravely ill at his home here.

Turn to the classified page today and select the rental ad that appeals to you. Then go to R. H. White Company and consult with Barbara Holmes. She will save you both time and money.

Are you cheating yourself?

You are, if you haven't already entered Hollywood's latest identification rage, the "About Faces" series by Art. Moger, featuring your favorite cinema stars as they appear at your favorite theaters.

Today, we refer you to that popular showplace of New England, the new RKO Keith Boston Theater where the screen offers "Cheating Cheaters," featuring three of today's "About Faces" characters. The remaining "About Face" is that of New England's favorite orchestra leader.

These clues should enable you to share in the $25 in weekly cash awards as offered by the Boston Evening American to its readers. All you have to do is this:

Remember that the number of squares beneath each drawing equals the number of letters in the names of these Hollywood stars. Use the letter "A" as a guide to correct solutions. Fill in these squares with the correct identifications and mail your ENTIRE week's solutions to: The About Faces Editor, Boston Evening American, Boston, Mass.

Prizes of $5, first prize; second prize, $3; third prize, $2, and 15 cash prizes of a brand new one dollar bill each, are awarded every week.

Get your "About Faces" present, EARLY!

Listen World!

By Elsie Robinson

Then we wonder why we never get the breaks!

Folks are always whining About their never having Chances—

Then along comes a chance 'N they pass it up!

Not, of course, Deliberately. Nine times out of ten They don't even know That it was a chance Or that they passed it up! But it was. And they did.

And the reason's this—

Elsie Robinson

We humans think We're brave and ambitious; We're sure we're set To grab Any Chance That comes along But all the time We're coddling A pretty, private picture Of what we think our Chance Ought to be. Not that we're fussy, Or anything like that! But, after all, A Guy oughtta know What he wants. So what he want Is a certain kind Of a Job Or a Place Or a Deal That fits our Pet Notions. Then along comes Something— Something that hasn't The slightest resemblance To that private picture— And we don't even Look at it twice. It may be a swell chance— Lots bigger and better Than the chance We've been waiting To see pop— But just because it doesn't Match our picture We pass it up— And sit there, Waitin' and whinin,' With the same old wheeze About Somebody Else Always Getting All the Breaks! Or, worse yet, Sometimes we realize That here, at last, Is our Big Opportunity, Just the chance We've been longing for All our lives! And will we take it? Sure, we will! ONLY, FIRST—

Well, first We wanna be sure Of a few little things. We wanna be sure We can fix things so They won't be Too expensive, Or uncomfortable, Or dangerous, Or lonely, Or risky, in any way. We are, we repeat, Simple-e-e Dyi-n-g To take that Chance— Only, of course, We'd sure hate To hafta move To some new place, 'N' leave the Folks, Or give up That fishing trip, Or drop out Of the Thursday Bridge Club And you never can tell Nowadays. If you don't Watch your step When you make a move, You're apt to get hooked For more work 'N' less pay At longer hours— So you'd better use The Good Old Bean 'N' Fix Things Right Before you start.

Yes, Sir-e-e-e! We sure are Crazy To Grab That Opportunity! 'N' we'll leap right in Jus'a soon As We Get Things Fixed.

But do we? Of course, we don't! For, by the time We get things fixed To suit us, The Big Chance Has gone blooey! That's the way Life is!

Chances don't come Wrapped all fancy In your particular Kind of package.

Luck comes—AS IS— And it's up to you To take it Or leave it!

So— Most of us Leave it. THEN WE WONDER WHY WE NEVER GET THE BREAKS!

U. S. LABOR HITS SOVIET PLEDGE

By Associated Press

Washington, Dec. 18—A leader of organized labor says the United States should either hold Soviet Russia to her "recognition" pledge to prevent any flow of communistic agitation from the U. S. S. R. to this country or again break off diplomatic relations.

Vice-President Matthew Woll of the American Federation of Labor suggested the withdrawal of Soviet recognition in testimony yesterday to the House Committee named to investigate "un-American activities."

His chief, President William Green, said communistic activities in the United States had increased since Russia was recognized last year.

The labor spokesman contended the communists were trying to undermine organized labor in the United States.

British Spy Drive Hits Cameramen

Singapore, Dec. 18 (AP)—An espionage hunt, begun before huge British naval maneuvers took place last week-end, was extended by authorities today to Japanese photographers, numerous in Singapore.

A number of films and cameras were seized.

During the maneuvers a Japanese photographer was found on the heavily fortified island of Blansang Mati, but police learned he was there merely to take a picture of an artillery sergeant's baby and he was released.

Mosley, 3 Aides Freed by Court

Lewes, Eng., Dec. 18 (INS)—Sir Oswald Mosley, leader of the British Fascists, and three aids today escaped jail by a decidedly comfortable margin.

Without even waiting to hear defense testimony, the court ordered the jury to find the defendants not guilty of charges of riotous assembly.

Missionaries Flee Chinese Outlaws

Wuhu, Anhei Province, China, Dec. 18 (AP)—Virtually all missionaries in the southern section of Anhei Province were fleeing today from hordes of outlaws and political enemies of the Nanking government.

Reports of increasing disorders, similar to those which recently cost the lives of Mr. and Mrs. J. C. Stam, American missionary couple, were received here.

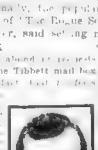
TIBBETT POSTPONES VERSION OF 'ROGUE SONG' ON AIR

By THE EAVESDROPPER

Plans of procedure for the regular Tuesday evening ether turn of Mr. Lawrence Tibbett, are altered somewhat at this writing. Originally, the popular baritone was to broadcast his pre-adaptation of "The Rogue Song" production of the stage and screen. However, said setting must wait until January.

TIMELY TALK

It seems [illegible] have come to the Tibbett mail box - so many [illegible] ...ged to ... effect (WEEI at 8:00 p.m. Among the ... begins he ... ready and wa... ing are Fritz ... famous "Song of ... the Volga ... the pound ... guardby of ... baritone's namesake ... "Old Man River" and Dvorak's well known "Drinking Song."



An analysis labeled "War and Peace" puts Lawrence Tibbett and Jane Cowl in the spotlight, to be presented by Joseph P. Tumulty, attorney, author and secretary to the war time President Woodrow Wilson. It is due on the WEEI wave [illegible] at 7:15 p.m.

Jane Cowl, idol of the Pittsburgh stage, is to employ the [illegible] ...dea, brings Marian Mansfield and Pinkie Tomlin to the "mike" tonight (WNAC) during [illegible] ...n hour. Miriam ... the "Hess" ... Mc Hess ... cast that ... latest screen ... [illegible] ... It is [illegible] ...f just above par and a ... [illegible] ...pal of Crosby. All of which wafts Eastward out of Hollywood on the Pacific Coast.

BRIGHT BIT

Another light opera gem out of the Gilbert and Sullivan book, has the "Beauty Box" radio right of way this evening (WEEI) between 10 and 11 o'clock. John Barclay directs "The Mikado" for listeners-in tonight, likewise paying the bold rose, a characterization he has portrayed more than [illegible] times before [illegible] ...lights.

Evan Evans, the former business man who turned to radio fame [illegible] ...ing and won an outstanding measure of recognition for himself [illegible] ...steps in to sing with the Isham Jones music making (WNAC) this evening, at 9:30 p.m. Evans [illegible] ...enters the spotlight to contribute "Old Man River" for an opener. There at least twice within an hour the composition has a pace. Tibbett being slated to do it also as stated above. Incidentally, in bearing out the foregoing assertion that it is indeed the great American standby among barytones.

SECRET AGENT STARS

Two radio [illegible] ...titic who have won their laurels as entertainers extraordinary will work through their lovely voices on the X-9" program scene (WAAB) this evening at 8:30. They are Mimi and Gene Gaillard, both ... from Somerville. Mimi [illegible] ...7 and Gene [illegible] ...as the "Personality Girl" was Gene's 10 and they call her the miniature Helen Morgan. Both have striking solos to render and will likewise join in two special duo selections. Then too, there's an interesting bit about one of the Boston American Secret Agent X-9 members now in far off China.

Radio Questions and Right Answers

It is time that Gary Cooper of [illegible] is also a regular fan and [illegible] ...ence ... the fates ... of Peter Dickson ... Not that we mind of, unless, Gary is putting things over. Perhaps you have in mind Jerry Cooper, the Columbia network soloist.

[illegible] ...Yes he did. While serving as a special newspaper war correspondent and crawling through a wheat field in France during heavy German shelling.

* * *

Who [illegible] ...the "Lullaby" ... with Wm. Oke Peters? Did [illegible] ...Arizona ... [illegible] ...a regular ... [illegible] ...of Black ...

The characters are really members of the Glen Gray Casa Loma orchestra, playing with O'Keefe exclusively.

* * *

Can you say [illegible] ...Nevada ... [illegible] ...Wee ... [illegible] ...and ... [illegible] ...a Hollywood ... [illegible] ...ren dictrix"?

* * *

...Curious of Major ... Miss Nissen is very much unattached, except to her mother and father. One or the other, or both, travel with her at all times.

* * *

Gertrude Niesen

What has happened to Jessica Dragonette and Glenn Gelen, the humorous Blake and Lazar pair? The boys are vacationing now, but due to return the middle of January in 1935, although the exact date and time has not yet been decided upon.

* * *

In the matter of the Wood ...showboat heir a famous case"? A friend of mine in New York says Rupert Hughes writes the material ... Wondering, of Brighton.

That is the wrong information Henry M. Neely, who is the "Old Stager" on the air himself, and a versatile writer, is the author of the "Showboat" broadcasts.

Which of the outstanding orchestra leaders have been made Kentucky colonels? and when?

Dean Eschmeer of Concord

No list of the so honored on hand, but many indeed. Ben Bernie, Abe Lyman, Paul Whiteman, Fred Waring, Vincent Lopez and Eddie Duchin are a few. As to why, it's no doubt because Kentuckians like their music.

Address your Radio Questions to The Radio Editor, Boston Evening American, and the information you seek will be set forth here.

Jury Gives Them $20,000

MISS BETTY BEUSCHEL MARION BEUSCHEL

Jacob Manowitz, wealthy Long Beach, N. Y., real estate operator, has fought persistently a court order, compelling him to pay $7 a week for the support of this three-year-old child, little Marion Beuschel, alleged to be his daughter. Today the mother, Miss Betty Beuschel, above, was awarded $20,000 damages against Manowitz, whom a New York jury found guilty of an alleged attack on Miss Beuschel in 1931. (Picture from International News Photograph Service.)

This Ear—That Air

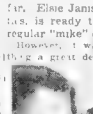
By N. E. T.

Lady announcers, sure enough it has to come. Perhaps that should have been a lady announcer there at the beginning, since that is the extent to which the development has come forward so far. Elsie Janis, one of the liveliest of musical comedy personalities, is ready to join the NBC staff as an attache, subject to regular "mike" duty with the other studio spokesmen.

However, I will soon [illegible] ...g a great deal more to many ambitious [illegible] ...sters across the country, who have long hoped for the coming of that day when broadcasting kingdom would let down the bars so to speak, and [illegible] ...mit them. Now it would seem the way is at last open. Ere many months [illegible] ...then we may expect to see having our fair sex MacNamees, Brokens and Hushes holding forth to crazy microphone messages to one another. That adage about being a man's world, verily comes under the heading of antiquated. Well, good luck girls.

FLOATING FLASHES

Out in the Mid-West this evening [illegible] ...k Pennsylvania Railroad [illegible] ...from Chicago is coming to an unscheduled stop at Lima, Mr. Boake Carter, the nightly commentator (WNAC), is aboard the fast [illegible] ...r headed East. Boake has pressing [illegible] ...alled upon officials to hold her up for 20 minutes while he alights and speaks his English accented coast-to-coast piece between 7:45 and 8 o'clock ... Mary Livingstone, or Mrs. Benny to Comedian Jack Benny, has written a poem as a means of demonstrating her rising holiday spirit. It is for the ladies and one verse runs: "We get stockings from our brother—From Our Hubby and Our Mother—Stockings from our Friends and Bosses—Oh, to have four legs like Hosses! . . . Listen to the current tune hit "Rain," and notice the striking similarity in an [illegible] ...d one called "Mandy," remember? It went—"Mandy, there's a Minister Hands . . . and so on. . . . Not hearing David Ross at all lately. Wonder if anything's wrong? . . . What wellknown local "mike" personality has switch his services to an opposition Hub outfit with the turn of the year? Keep an eye peeled on the column here, and no sooner does he change over than we'll pass along the details and they'll be interesting. . . . Alexander Woolcott will be a Boston visitor on Christmas Day to witness the premier of Noel Coward's new play.



"N. E. T."

Best Bets Tonight

8:00 P. M.—WEEI—Leo Reisman's Orchestra, with songs by Phil Duey.

8:30 P. M.—WBZ—Lawrence Tibbett, Winfred Pelletier's Orchestra.

9:00 P. M.—WNAC—Songs by Bing Crosby and special guest artists, with Georgie Stoll's Orchestra.

9:30 P. M.—WEEI—Ed Wynn, the Fire Chief, and Graham McNamee; Eddie Duchin's music.

10:30 P. M.—WBZ—Tim and Irene's Sky Road Show, musical review and sketches.

YULE PARTY TO AID CHILDREN

'beacon hill'

By Betty Alden

STORMY WEATHER . . . or what some of our fashionables are doing to secure themselves against the rigors of our New England winter . . . Mr. and Mrs James Jimmie of Chestnut Hill are rejoicing over the fact that Mr. Hinc's mother, Mrs. George Hinkle, will be in Boston for the winter months . . . About January 1 she will move into the beautiful Frederick S. Whitewell home at 166 Marlborough street, which she will occupy until the summer time . . .

POLLY GARDINER

That popular deb of last winter, Polly Gardiner, who has become, by dint of hard work and a lovely figure, one of the most glamorous mannequins in the smart shops about town, has moved in from Beverly Farms to spend the winter with her mother, Mrs. Dexter Gardiner, at 256 Beacon street . . . This means Polly can get an extra 40 winks in the morning . . . Her Christmas plans are all tied up in a round-trip ticket to Philadelphia . . .

Purchase a New Home

TO BE ULTRA SMART is to have a winter home on or near Beacon Hill, a summer estate on the North or South Shores and an intermediate residence in the suburbs . . . The Guido Perera's have just joined this class by purchasing a lovely old house in Walpole, where they will spend the spring and fall seasons . . . They are at 12 West Cedar street now . . .

Mrs. Robert Treat Paine of Stonehurst, in Waltham, will be off the end of this week to bask in California's sunshine for the rest of the winter . . .

Mr. and Mrs. Herbert Ames Tucker of Chestnut street have let their Beacon Hill house for the winter and are ensconced at the Hotel Sheraton . . .

It is easy to stay awake at the Literary Mornings when the speakers are as absorbing as Phyllis Bottome and Bertita Harding so no one in yesterday's fashionable audience missed the erstwhile customary cup of coffee . . . in fact, there were many expressions of appreciation of the steaming hot bouillon, which was "poured" at a long table adjoining the State Suite in the Copley . . . it revived memories of deck lounging under summer skies and of long, busy mornings at college during mid-years . . . and was refreshing to those who dropped in after an early morning round of Back Bay to the bank and post office . . .

The bouillon "pourers," who assisted Mrs. Harry Liebman, wintering at the Somerset this year, were Mrs. Harry Hayward, Mrs. Harry Hill Thorndike, whose deep purple velvet dress was swathed in a luxurious mink scarf; Mrs. Frank C. Nichols and Mrs. Charles F. Sprague . . .

Mrs. Whittington Greets Patrons

TO FINGER AND BROWSE around new books is always a pleasure, but it was an uncommon treat yesterday to hover around the book table, piled high with the works of Miss Bottome and her fellow-guest speaker . . . Gabriella Ladd, the clever young daughter of Mrs. Anna Coleman Ladd and Dr. Ladd, presided at this table, wearing a tailored suit of tweed with a purple scarf tucked in at the neckline . . .

The chairman of these Literary Mornings, Mrs. H. Parker Whittington, was cordially greeting all the familiar patrons and newcomers as well as they streamed in to hear the delightful discourses by visiting authors and by Miss Emma Mills, just returned from a long season of travelling in search of new material with which to refresh her remarks . . . Mrs. Barrett Wendell introduced Miss Mills and then settled herself in the audience to enjoy the entertainment . . .

To be seen in the rows of seats . . . Mrs. Robert Treat Paine, wearing another of her individual costumes of black and white, the finishing touch on this one a black faced ermine bow under her chin . . . Mrs. Charles A. Coolidge, in a black ensemble, Mrs. Harold G. Cutler keeping a watchful eye on the proceedings, also in black . . .

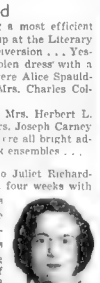
Black seemed to be the popular color for the morning costumes . . . Mrs. Horace S. Frazer, Mrs. William Brace Pratt, and Mrs. Arthur Grannis were among those who chose it as was Mrs. Robert Lovett . . .

Juliet Richardson to Go Abroad

SARAH PALFREY FABYAN is becoming a most efficient head usher this winter . . . she presides at the Literary Mornings and at Mrs. Orcutt's Mornings of Diversion . . . Yesterday she wore a gray and red stripped woolen dress with a gay tyrolean hat . . . Among her assistants were Alice Spaulding, Mary Byrant and Frances Hovey . . . Mrs. Charles Collens in raspberry red.

Mrs. H. Addington Bruce in navy blue, Mrs. Herbert L. Tinkham in rose and gold lame tunic, and Mrs. Joseph Carney wearing a gray kidskin trimmed blue dress were all bright additions to the sombre aspect of so many black ensembles . . .

Much more absorbing than Christmas to Juliet Richardson are her plans to sail on Friday to spend four weeks with her fiance in Belgium . . . It was only 10 days ago that her betrothal to Mr. Etienne de Street was announced by Mrs. Henry H. Richardson . . . Flustered and thrilled, Juliet was seen on Boylston street yesterday hurrying about to attend to the last minute details of her trip . . . Wearing a rosy red tweed hat and coat with an Alaska Seal cape, she looked every inch the excited bride-to-be . . . All her intimates are wondering if she will succumb to the glamour of being married abroad . . .



Barbara Frost

Cultural Bostonians had a real opportunity last evening to see Walter Hampden in "Richelieu" . . . Mrs. Reginald W. Bird drove in from Framingham and wore a trailing black velvet dinner gown . . . Mr. and Mrs. Horace Morison attended the play with Dr. and Mrs. George Clark and Mrs. Elliot Spalding, the latter gowned in black velvet . . . and several other friends . . .

Among the younger set present were Miss Eleanor Jones with her tall and boyish fiance . . . She carried a tiny ermine muff with her crimson velvet gown . . . Miss Mary Emery in a lawn green satin gown, attended with Miss Barbara Frost . . .

MRS. SUMNER PINGREE HEADS COMMITTEE FOR PLAY SERIES

DEBUTANTE CHATS AT PRESENTATION LUNCHEON

MISS JOAN PHIPPEN

MISS BETSY DUNN

MISS JOAN PHIPPEN daughter of Mr. and Mrs. Henry O. Phippen of South Hamilton, who was presented at a large luncheon at the Ritz-Carlton, photographed at the luncheon with Miss Betsy Dunn of Stockbridge, one of the important out-of-town guests present for the occasion. Mrs. George C. Vaughan of Hamilton gave the party in honor of her niece. Picture by Boston Evening American Staff Photographer.

Mrs. George A. Mirick Hostess at Coffee Christmas Party

A CHRISTMAS COFFEE PARTY for the members of the Boston University Women's Council was held yesterday morning at 146 Commonwealth avenue at which Mrs. George A. Mirick, of Beacon street, was hostess. Mrs. Alvan T. Fuller and Mr. Charles L. Slattery poured at the coffee tables.

Mrs. Francis J. Place

Assisting in the dining room were Mrs. Francis J. Place, Mrs. Alfred M. Kemp, Mrs. Edgar F. Berger, Mrs. Charles Warren Clark and Mrs. Frederick A. Cleveland. A group of women students from the School of Religious Education and Mrs. Mirick's neighbors were among those present.

THE NEED [illegible] reached by Mrs. George McGee and Mrs. T. F. Cummings will be a part of the program of the Allston Women's Club Christmas party on Wednesday evening, to be held at a Boston orphanage not yet decided upon. Mrs. Grafton Wood has arranged many surprises for the evening at the Veterans of Foreign Wars club. Committee in charge: Members of the club are Mrs. John Walsh, Mrs. Walter Magner, Mrs. Grafton Wood and Mrs. Elizabeth Melanson. A tree with gifts for the children will close the affair.

The committee includes Mary McKernon, Esther Berkeley, Rose Berkeley, Mrs. Frank Alberta, Mrs. John Leahy, Mrs. Walter Magner and Mrs. Fred Acton.

MRS. JOSEPH HUGHES was hostess this afternoon for a stacked bridge-whist party of members of Revere Academy Lodge at the academy auditorium, preceding the game a one-act play, "The Christmas Guest," was presented by pupils of the school. The cast included Mary McDonough, Gertrude Kennedy, Margaret LeFort and Marie Jameson.

WE NOTICED Mrs. Joseph P. Carney of Marlborough street, Christmas shopping today looking very trim in a rough wool suit of brilliant blue with gray krimmer collar and hat of the same blue against her pretty white hair.

A PLAYLET, WRITTEN and

League Group to Entertain Children

MRS. SUMNER PINGREE, chairman of the patronesses for "Master Skylark" and a member of the Junior League's entertainment committee, is in charge of the large list of those sponsoring the children's play being presented by the League Players on the afternoons of December 26, 27 and 28, at the Repertory Theater.

Among the [illegible] names of those supporting the annual play [illegible] for the benefit of the Community Health Association are Mrs. Fred [illegible] Mrs. Reginald [illegible] Mrs. I. Tucker Burr, Mrs. Samuel Cabot and Mrs. I. Jeffrey [illegible] Cambridge.

Also serving as patronesses are Mrs. William Cox, Mrs. [illegible] Jones, Mrs. Jason Maxim, Mrs. [illegible] Parker, Mrs. Richard [illegible] Paine, Mrs. Dana Russell and Mrs. R. S. Sturgis.

Luncheons to Aid Fund

A SERIES of progressive luncheons which will be held in the early part of January is being arranged by Mrs. Otis Russell of 12 Lanesborough road to raise money for the nurses' health office, which is run by a committee of the Junior Central League of Massachusetts.

Associated with Mrs. Russell in sponsoring the luncheons will be Mrs. James M. Faulkner and Mrs. Howard B. Sprague of Brookline, Mrs. Paul B. Watson Jr., of Milton and Mrs. G. Holmes Perkins of Boston.

Mrs. Wellington Will Preside

Mrs. Edward F. Wellington president of the Business and Professional Woman's Republican Club, will preside over the December meeting which will be held in the Hotel Bradford ballroom, Wednesday evening. This meeting is known as "Membership Night," prospective members will be guests, accompanied by their sponsors. Judge Sadie Lipner Shulman who is membership chairman of the club, is chairman of the program for the evening.

Margaret Tyng to Make Debut Saturday

THIS CHRISTMAS MEANS more to Miss Margaret Tyng, daughter of Mr. and Mrs. Griswold Tyng of Jamaica Plain, than Christmas vacation and Santa Claus.

As soon as she arrives home from Smith College this coming Thursday she will devote herself to hasty preparations for her presentation luncheon which her parents are giving for her at the Loring-Greenough House, next Saturday.

Miss Tyng will be a very busy debutante with but two days in which to attend to the comfort of her many guest.

Tea Opens Art Exhibition

AN ENTIRELY BLACK AND white exhibition opened yesterday afternoon at the Copley Society at 258 Commonwealth avenue, with a private view and tea.

It is a collection of charcoal drawings, both portraits and flower still-lifes, by Miss Margaret Fitzhugh Browne, who has also a current showing of recent portraits at the Vose Galleries.

Tea was served from four to six o'clock. The pourers were Mrs. Frederick Holdsworth, Mrs. Albert L. Titcomb, Mrs. Alexander Law, Miss Rose Townsend, Miss Anne Paterson and Miss Emily Wainwright Browne, the artist's sisters.

Subscribe to Concert

MRS. WILLIAM STANLEY PARKER, chairman of the board of trustees and of the executive committee of the Longy School of Music, under whose auspices the Chardon String Quartet and Paul Wittgenstein, the celebrated Viennese pianist, will give a concert on Wednesday, December 19, has announced a list of additional subscribers.

They are Mrs. Henry P. King, Mrs. Seth Turner Crawford, Mrs. Augustus L. Putnam, Miss Edith P. Gardner, Mrs. F. B. Dustan, Mrs. C. C. Clayton, Miss Catherine MacDonald, Miss Margaret Barney and Mrs. Ralph H. Doane.

'WHITE SEASON' HERE IN REALITY WITH THE ARRIVAL OF NEW FEMININE HEADGEAR

Something to Wear Tonight

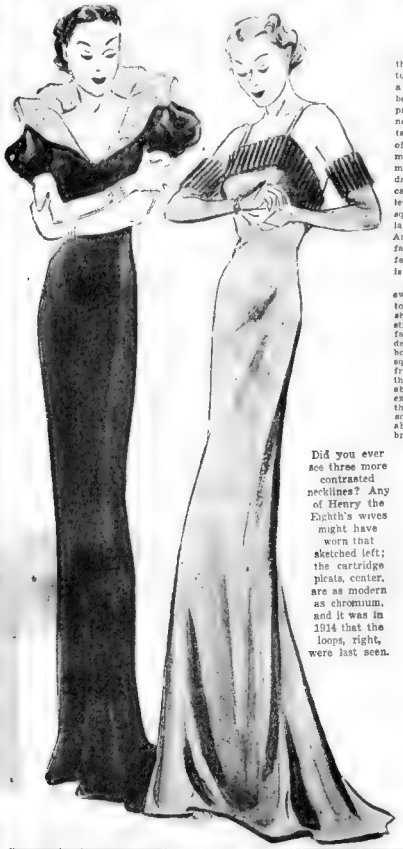
By Prunella Wood

THE FROCK sketched immediately below is a perfectly swell model to have on hand for the evening date which develops informally as it gathers momentum. It is dressy, lovely without a hat, but not too low-cut. It can take the drafts which spring up so hatefully in unfamiliar restaurants and houses, and it has distinction without costing a lot for same. It is our favorite black crepe, with a rhinestone-studded white moire collar. There is the slightest dip to the skirt behind, but almost no flare at its hem, and the slit is slight and artistic.

This is the type of dress which compliments your hostess for the neighborhood contract game, or which takes you through a week-end visit adequately, or which appears successfully at the theater when your beau is dinner-jacketed.

THAT GREEN moire frock in the center is practically a picture dress. A charming coiffure, a chiffon handkerchief, and maybe some earrings of noticeable proportions are all the fixings it needs. Since the sleeves are detachable gadgets, in the twinkling of a wrist you can transform the model into something ultra-formal; meanwhile it is a grand dress to wear with a fur evening cape. (Baum marten, chinchillette, mink, silver fox and dyed squirrel short capes are doing a land office business this season.) And in summing up the gown, the fact remains that it is one of the few moire models on hand that is not a robe de style.

The dress sketched right is a swell holiday dress. It is moire, too, in Christmas tree red, a shade which has been going strong in these parts since early fall. The looped sling coatee is detachable, and it will reveal a bodice which is cut low and square in back, and high in front. If you get a gown like this, or in this color, you'll probably agree that slippers dyed an exact match are more alluring than contrasted models. There is something a wee bit calliope about too much ornamentation of bright red dresses.



Did you ever see three more contrasted necklines? Any of Henry the Eighth's wives might have worn that sketched left; the cartridge pleats, center, are as modern as chromium, and it was in 1914 that the loops, right, were last seen.

White Hats for All Hours of Day

By Annice Brink

ALONG WITH the landscape, fe[illegible] are turning white [illegible] for the first dark furs has arrived with the first real snowfall.

[illegible]ipped the parting of the [illegible]sack hat, these little white newcomers do, for not one out of ten is of that type. They're small, cuddlesome in toque and pillbox shapes that Marina is making famous all over again.

Ruched and shirred, in an exaggerated matelasse pattern, one white crepe bonnet intended for formal afternoon or tea dance wear, slips down into the renowned coquettish position—well over the right eye—and poses a bow over the left ear.

BENGALINE FOR STREET

[illegible] wear there is the [illegible] and bengaline suit this [illegible] Cossack hats which [illegible] the [illegible] [illegible] [illegible] and [illegible] [illegible] [illegible]

LAWYERS' PART IN KIDNAP PLOT IS REVEALED

By Associated Press

Denver, Dec. 18—An affidavit outlining the manner in which Ban Laska, veteran Denver attorney, allegedly received part of the Charles F. Urschel ransom money was disclosed today.

Laska represented Albert L. Bates, one of six in persons convicted in the $200,000 kidnaping of the Oklahoma City oil executive. Now Laska is in custody, facing an indictment against him and James C. Mahan of Oklahoma City, another attorney, for splitting the spoils of the crime.

Woven around the affidavit from Edward G. Bratton, stepson of Bates, is the story of the state's case.

Bates and Harvey and Clara Feldman, Bates' wife, where to find his share of the money. Laska asserted, and the Feldmans, young man, to give $7,500 to Woomer and forward a map of where the ransom was buried.

Then, the affidavit stated, Laska was given $5,000 for expenses.

Barbara H. Inez gives her patrons a card of introduction. Here the bureau is the answer to prayer offering the rental

Over the River -:- -:- For Harvard Boys

Settled down for a hard week of beer drinking, the young gentlemen at the university beside the Charles are engaged in a little scientific testing of capacity, with the Harvard Crimson challenging the Lampoon, no less. The winner, having demonstrated that he knows what to do with it, will be awarded as first prize a whole keg of beer. But no prize at all will go the way of any unlucky lout who becomes so fuddled as to burst into that old song "Here's to Good Old Ale, Drink It Down." (Picture by Boston Evening American Staff Photographer.)

CHILD ROBBER GANG SEIZED

TOLL IN SOVIET PLOT NOW 103

By Associated Press

Kiev, U. S. S. R., Dec. 18—Soviet Russia had lined up 103 persons before firing squads today in its relentless drive against enemies of the regime following the assassination of Sergei Kiroff at Leningrad December 1.

Twenty-eight alleged terrorists were shot yesterday. One woman was among the nine who were spared pending further investigation. The [illegible] a Soviet official said, came into this country from Poland and Rumania with bombs and weapons.

Storm Peril Told by Liner's Crew

London, Dec. 18 (AP)—One of the worst storms ever experienced was described by the crew of the liner Alsatia when the vessel arrived from New York today at Tilbury 24 hours late.

A great sea buffeted the liner for three days, they related. Passengers were kept below decks the entire time.

Spanish War Aide, 96, Dies

Meriden, Miss., Dec. 18—Mrs. Thomas Barton, 96, said to be the oldest living member of the Spanish American War auxiliary in the United States, was dead here today.

Watch, Crucifix Stolen in Break

Two Lynn youths were charged with breaking and entering today in connection with the theft from a home at 9-2 Saratoga street, East Boston, of a watch, a toilet set and a crucifix.

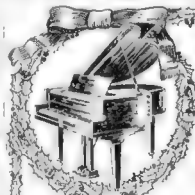
According to police, Charles P. Stevens, 21, of Newhall street, Lynn, a known thief and Ernest Connors, 18, of Glenwood Park, Lynn, unemployed, seized by a boy they found under a bed

Medford Mother Saves Baby in Fire

Fire, believed to have been started by a defective wire, swept through the home of Patrolman and Mrs. Patrick Doherty, 12 Cudworth street, Medford, today, causing a loss estimated at $3,000.

The fire was discovered by Mrs. Doherty. She rescued a four-year-old child from bed and fled to the street and sounded an alarm.

Firemen found the house in flames when they arrived



Years . . . are a Guarantee

When you're planning the purchase of a piano, consider these facts. Vose Pianos have been continuously manufactured for over 83 years.

That is your guarantee of lifetime satisfaction in the piano, world-famous for quality.

Similar advantages are offered in the purchase of Kimball or Whitney Pianos, backed by over 75 years of manufacturing experience.

Various Makes Grand Pianos $250 Up

Budget Plan If Desired. For Particulars Call Hancock 1927.

VOSE PIANOS (EST. 1851)

160 Boylston Street, Boston, Mass.

Season's Greetings

FROM

R. J. REYNOLDS TOBACCO COMPANY

MAKERS OF CAMEL CIGARETTES

AND PRINCE ALBERT SMOKING TOBACCO

● Cigarettes for Christmas! No smoker ever has too many. But which cigarette? Remember that the brand you give reflects your own good taste...your sense of discrimination. That's why we suggest Camels. They are made from finer, more expensive tobaccos than any other popular brand. They are the choice of distinguished men and women in every field of the social and business worlds. And their finer tobaccos bring that welcome "lift" in energy—that warm good cheer—which is after all—Christmas!

A pound of Prince Albert in glass humidor, gaily packaged.

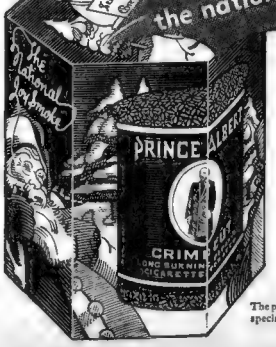
CAMELS MADE FROM FINER, MORE EXPENSIVE TOBACCOS

Ten packs of Camels—"twenties"—in their beautiful Christmas wrapper make a welcome gift for the discriminating smoker.

The special Christmas package with four boxes of Camel "flat fifties"—just the inexpensive gift you have been wanting.

Copyright, 1934, R. J. Reynolds Tobacco Company

PRINCE ALBERT the national joy smoke



● Is there a pipe smoker on your Christmas list? Then your problem's solved. He's made it easy. Give him long evenings of calm contentment. Give him the sheer joy of ripe, mellow tobacco—cool and mild and bite-less. Give him Prince Albert..."The National Joy Smoke." What a man spends his own money for is what he really likes. And more men spend their money for Prince Albert than for any other pipe tobacco.

The pound tin of mild, mellow "P.A." specially wrapped for Christmas.

BOSTON AMERICAN

NEW ENGLAND'S GREATEST EVENING NEWSPAPER

BOSTON, TUESDAY, DECEMBER 18, 1934

This Is Life

By ROBERT E. ROGERS

It is at least a week since Alla Winter Rowe died, but it is not too late to point out some of the reasons for the wide public interest that attended his long and tragic illness.

He was a personality that sharply etched itself on the memories of all who beheld and heard him. To those who knew him well his loss was a grief more than usually keen.

Robert E. Rogers

I want to think of him for a moment in terms of the present-day students of his alma mater; that is, a new freshman Fox. Dr. Rowe was a character and of an unusual kind.

Usually a character is somewhat self-conscious, curious, eccentric, even. Allan Rowe retained his reputation by being different.

At the first general smoker, at which the freshmen heard the big shots of the undergraduate and the alumni body explaining how we do things, the speaker on athletics was frequently Dr. Rowe.

At first sight the freshman was like to be quietly or even openly amused.

He saw a tall, slender, graceful gentleman, nearing 60 and carrying about two-thirds of his age with a waist like a girl's, a profile that everybody would call aristocratic and a genuine waxed mustache waxed to a needle point like a dandy of the Second Empire.

Perhaps he might be in perfectly fitting evening clothes, beautifully cut and fitted and with picturesque accessories, the broad black eye-glass ribbon across his shirtfront and all.

All of which would seem just a bit off-color to our average suburban high school boy, to whom it had never occurred that the figures on the silver screen might be duplicated in real life. Guess we're, perhaps, men no!

Captured Hearers

And then Allan Rowe would begin to talk on the economy and honesty and dignity of Tech athletics, on sportsmanship and self dependence in undergraduate activities.

Again he presented an anomaly in American informal public speaking. He did not shout or grunt or blur or hesitate. His grammar was not experimental nor every phrase graph an anti-climax.

He spoke very rapidly in the main, with a singularly precise and felicitous choice of words.

His diction was that of a highly cultivated gentleman, but like those of an unusually capable and energetic brain.

He was exigent in matters of minor importance, he was immensely suggestive and practical in his advice. He was above all a delight to watch and hear.

Invariably the dandy captured his young audience, and the freshman went away with certain standards of appearance, of culture and of competence, which frequently had never dawned on him before but were the beginnings of his comprehension of what an educated gentleman might be.

Later, perhaps, he might learn the story of Rowe's scientific reputation, not merely in Boston but in the world-wide words of science.

Looked the Part

He was not a physician. He was a doctor of philosophy in chemistry, director of the research work in a great hospital, particularly interested in the chemistry and biology of the glands of the body, their effect on health, on dwarfishness and giantism, their effect, even, on barrenness in childbirth.

Perhaps they read some of his more popular articles on his specialties, which were published in the Technology Review, and found them brilliantly lucid and readable, yet obviously based on sound scholarship.

Later he might see Dr. Rowe at some out-of-doors athletic meet, acting as judge or perhaps watching in the midst of the official staff, straight, slim, never stooping, never lounging, smart, chilly, cool and imperturbable and looking like an English sporting peer dressed from Bond street to the tiniest and smartest of sporting togs.

And all the time the man knew he was not going to live very long.

To me the example of such a man as Allan Rowe is of infinite importance in a world that grows progressively slack and untidy and mannerless and uncouth.

He was not only a gentleman but he looked and behaved like one. He was not only a distinguished scientist but he gave the instant and permanent impression of distinction.

JUST WED Bride Claims BEATING

LIMPS TO COURT "BLACK-BLUE"

5-DAY GROOM NOT GUILTY HE PLEADS

Romance, which had curled along the edges almost before the marrying justice's words had ceased to echo, sent a bridegroom of five days into Roxbury court today, while his black and blue bride watched his arraignment.

Max Connell, 28, former shipper for a chain retail establishment but now unemployed, pleaded not guilty in court to charges of assault and battery on the former Evelyn Butler, 27, of Medford, a stenographer, and to having possession of a revolver, being an alien.

In court with her face swollen and discolored with a lipstick dent when she walked Mr. Connell sat with her father, Alonzo Butler, of Medford, and saw her five-day husband held in $500 for a hearing today after Christmas.

Questioned by Judge Albert E. Hall, Miss Butler declared that Connell drew a gun to marry her because he was out of work, she said she had given him money the last day she had seen him the week before the wedding.

On Saturday night she said he struck her and left her battered to Howard street. Both Pvt. Adolf Reed, Jr., and Detective Joseph Hutchins, for hire, so follow.

I hereby release Mr. Max Connell of any responsibility for being married to me. I am going my way and he is going his."

Connell had $46 with him in court and under persuasion of Probation Officer Joseph Hutchins for hire, so follow.

The bridegroom came to Boston nine years ago from Halifax, N. S.

SPEER SECRETS

Testimony Hurried to Speed Finding

Greenfield, Dec. 18—Miss Mary Bristol, court stenographer who served by District Attorney Joseph E. Ellett to prepare certain portions of the transcript of testimony requested by Judge Fox in the case of Dr. Frederick R. Speer of Deerfield [illegible] said:

"Three weeks after the marriage, I met my husband and asked him when he was coming to see me. He told me that he couldn't support me and the only reason he married me was to keep his job.

"He said that the railroad, where he was employed, was laying off single men and that because he didn't want to get fired, he married me to be classified as a married man."

MORE MONEY!

A 50 per cent increase in federal income tax collections for 1934 over last year was announced by Acting Collector of Internal Revenue Thomas B. Hassett. The figures to date are $21,542,251 for 1934, as against $14,436,296,51 for 1933. Collections from December 1 to date are $6,265,627.22, with an estimated $1,500,000 still unaccounted for.

Dies for $14

Zanesville, O., Dec. 18—Russell C. Swiger, convicted 21-year-old killer of a filling station operator here, was sentenced by Judge P. M. Tannehill to die in the electric chair at the Ohio Penitentiary April 5. Swiger killed Harold C. Fleming, 19, in a $14 holdup.

MIRIAM HOPKINS ASSIGNED NEW ROLE -:- WALTER HAMPDEN IN 'RICHELIEU'

Lights and Shadows

By George Holland

Boston and New York will have the busiest Christmas week after since 1926. Four of the downtown legit theatres will be open and five of them with new plays for New York. Two of the new scheduled openings and only one of them, a revamped Revenge With Music," is in any way a revival. More than 40 theatres will be open in Manhattan a record for any several years. "Roger Bloomer," which won Guthrie McClintic a wife, Katharine Cornell, has been seen by many of the local hoi polloi, as well as by the critics. Of the latter, Atkinson is the only one who will be present at the opening of Jane Cowl's "Lovely Lady" at the Plymouth here Christmas night. A more brazen attempt to claim Boston as the birthplace of a play than this Cowl-Jerome-Edwards-Newton affair is hard to find. Despite Mr. Bolton's claims to the contrary, the piece had its world premiere in Baltimore, not here. Nor was it Boston's first look at the play. That was given by Jane Cowl herself in a stock engagement at the Copley Theatre several years ago. Then it was called "Jane Clegg." Mr. Bolton's claim that the piece was written in Boston is also open to question. He may have done the actual writing here, but the play was largely conceived in Baltimore, where Miss Cowl was playing at the Ford's Opera House. Mr. Bolton's connection with the piece was that of play doctor. He was engaged by Miss Cowl to whip the play into shape for Broadway. Which he did. Nevertheless, the play was produced in Baltimore and Boston before Mr. Bolton was called in. Of course, Boston has been responsible for many of Miss Cowl's successful plays, but "Lovely Lady" is not one of them. Miss Cowl has been in the habit of trying out her plays in Boston, but this is the first time she has claimed Boston as the birthplace of a play. Mr. Bolton's claim that the piece was written in Boston is also open to question. He may have done the actual writing here, but the play was largely conceived in Baltimore, where Miss Cowl was playing at the Ford's Opera House. Mr. Bolton's connection with the piece was that of play doctor. He was engaged by Miss Cowl to whip the play into shape for Broadway. Which he did. Nevertheless, the play was produced in Baltimore and Boston before Mr. Bolton was called in. Of course, Boston has been responsible for many of Miss Cowl's successful plays, but "Lovely Lady" is not one of them. Miss Cowl has been in the habit of trying out her plays in Boston, but this is the first time she has claimed Boston as the birthplace of a play.

Vina Delmar Writes "Hands Across the Sea" for Star's Next Goldwyn Role

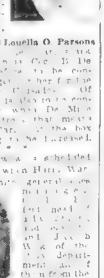
By LOUELLA O. PARSONS
Motion Picture Editor Universal Service

Los Angeles, Dec. 28.—Sam Goldwyn is so busy he has almost forgotten to keep up his reputation as Hollywood's best Mr. Malaprop a reputation Sam encourages because he says the most expensive ads in the world have contributed to the collection of supposed Goldwyn boners). One reason Sam hasn't been his usual self is because he has worked day and night to get that first Miriam Hopkins opus ready for the screen.

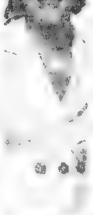
It's all set now. Vina Delmar, who is writing an original "Hands Across the Sea" Sam has secured to star Miriam and now a cast and director will be chosen. Frank Borzage will be considered as director. Hold-over Miriam from Paramount will be Frederic March. Across the Sea" is a love story with a European background. Vina Delmar came from Oklahoma where she was a law student and a newspaper girl herself a job in Hollywood writing stories. Before she knew it she was being laughed at by lyric writers as the author of "The Object of My Affections," a current song hit. Lucien Hubbard heard so much about Vina from his daughter, who wanted to go to Paramount theater every night with a Finkle was singing there, that he finally went and took a look at the wonder. On the strength of the raves of his daughter and her friends, Lucien bid a test made of Tomblin who will pay a part now in "Times Square."

• • •

The busy Hollywood stork will be winging its way to the home of Mr. and Mrs. Richard Dix early in May. That reminds me that Richard is an entirely changed lad since he married his secretary—changed, I mean—in that he has gone completely domestic and for the first time in his life is entirely happy.



Louella O. Parsons



Marion Davies

Snapshots of Hollywood

The grand rush is on among the film crowd to get reservations for the opening of the Santa Anita race track Christmas Day; JOCK WHITNEY planning to ship his thoroughbred here; the CLARK GABLES, the BING CROSBYS, the HAL ROACHES, ROBERT MONTGOMERYS, among those who have boxes for the occasion; lots of surprise entries among the film crowd—JIMMY GLEASON cracking jockey; JOAN WHITNEY planning to be among the black shoe, ANN HARDING'S acquaintance with HOPPER PERSON to whom she was reported engaged, limited to one luncheon she had with him when he visited Hollywood; VELEZ and YOLANDE, the most popular dance team in town in a long time, even though they're not additional three weeks. LUPE VELEZ and JOHNNY WEISMULLER in their revival over at the Beverly Hills film folks; that's all today. See you tomorrow!

coming until some time next week.

• • •

The male movie stars have a rival. His name is "Pinkie" Tomblin. He has his flapping ears and wears gold-rimmed spectacles and you'd never suspect him of being a Romeo. Well, Pinkie came from Oklahoma where he was a law student and a newspaper boy himself a job in a Burlesque bowl where he was laughed at his lyrics were published. The Object of My Affections" a current song hit. Lucien Hubbard heard so much about Pinkie from his daughter, who wanted to go to Paramount Theater every night with a Finkle was singing there, that he finally went and took a look at the wonder. On the strength of the raves of his daughter and her friends, Lucien bid a test made of Tomblin who will play a part now in "Times Square."

A Plea for Love and Understanding

Karen Morley takes Robert Shayne for her second husband in "Wednesday's Child," a drama of divorce, featuring the young actor, Frankie Thomas, which comes to the Keith Memorial tomorrow.

Benefit Shows at Park

"Models and Music," in 27 scenes, and with scores of pretty girls decorating the real opened at Minsky's Park theatre last evening. Louise Stewart, a favorite burlesque beauty, received a warm welcome yesterday, topping a lot of girls that included Evelyn Whitney and Queenie Smith in specialty dances.

Louise Stewart

Charles "Red" Marshall heads the comedy brigade and his accomplices in fun-making are Shorty McAllister, Mark Dennison, Harry K. Fields, Murray Leonard, Howard Montgomery and Jack Lyons.

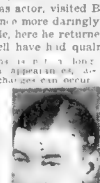
The midnight show on Friday at the Park will be a benefit performance, the entire proceeds to be devoted to buying shoes for needy children of school age.

Favorite Returns to Colonial in One of His Best Roles; Cordially Received

By GEORGE HOLLAND

If Walter Hampden speculated would they love him in December as they did in May, the answer came strongly in the affirmative last night at the Colonial Theater, where America's surviving proponent of the historic, heroic drama began a week's repertory with, and in "Richelieu." Mr. Hampden, who is manager as well as actor, visited Boston the past May, and spacing his re-appearance more daringly than any of his contemporaries, male or female, here he returned last night. Mr. Hampden, manager, may well have had qualms about this move.

Seven months is not a long lapse between appearances, although many changes can occur. Mr. Yawkey, a Red Sox, when Mr. Hampden was with the last, for it was he were leading the Detroiters by a full game. That October was subject to change in no uncertain apple - blossom time in Groton. Mr. Hampden has NOT changed. Nor has he place in the favor of Boston. His "Hamlet" and his "Macbeth," according to Manager Al Sheehan of the Colonial Theater will be completed next week, the "Richelieu" last night was received cordially by a full membership of the Hampden cult.



George Holland

Having gotten into the deliberation of the face of various items, conditions and the American league standing, it seem—an absolute conclusion—fitting to —mark that the opinion of your reviewer about Mr. Hampden and his "Richelieu" has not changed.

Your reviewer fluttered through the files—yes, with nervous fingers—and facing him from the two most right-hand columns of seven editions of May 8, 1931, Boston Evening American, were, and are, the words:

"In the role I think he acts the best not excepting Cyrano, Walter Hampden as the red-robed "Richelieu" in an Arthur Goodrich version of the famous old melodrama came back to Boston last night to receive the most cordial reception of the season at the Colonial Theater."

Mr. Hampden's performance was impeccable, the text of "Richelieu" has not been tampered with, and Mr. Hampden's supporting company is no worse even perhaps a bit better—than it was in the spring when a young man's fancy turned to thoughts of Walter Hampden as "Richelieu." Philip Merivale as "Chevalier De Mauprat," Dennis King as "Louis XIII," Gladys George as "Marion de Lorme," Frank Bot Tone as "Francois," Sidney Ridges as "Huguet," and any good ingenue Broadway can reclaim from Hollywood in the part of the Cardinal's niece "Julie."

"Richelieu" is a good melodrama. It is, moreover, a real play. There was some happy nepotism in its writing. Mr. Goodrich is Mr. Hampden's brother-in-law. They worked it out together, collaborating also on the direction. The good and puissant Cardinal, wherever he is, should thank them both. History in the making is all around us. History in the breaking has always been the playwright's license, and Mr. Hampden, by his aid to the author as an actor, will leave with this malleable mind the conviction that, had Cardinal Richelieu should have been the right Richelieu

THE CAST

Cardinal Duke of Richelieu ..... Robert C. Schnitzer
Count de Baradas ..... Ernest Roward
Francois, Duke de Lorme ..... Arthur Blessing
Marie de Lorme ..... Mabel Bliss
Louis XIII ..... P. Kay
Huguet ..... Sidney Ridges
Captain ..... Leland Quarrie
Chevalier de Mauprat ..... Philip Merivale
Julie ..... Helene Pinet
Gaston ..... Frank Bot Tone
Joseph ..... Walter Hampden
Courier ..... Paul Gilbert

At Bowdoin

The new program beginning tomorrow at the Bowdoin Square features Harry Gribbon, popular screen star, heading his own company on the stage. Gribbon has just come from the West Coast, where he was featured in RKO and Columbia pictures.

The screen attraction is "Age of Innocence," with Irene Dunne and John Boles as the stars of Edith Wharton's Pulitzer prize-winning novel.

Portrait of an Irish Giant; O'Mahoney Not Sure He Wants to Stay | *State Racing Board To Study Dog-Track Handling in Miami*

By AUSTEN LAKE

IRELAND'S STRONGEST MAN, a hulking spit of a lad with adolescent peach furz on his cheeks and the glint of Irish heather in his eyes, slumped in Paul Bowser's Chauncy street study and gazed at his finger nails. The Strongest Man, now among strangers in a strange land, was plainly homesick for his native countryside and the sing-song lilt of his home tongue.

Austen Lake

Daniel O'Mahoney (O'Maaaaanee), the Irish boy who has been imported by American wrestling interests to revive a wilting industry, was so soon pining for the twisting, hedged lanes, the rush-roofed cottages and the green vistas of his faraway island.

A new and uncatalogued specimen in the gallery of Bowser's wrestling beeves is this homespun lad with the unspoiled features of a college freshman and the muscular setup of a Congo porter, as yet unmarked by the scars of his profession. The sweep of his jaw and the flat trim of his ears are clean and unmarred. The drop of his nose is straight and the ridge of his brows unthickened.

There is, perhaps' reason for this, because in Ireland wrestlers protect their heads with padded guards, much like the training head harness of our own prize ring fighters. And the kicks, gouges, sledgings and all the mischievous knacks to which the elbow, knee and skull are heir have been outlawed.

* * *

O'Mahoney Not Sure He Wants to Stay

THEY SAY, DO THE SEASONED trial horses of the Bowser wrestling stable, that O'Maaaaanee is stout and brawny, prime material for the roughhouse needs of the American mat. He broke through their holds in the morning test tilts in Bowser's Framingham loft, which is Paul's mat laboratory, like an adult ape might crush an apple basket.

But O'Maaaaanee does not know, he says, in a treble, bird voice, whether he wants to stay. An English promoter named Bill Bankier in Liverpool will keep him busy and supplied with cash. No, not all Irishmen are wild with eagerness to leave their sod for the States.

This may be the natural overflow of Irish emotion in the brawny youth. I recall the crowded lighter that steamed from the dock at Cobh, Ireland, some few years since, and churned through the shallows of the harbor to the liner that waited beyond the narrows. The decks were thick with emigrating lads and lasses and strewn with their dunnage.

They had been singing wildly joyful songs, apparently delighted with the great adventure that lay ahead.

"They seem glad to leave," I said to a gnarled and seam-faced bargeman, who watched with a quizzical eye.

"Arrr," said he, spraying an amber jet through his teeth, "they'll be washin' che decks 'ith tears in a minute."

And it was even so. As the highlands behind Cobh, black against the setting sun, faded, so also did the chirps and ballads of the passengers, who soon stood sobbing at the rail, chins pointed toward the receding homeland and raising a broken-hearted lament.

* * *

ONE OF THE MOST HUMAN appeals in recent sport history is that made today by Judge Emil Fuchs of the Braves to Boston sport writers. The Judge, sentimental and sensitive to sport page comment on his financial affairs, asks, please, to be allowed to work out his own solution and adds, pathetically: "So I may enjoy my homelife without further embarrassment."

The plea is reasonable. Yet the writers, all of whom are fond of the Judge and sympathetic to his troubles, are torn between obligation to print news and adjacent speculation, their No. 1 duty as newsmen and their goodwill to Fuchs. The choice in this peculiar business is not always easy.

* * *

THE EDUCATION OF THE STATE'S new racing commission takes time and money. General Charles Cole, the new chairman, has just returned from New York and the national convention of race commissioners.

In mid-January, he and his mates, Connors and Ensign, will farrup off to Miami, Florida, to cram full of dog track lore.

This will not be as fullsome as the recent horse gathering. Because at the moment Florida is the only other state where dog racing is in the public confidence. New Jersey, after experimenting briefly, recently dropped it.

At the moment there are four applications for horse tracks in Cole's hands and 15 for dog tracks, which will be whittled down to two and four, respectively. The Braves' request for a franchise is still alive and kicking, incidentally, indicating that the ball club owners have not discarded the idea of coursing the hounds, whether on their own hallowed turf or on somebody else's.

* * *

Sweep Vestal's Goose Egg Victory

THE HAZY PROBABILITIES of horse racing were shown clearly at Charles Town, W. Va., when Sweep Vestal, a little horse with creaky, aging bones, streaked under the wire in the first race, such a ridiculous long shot that not a single dollar had been bet on her nose.

This is an example of what horse-layers term "infinity to 1." If, in a flight of inspiration some hunch bettor had bought a ticket on Sweep Vestal, it would have netted him the entire win pool, of $1318.50 to $2.

This is not the first time that a horse has scuttled past the wire without having a cent of backing. Some years ago a bag of bones named Old Kickapoo won at Tiajuana, with no win money on her elderly snout. In such cases, at the track, the entire win pool is distributed among the "place" stub-holders.

But here is the rib-tickling laugh. If a Boston bettor laid a wager with a Boston bookie on Sweep Vestal to win, without playing her to place and show as well, all he would draw for his thrill would be the return of his original $2, with not a cent profit. It is the only case in racing where a winning coupon holder gets nothing, while the place-player on the same horse receives $105.50.

HOCKEY BAN ON STEWART LIFTED

By Associated Press

Montreal, Dec. 18—Suspension of Nels Stewart, husky center star of the Boston Bruins, following an attack on Dred Kerr of New York Americans in Madison Square Garden in a game last week, was lifted today by Frank Calder, president of the National Hockey League.

Lifting of the suspension makes Stewart eligible to resume his position with the Bruins tonight against the New York Rangers.

Stewart was suspended Saturday following the incident in a game at New York last Thursday night when he and Klein were waved off the ice after a cross-checking duel. As they went to the penalty box Stewart, who had been cut himself in the fray, slashed Klein on the head with his stick.

Eight stitches were required to close the wound in Klein's head and his shoulder was dislocated. Both were given match penalties, and then Saturday Stewart was indefinitely suspended.

Joe Simpson, manager of the New York Americans, and Klein were not available in New York when news of the action was announced, but it was said at the Americans' headquarters that Klein had been around yesterday and it was thought he was ready to resume play tonight against St. Louis.

Frank Jerwa to Play Against Rangers

By Bill Grimes

Realizing the seriousness of the predicament brought about by their double defeat in New York, the Bruins will not stand on ceremony when they crash with the Rangers tonight at the Boston Garden.

Defeats by the Americans and Rangers and the suspension of Capt. Nels Stewart did not register favorably with the Bruins. To be beaten by the Amerks, whose mainstays are eight Boston castoffs and then to be nosed out by Rangers, who had won only three games in eight starts, has infuriated the Bruins to such a degree that they are in a bitter fighting mood.

Even in the face of the result of the two games in New York, the demand for tickets for tonight's conflict has created the best advance sale of the season.

The Blue Shirts have always been a popular team with the local hockey fans. Tonight's game in addition offers an opportunity to study the respective managerial ability of the Patrick brothers, Frank and Lester, so the appeal is great.

FRANK JERWA IN BOW

Frank Jerwa will make his first home appearance with the Bruins tonight against the Rangers. Frank was promoted from the Cubs for his sensational scoring spree in the Can-Am League. In 34 games, the younger member of the Jerwas scored 20 points.

Manager Lester Patrick will present four new toilers, including his son Lynn. Davis Kerr, late of the Maroons, will be in the nets for the Blue Shirts. The kid line comprises young Patrick, Charlie Mason and Bert Connolly.

Manager Frank Patrick will send the Barry-Kaminsky-Clapper line against brother Lester's veteran trio, Frankie Boucher and the Cooks, Bun and Bill.

Since Max Kaminsky has been centering for Marty Barry and Dit Clapper, the Bruins have developed a real scoring threat. The combination play of this trio, according to Frank Patrick, will rival the great Toronto lines before the close of this season.

Lineups at Garden

BRUINS		RANGERS
Clapper, rw		lw, F. Cook
Kaminsky, c		c, Boucher
Barry, lw		rw, W. Cook
Shore, rd		ld, Johnson
Siebert, ld		rd, Seibert
Thompson, g		g, Kerr

Boston Spares—Portland, Williams, Sands, Powell, Beattie, Jerwa, Shill, Gagnon. Rangers Spares—L. Patrick, Somers, Connelly, Mason, Dillon, Murdock, Keeling, Levinsky, Heller.

American Polo '4' Forced to Quit

Calcutta, Dec. 18 (INS)—Prince Alexis M'Divani, who parted from Princess Barbara Hutton M'Divani to lead an American polo team to India, today was forced to withdraw his four from major Indian competitions, due to injuries to players in practice at Jodhpur.

Prince Alexis intends to remain in India for some time, however, playing with other teams.

The Mite of Muscle on Fund All-Star Fight Card

Sammy Fuller peers intently into the distance and sees a championship bout beckoning as the result of his spectacular comeback success. If it's a powerful left that's needed for victory, Sammy has it. Sammy meets Bobby Pacho in one of the Garden 10-rounders on Friday. (Picture by Boston American Staff Photographer.)

Here is the powerhouse which generates the force contained in Sammy's punches. Note the powerful muscular development in the shoulders and back. Sammy is only a lightweight but punches with the force of a middleweight. He'll find Bobby Pacho a stiff test, however. Phacho recently gave Barney Ross a hard fight.

Try this little stunt on yourself. Take a folded newspaper and wrap it around your arm muscle. Wrap it tight, now strain and try to break the paper. It takes strength to do that but Sammy is one of the strongest of the little fellows in the ring today. A powerful right, a damaging left makes Sammy a real threat to Ross.

Gunners' Pro Grid Berth in Danger

St. Louis, Dec. 18—The St. Louis Gunners' franchise in the National Professional League was in jeopardy today, as a result of a poor season, financially, climaxed Sunday with the attachment of an exhibition game's receipts.

A meeting of interested persons will be held Thursday to determine the future of the franchise, it was announced by Ed Butler, president of the Gunners.

HARVARD SIX PLANS TOUR

Harvard's varsity hockey team will play a three-game series with the University of Toronto at Lake Placid during the Christmas holidays.

The trip will be an informal one with the players paying their own expenses. The three games will be played on the final week-end of the month, the first game being scheduled for Friday, December 28. The second will be played on Saturday and the final game on the following Monday.

According to present plans a dozen players headed by Coach Joe Stubbs and Captain Bill Watts will leave Cambridge the day after Christmas for two days practice before the first game.

The outdoor games are expected to put the Crimson squad in great condition for the indoor season.

Mrs. Muir Elected A. A. A. U. Delegate

Mrs. Ione Muir was elected a delegate from the Boston Swimming Association at a meeting of the New England A. A. A. U. staged at the B. A. A. clubhouse.

Mrs. Muir is the first woman delegate in the history of the organization. Although named as a delegate, Miss Muir was not admitted to the meeting, which was presided over by President William O. Kenney.

BOSTON RING ACES IN LINE FOR CROWN BATTLES

By Ringside

James C. Foster president of the National Boxing Association announced this writer over the long distance telephone from Providence today that he will be the ringside where Jim Ferguson, Jack Sharkey and Referee referee the superbout scheduled at the Christmas Basket Ball show at the Garden Friday night.

"It is the best boxing show offered in New England in years," said Foster. "I am anxious to see how Sammy Fuller goes against Bobby Pacho. Fuller has shown brilliant form in his last three bouts, and if he can keep up the pace he will be the logical opponent for Barney Ross.

"I hope Fuller does not underrate Pacho. The latter has displayed real fighting form in bouts held in states controlled by the National Boxing Association. Pacho recently gave Barney Ross a tough battle at Cleveland. Fuller will have to be at his best to win.

THE CHANCE FOR TONY

"I am also interested in getting a line on Maxie Rosenbloom and Tony Shucco who meet in another ten-round bout. I saw Rosenbloom win the title from Bob Olin in the ring of the Garden and I thought Olin was entitled to the verdict.

"If Shucco can beat Rosenbloom, he will have to be considered as a challenger of Olin. Maxie has also told me he has a desire to get a crack at his old title."

Foster will sit with Dan Kelley of Detroit, [illegible] members of the [illegible] Commission.

Fuller Top Bidder

Chicago, Dec. 18—The Illinois Athletic Commission today named Sammy Fuller, Boston boxer, as the logical challenger for Barney Ross' lightweight title. Canzoneri was ranked behind Fuller by the local body, followed by Cleo Locatelli, Italy, and Frankie Klick, San Francisco.

who have done so much to help make the Garden show a success. In a few [illegible] of them is anxious to see as many possible to increase their box [illegible]

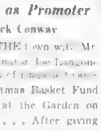
Mr. Boston Says:—

Basket Fund Cheer New York Ring War Dempsey as Promoter

By Jack Conway

AROUND THE TOWN with Mr. Boston . . . Sergeant Joe Langford having a basket of fun for the Christmas Basket Fund, losing snow at the Garden on Friday night . . . After giving his help to Sunday night shows at Club Mayfair and Brown Derby . . . George Grimm tells me the Brown Derby took $347.50 out of the hat for the Christmas Basket Fund . . . Fine work!



Mr. Boston

Barney Ross will not fight for the New York Garden . . . If they show in New York he will be in the Madison Square Garden . . . Ross knocked out the New York Garden for some time.

Ancil Hoffman admits the Garden has Baer signed for one fight, but says the contract is full of holes and that he may go to court to try to break it . . . If forced to do so, Baer will fulfill his present contract with the Garden after which he will show for the Milk Fund.

* * *

Dempsey as Promoter

I LOOK FOR Jack Dempsey to step forth in the role of promoter as soon as Rare is clear of his contract with the Garden . . . Dempsey promoted Max Baer with Bob Levinsky, Paulino and Schmeling . . . Baer was obliged to go along with the Garden to get the title match with Carnera . . . Dempsey has always expressed a desire to cooperate with the Milk Fund.

Before Tex Rickard died, he was planning to break with the Garden, team up with Dempsey and get control of the heavyweight boxing championship . . . That is why Tex guaranteed Sharkey $100,000 to go to Florida to fight "Young" Stribling . . . He was secretly rooting for Stribling to win . . . Dempsey later revealed to me he was going to stage a comeback and battle Stribling if the latter won from Sharkey . . . Tunney had retired and Dempsey would have stepped up as champion if he had beaten Stribling . . . Otherwise the title would go to Stribling.

The Richard Dempsey combination planned to stage two title bouts each year, one in a metropolitan area each summer and a second championship match in Florida each February . . . Rickard died, Sharkey licked Stribling and the plan to get control of the heavyweight title go blew up . . .

Sharkey and Dempsey

DEMPSEY always had great admiration for Sharkey's fighting ability following their 10-round battle in New York . . . He refused a guarantee of $400,000 and a 37½ per cent privilege to meet Sharkey in a return bout in New York . . . I had breakfast with Dempsey one morning on a train as we rode from Tampa to Miami . . . He told me Sharkey punched too hard and was too fast for him . . . He said he would have to have a slow opponent like Risko, Breeny or Carnera if he were to stage a comeback . . . Dempsey always thought Sharkey could have licked Tunney and advised Sharkey to make the match . . . Dempsey figured Sharkey had a faster left hand than Gene, and would also shake him up with his right . . .

Dempsey is rooting for a Sharkey comeback . . . If Sharkey meets Max Baer in an exhibition bout in the Garden next month and shows his old-time ring class, Dempsey will try to sign him to meet Max Schmeling . . . Dempsey says Sharkey has it in his power to give the boxing game the spark it needs.

Rutgers Back Honored

New Brunswick, N. J., Dec. 18—Ira Nilon, of Pittsfield, Mass., a member of the junior class and halfback on the Rutgers varsity grid team, has been awarded the coveted George T. Cronin trophy.

Ring Results

Boston—Henry Melody, Charlestown, outpointed Phil Abrahams, Middleboro, 10 rounds.

Watertown—Xavier Price, 133, Lynn, knocked out Joey Kemp, 137, Cambridge, in the second of scheduled 10.

Portsmouth, N. H.—Nelson Dixon, Rochester, 10 rounds.

Newark, N. J.—Al Gaudino, 147, New York, defeated Johnny Hanlon, 147, Jersey City (6).

Newark, N. J.—Al Davis, 181, Bridgeport, Conn., won a decision from Norman Barnet, 205, Bloomfield, N. J. (10). Mickey Bolling, 181, Newark, outpointed Salvatore "Red" Attanio, 175, New York (10).

Utica, N. Y.—Leo Andreo, Herkimer, N. Y., knocked out Vic Dellicurti, Scranton, Pa. (1).

Holyoke, Mass.—Elmer Ray outpointed Bob Hoffman, Holyoke (10).

Reno, Nev.—Jackie Fields, Los Angeles, won a decision from Ray Impellitteri, New York (10).

London, Eng.—Jack Petersen, British heavyweight champ, defeated Gunter Toole, Australia (15).

Chicago—Paul Lee, Indianapolis featherweight, defeated Frank Strobel, Chicago (8). Jack Gibbons, St. Paul middleweight, defeated Tony Zale, Gary, Ind. (10).

New Haven, Conn.—Lou Foster, 137½, Pottstown, Pa., outpointed Eddie Unknown Wharton, 136, Hartford (10). Mike Fratello, 181½, Italy, outclassed Frankie Britt, 183, Fall River, Mass. (10).

THRONE BOUT ARENA CARD HEADLINER

By Jack Conway

Dan O'Mahoney, famous Irish wrestler, will be at the ringside at the Arena when Bob "Bibber" McCoy defends his New England heavyweight championship against Count Zarynoff in a finish bout, best two falls out of three, tomorrow night.

O'Mahoney is anxious to get a line on the [illegible] of Mc-Coy and Zarynoff.

Alex Marlow, promoter of the Mello Zarynoff bout, [illegible] O'Mahoney to attend [illegible] Alex has [illegible] [illegible] wrestling [illegible] Irish-Lou Daly.

O'MAHONEY UNSIGNED

O Mahoney has had several conferences with Paul Rowser in regard to appearing at the Garden but has not come to terms with the local promoter.

Meanwhile McCoy and Zarynoff are in splendid physical condition for their battle at the Arena tomorrow night.

Zarynoff has displayed remarkable speed in his workouts. He believes he will win from McCoy in straight falls and predicts [illegible] ject the $1000 side bet.

The Count is blessed with a thorough knowledge of the fine points of wrestling, and believes he will surprise a glorious victory to borrow night.

M'COY SEEKS IRISH TITLE

McCoy, who came from Holy Cross, won the title behind a flying tackle. "Bibber" knocked off some sturdy opposition before he licked Al Mercier. The Cambridge boy is the rugged fighting type and does not believe Zarynoff can up him from his shape.

"If I win from Zarynoff I would like to wrestle Dan O'Mahoney," declared "Bibber". "I'm going to set myself up as a challenger for the Irish heavyweight title. I'm every bit as Irish as O'Mahoney. That means 200 proof."

Ted Sanford, Johnny Ball, Martin and Rebel Rob Russell is expected to be a stirring affair. Neither of these men worries about the rules of wrestling and they should give the fans plenty of thrills. There is a 30-minute time limit but both Martin and Russell say the tussle will be over well inside of that limit.

The "Red Demon," the latest of the masked wrestlers, will have George Mosher as an opponent in another bout that has aroused much interest.

Eddie Marchioni opposes Tommy Rae and John Spellman collides with Fied Carrone in special contests.

Hamas, Schmeling to Box in Hamburg

New York, Dec. 18 (INS)—Steve Hamas of Passaic, N. J., and Max Schmeling of Germany will meet in a 12-round bout in Hamburg, Germany, on March 10. News of this came today through an announcement by Hamas manager, Charlie Harvey.

Harvey said he had cabled acceptance of the contract to Walter Rothenberg, German promoter, after he had become convinced that Madison Square Garden would be unable to meet his terms for the match.

135-Pound Leaders in Iramerk Show

Jimmy McCarron, Somerville; Jackie Caparrelle, South End; James Cornell, South Boston, and Alex DeAngelo, Marlboro, have sent in their entries for the Irish-American A. A. amateur boxing show Thursday night. All are in the 135-pound class.

Entries close with Tam Sheehan, Irish-American A. A., Broadway, South Boston.

Trinity Gridmen to Tackle Hobart

Hartford, Conn., Dec. 18 (USI)—Trinity's football team, which was unbeaten during the past season, will meet Hobart next fall and possibly Amherst, Hamilton and Williams the following fall

Doting Father Severest Critic for Jump Ace

DR. SANFORD T. JOHNSON STANLEY JOHNSON

Stanley is the New England broad jump champion and record holder representing M. I. T. His father is the Tech trainer. They make a rare combination with the proud father at the same time the sternest judge and severest critic of his famous off-spring. Dad Johnson not only kneads and rubs the kinks out of son Stanley's muscles but also advises him on proper diet and methods which have brought him sparkling athletic success. A rare pair these and a great combination. (Picture by Boston American Staff Photographer.)

Patricks First Family of Hockey World

By Bill Grimes

Just as soon as the New York Rangers hit town this afternoon, the Patrick family will go into a huddle . . . while Frank and Lester are discussing their respective chances of winning the Stanley Cup, Joe, son of Frank, will be giving Lynn, son of Lester, with questions as to the tactics of playing N. H. L. hockey with the Rangers . . . Joe and Lynn are the sons of two of the greatest fighters ever produced by the [illegible] game in the world" . . . Apparently they are chips of the old blocks, for Lynn had the misfortune to [illegible] in preference of a number of the best amateurs in Western Canada while Joe, who is a few years younger than his first cousin, has a promising future.

Ching Johnson, Frankie Boucher, Murray Murdock and the Cook brothers, Bill and Bun were members of the original N. Y. Rangers and are playing their ninth season under Lester Patrick . . . And to the best of my knowledge Ching Johnson has never signed an N. H. L. contract . . . He deals directly with the Madison Sq. Garden . . . You know, in the event of a collapse, Ching figured that he [illegible] tion donar banning and that he'd have a tough time getting his [illegible] and never condescended [illegible]

Foster Fine Center

The St. John, N. B. Beavers have signed Art Foster, former Kitchener winger, from the Selkirk fishermen to team up with his old mate, Walter Monson . . . Bud Foster, the stocky little Melrose high school center, is the class of the Greater Boston League . . . Two years ago, when I first saw him, Foster was not as tall as his stick and only a few pounds heavier . . . He is much huskier now and looks like one of the best youngsters Melrose has ever contributed to hockey . . . And, along with his remarkable ability, "Bud" is a fine sportsman and modest, almost to a fault.

Coach Herbie Gill and his Dartmouth hockey squad will be in town late this week . . . The Big Green will take on Walter Brown's Olympic club next Saturday night at the Arena . . . although it will conflict with the Bruin-Detroit game, the amateur tilt will prove a fine attraction . . . Jack Roberts, manager, is priming three of Coast scale for Olds of the Southern Alberta League, rides broncbus at the Calgary Stampede.

B.C. Six Needs Support

Coach John Kelley is driving his Boston College squad for the Dartmouth game at the Arena Friday night . . . The Eagles reestablished hockey as a major sport this season and have a strong team in the making . . . Undergraduate and alumni support would lighten their burden and insure continuance of the popular winter pastime . . . John P. Curley, Director of Athletics, will advocate hockey in the future only if the Boston College adherents vindicate his belief that interest will develop to warrant continuation of the sport.

Jesse Pusie, the colorful Cub defense man, spends much of his [illegible] a very acceptable visitor . . . by the first time in four years the Bruins will be here for Christ- [illegible] on the road for nine years returning from Ottawa or Chicago or going to Montreal . . . One of the great houses of the season should be at the Garden Christmas night [illegible] first appearance of Sir Thomas Patrick Gorman and his Montreal Maroons.

Stewart Not So "Bad"

Of the 777 minutes Nels Stewart served in penalty boxes from the 1925-26 to the start of this season, he was here during his first three years in the N. H. L. . . . From the fall of '26 through the 1933-34 season, Ching Johnson was in durance vile 46 minutes more than Nels Stewart—and remember, he was out of the game practically the entire season of 1928-29 . . . But did the N. H. L. ever point at the big Ranger as a "Bad Man" . . . *Eddie Powers, the former Cub manager, is priming three of Coast*

HEY POP!

TECH JUMP ACE TRAINED BY DAD

Stanley Johnson, M. I. T. sophomore and New England champion in the running broad jump, has [illegible] [illegible] [illegible] IC4A broad jump title. Last year he was runner up in both the indoor and outdoor championships. This year it will be first place in both, thinks Stanley's father, "Doc" Johnson, Tech trainer.

Last year Stanley leaped 24 feet 4½ inches in the outdoor championships at Philadelphia, repeating his runnerup position gained indoors in the New York Garden.

Stanley's dad, who early recognized his son's prowess, is an expert in conditioning athletes.

"No fried foods, apple water, and—an apple a day. That's all there is to it. Of course, practice is essential," he says.

Johnson is a former Newton high ace. In his senior year he captained the Orange and Black track [illegible] interscholastic title in his final meet.

MORGENTHAU REPORT IS ANALYZED

By HUGH E. BRADSHAW

The report on credit conditions ordered by Secretary of the Treasury Henry A. Morgenthau is the first step toward some form of Central banking. Bluntly advising more liberal lending by a network of federal agencies the report flayed bankers and bank examiners alike. However, we think it is only proper to note that the survey was made in Chicago, hotbed of anti-administration politics. Morgenthau is an able executive and no doubt

Henry A. Morgenthau

will be forceful.

Thus the defining of a trend toward central banking cannot be said to be the work of one individual. The four principal conclusions of the report were that banks should be encouraged to make and renew working capital loans of six months' maturity, Reserve banks' discount eligibility rules should be liberalized, direct loans to industry should be made, and bank examiners more liberal, and bank examiners should not classify loans as "slow." A complete, useful program in itself.

• • •

Notes: If the bankers quickly seize the bull by the horns with a little help from the examiners the plea for a network of federal agencies will fall flat . . . As it is two against them and two against the government in the four conclusions the report draws . . . The motor accessories will be strafed beginning today in the Daily Stock Analysis . . . Because of the barrage of adverse criticism that was laid down regarding the textiles about the time they were appearing in the Stock Analysis we like to hark back to advices printed there and in this column . . . Further evidence that shares like American Woolen are tape leaders and are subject to such pleasant comment.

• • •

A stable building boom in 1935, starting January 1, is predicted by Miles L. Colean, economist specializing in advance building reports. In the opinion of Abbe Market, manager of the local office, private ownership and government bank assistance in raising the money for fulfill pla[illegible] voting property [illegible] construction industry [illegible] there will be little in the way of a general revival.

• • •

Shorts: Western Union was noted here about a week ago and has not gotten anywhere since . . . In fact it is off a point or so . . . Without benefit of any news or so-called matters we think the stock is cheap . . . Judged solely on chart performance . . . While our participation index fell off around the highs of a week ago it has not shown any inclination as yet to pick up on the downside . . . All in all a cheerful sign encouraging us to believe the theory of a rapid upward movement, interrupted by sharp bursts, is right.

• • •

If the current reaction has terminated above the 100 level on the 30 industrial index, as conditions seem to indicate, it is reasonable to expect a run to 103-107 without too much delay. At that latter zone however, we anticipate some trouble, with a reaction of two or three points. The rails in the meantime have little trouble ahead until the 40 mark is approximated. To points this paper seems apart from the important percentage [illegible] away ahead.

• • •

Briefs: Johns Manville and du Pont are two fully reacted industrials . . . Both incidentally have touched the middle markers of the zones indicated here . . . American Woolen comments we would not take on during reactionary periods and the same goes for the preferred . . . Just under 9 seems right for the common and 42 seems a likely price for the preferred . . . The stocks show buying on the tape that does not appear of the flash-in-the-pan type . . . We would not forget them.

Wall Streeters Content to Watch Action of Market

By WALL STREET SPECTATOR

[illegible] business and political way.

[illegible] this would explain why the market failed to respond to the rise in steel operations to the highest level in nearly 6 months and further optimistic business position due to the rise in silver . . . The latter explains most of this new talk about silver on the expectation China may be forced to enter the world market to replenish its reserves.

Utility shares are beginning to act as if they would live to reverse their long downward trend . . . Regular dividend by Consolidated Gas next week would help.

Year-end selling by investment trusts is said to be pretty well over . . . Trusts did a lot of cleaning up and switching on the recent rise.

Europe is marking time after the buying flurry but not long ago. There is said to be a lot more money on the other side to come over when the political uncertainties are cleared up.

Markups on the prices of their products are responsible for the speculative flurry in the textile shares . . . There has been considerable talk about prospects for air conditioning next year.

RAILS RECOVER NEAR CLOSE OF TRADING

New York, Dec. 18—Trading on the stock market slowed down appreciably today and the turnover was small.

A scattered demand developed for the railroad shares in the final hour, buying of the rails apparently predicated on hopes for favorable legislation at the next session of Congress of Atchison, Delaware and Hudson, and Pennsylvania scored fractional gains.

STEEL STEADY

Further selling broke out in the utility shares as a result of the new break with the Federal Power Commission. Public Service of New Jersey showed the greatest weakness.

American Telephone after losing nearly a point into forenoon declines staged a good recovery to convert the loss into a small gain.

Steel shares stubbornly resisted the scattered selling as United States Steel recovered its early loss. Bethlehem and American Can as well as other pivotal industrials were steady.

Soft coal and silver futures found reflection in the heaviness of the silver shares where United States Smelting and Anaconda more than a point, while Cerro De Pasco and American Smelting suffered smaller losses.

HOLIDAY TRADE

Attention was again attracted to some of the merchandise shares as the result of indications that many of the stores might enjoy their best holiday trade in the past three or four years.

Sentiment in the street was mixed, with several bearish technicians pointing to the sluggishness of the rails as one of their principle deterrents to the resumption of the advance on a broad scale. But quiet buying for the "long pull" was reported by a few commission houses, and the more optimistic traders are waiting confidently for a spring upturn.

Reactionary tendencies displayed by a few of the mining equities apparently were due partly to the confusion existing in world silver markets where prices have been fluctuating somewhat erratically recently. Rumors, semi-officially denied, that the Chinese government was contemplating the devaluation of the Shanghai dollar were also seen as an influence in the action of the metal group. Bar silver in New York was reduced ½ cent an ounce to 35¾ cents. It was off ⅛ of a cent yesterday.

A number of usually active operators were said to have temporarily retired to the sidelines awaiting the expected address of the president to the country. The chief executive's message to congress was also being awaited as a possible market motivator.

Amoskeag to Pay Two Dividends

Amoskeag Co., the holding company, has declared two common dividends, one of 50 cents a share, payable March 3, 1935, to stock of record Dec. 22, and the other of 75 cents, payable July 2 to stock of record June 22.

Thus Amoskeag Co. reverts to its former practice of declaring two semi-annual dividends in December. The 1935 payments will exactly duplicate those of 1934. In 1933 and 1932 the company paid $1 in each of January and July.

The company also declared two regular semi-annual dividends of $2.25 per share on the preferred stock, one payable January 3 to stock of record December 24, and the other payable July 2 to stock of record June 22.

Record Rate on Springfield Loan

Springfield, Dec. 18 (AP)—A record rate of .43 plus a premium of $11 on a one-year loan of $500,000 in connection with revenue was obtained today by City Treasurer C. W. Rice.

The low bid was made jointly by a Boston and New York banking house.

Stock Market Timetable

10-11—Irregular tone prevailed in first hour dealings. Utilities were easy. Rails were steady. Metals and miners worked lower. Trading was quiet with sales approximating 200,000 shares.

11-12—Shares drifted irregularly lower in the second hour. Trading was sluggish and price changes were of a fractional nature. Sales were 370,000 shares.

12-1—Miners worked lower in the third hour. Utilities and Steels and Rails were quiet. Trading was dull. Sales amounted to 490,000 shares.

1-2—Trading was extremely dull during the fourth hour. Price changes were of an unimportant nature. No group was outstanding. Sales were 570,000 shares.

2-3—Stocks recovered during the final hour. Rails were firm and tobaccos were steady. Trading activity increased. Late tone was firm. Sales were estimated at 970,000 shares.

AUNT BELLA TURNS FLOOD LIGHT ON BLUE BLOODED CAD

Tells How Society Man Fails In Test of Chivalry

EDITOR'S NOTE—Scores of letters arrive daily asking Aunt Bella—even daring her!—to go on and on with her autobiographical notes. "Okay by me!" is Auntie B's reply to the public challenge. "I will spare neither myself nor th m-beats which sought to prey on me when I was in my first blush of young womanhood. However, if Mr. Roy Helm, who I think said he came from Duluth, and was a traveling salesman, will get in touch with me it will be to his advantage."

We met at the Artists' Fiesta—a Costume Fiesta High Jinx.
He wore a bright shining armor, and I was a shy little minx.
He pinched me and whispered shy allies,
He chased me and offered me rum;
I never suspected I'd soon be subjected
To such bold advances . . . the bum!
He told me some off-color stories;
I'd heard them before . . . but I cried,
"Whoever you are, you are going too far!
"You're a menace. Hush up and subside!"
But how can a girl who is normal, and flushed with "Here's mud in your eye!"
Resist such a charmer, disguised in an armor? Not many, I venture. Not I.
I swooned as the evening grew stuffy. I fainted. I ain't felt right since.
And when I came to I was minus a shoe. Cinderella! But where was my Prince?
I decided I'd go out and find him. I did what a nice girl would do.
I sought, as I ought, to go back what I thought was my right—I mean my right shoe.
Determined and just a bit stubborn, I decided that I would insert
An ad in the classified section My pride and my feet was both hurt.
I offered a forthright concession. "Come clean!" I declared,
"with my shoe.
"If it fits me, Okay! A ransom I'll pay! We'll get married and see the thing through!"
I waited and waited and waited. I thought he'd at least be a man!
The coward, instead, sent a letter which said: "Catch me, my dear, if you can!
"The bus has just left and you're stymied. In fact you are several days late—
"The week before last I decided to cast my lot with a gorgeous young mate.
"She tried on your slipper. Voila! It fit very slick—like a glove.
"And what do you think! In less than a wink we were violently, madly in love!
"So kindly wrap up your old slipper, the left one, of course, without fail
"And send it—the shoe is of no use to you—by special de-liv-er-y mail."

Join X-9ers; Get Your Badge

SECRET AGENT X-9 BOSTON AMERICAN

Become a member of the X-9 Club. Write your name, street number, city or town on plain paper and enclose five cents to pay for the handling of the badge and membership card.

Mail your application to SECRET AGENT X-9, BOSTON EVENING AMERICAN, Post-office Box 1096.

By return mail you will receive your card and a new, shiny badge.

U. S. TO ADVANCE WIRE MERGER

(Copyright, 1934, by Universal Service)

Washington, Dec. 18—The Federal Communications Commission has decided to recommend legislation permitting creation of a single telegraph system in the United States.

Recent hearings failed to convince the members that any merger in the telegraph field should be compulsory. They are convinced that if such mergers are permitted by law, the major units—Western Union and Postal Telegraph and the R. C. A.—will voluntarily combine, it was learned.

The tentative draft to be presented to Congress will provide protection to labor against wholesale dismissals following consolidations.

New York Rejects Bids By Utilities

New York, Dec. 18—The public utility companies operating in New York city, already in hot water with Mayor Fiorello H. LeGuardia because of their attempt to pass on to the public the 3 per cent relief tax recently imposed on their gross receipts, have met with another rebuke.

Commissioner Maurice P. Davidson rejected bids for supplying electric light, power and steam to the city for 1935. He explained that the companies were not disposed "to remedy their excessive charges and intimated the city would undertake to distribute and, if need be, to generate its own electric current.

Carnegie Money and Communist Propaganda—A New Deal in Disloyalty

WHEN will these everlasting Carnegie endowments and Carnegie funds and Carnegie foundations cease to afflict the American people?

Their persistent self-injection into every situation, with biased and bigoted propaganda, their intrusion into every question, both domestic and international—offering a field for their disloyal and un-American activities—is getting to be more than CAN be borne or SHOULD be borne.

The latest outrage they have perpetrated is perhaps their worst!

It is in the form of a pamphlet entitled "The Political and Social Doctrine of Communism." This pamphlet is the December issue of a periodical calling itself "International Conciliation," published monthly by the Carnegie Endowment for International Peace.

In a preface of clumsy apology, excuse is made for the publication on the ground that there should be an authoritative setting forth of both Communism and Fascism as political, economic and social doctrines, and then follows the full text of the report on the work of the central committee of the Communist Party of the Soviet Union by Stalin to the All-Union Communist Party Congress held in Moscow on January 26 of the present year.

* * *

AS if the threadbare twaddle and familiar bunk of the Soviet tyrant and terrorist were not enough, there is appended to his report an article by Dr. Sidney Hook, professor of New York University, who appeared in the news a few days ago as one of the active figures in the merger of the Communist League in America and the American Workers Party into an organization whose avowed intention is the overthrow of the American government by force.

It is needless to say that Stalin's article attacks capitalism and exalts Communism, predicting that bourgeois capitalism is coming to an end.

The familiar Soviet thesis that the capitalist countries of the world are preparing for an imperialist war against Russia is trotted out for home consumption.

The revival of this bug-a-boo, with the recurrence of open terrorism and murderous repression in Russia, confirms the report that all is not well behind the censorship network of the Soviet Republic.

* * *

THE Stalin article is propaganda pure and simple.

Its publication by the Carnegie Endowment for International Peace is an act of THOROUGH DISLOYALTY TO AMERICA—indistinguishable from the common and familiar circulation of seditious and subversive literature by secret agitators.

The organ which carries such stuff, even if it has the imprint of the Carnegie endowment, is not one whit less blameworthy and censurable than the skulking enemy of society whose scene of operations is the dark alley and the hide-out.

THIS CARNEGIE ENDOWMENT IS AN OLD OFFENDER!

It has persistently advocated American entanglement in all foreign complications.

It has steadily condoned Europe's repudiation of its debts to the United States.

It has sought to undermine the American democracy by spreading Communist material which is designed and used for propaganda.

Perhaps Carnegie's "International Conciliation" sees nothing to criticize in Communist Russia's threat of war against Japan; in Russia's alliance with war-hungry France, and her support of Czechoslovakia in its war threat to Hungary.

Perhaps the disloyal pacifism of the Carnegie Endowment is so vision-twisted or money-lulled that it can find nothing to criticize in Russia's impudent interference in the life and government of every peaceful and friendly nation in the world with which it can establish contact.

Perhaps it even approves Stalin's declaration:

"The American Communist Party must be improved and Bolshevized. For that end we must work in order to forge real revolutionary cadres and real revolutionary leadership of the proletariat, capable of leading the many millions of the American working class toward the revolutionary class struggle."

* * *

PERHAPS all this is considered "international conciliation."

The straight-thinking American is apt to consider it something very different. He knows these Carnegie organizations, their mischievous vaporings, their pestilent un-Americanism, their incurable antagonism to every true and just aim of the United States.

He despises their propaganda and their endowed publications which exist only to disseminate it.

By such publications the Carnegie Endowment not only affronts the American reading public, but it discredits the press itself and the freedom which the latter enjoys under the Constitution.

The Real Lesson

Aviation Day Teaches

The real lesson taught by National Aviation Day this week, the anniversary of the Wright brothers' first flight, is that of our present unpreparedness.

Despite our marvelous record of progress in many lines, we would be unable to stop a big-scale attack from the air.

And the great air derbies of 1934 have shown plainly that we are no longer immune to inroads of foemen merely because we have on one side the Pacific, and on the other the Atlantic.

We have, happily, the nucleus for building up our defenses rightly.

In New England alone more than a dozen cities boast airports.

These include Boston, Springfield, Portland, Providence, Portsmouth, Bangor, Montpelier and Burlington.

These are commercially important. But, as constituted today, they would be pitiably weak for defense.

We need MORE airports, to be used as strictly military bases.

The incoming Congress will have such strengthening of our defenses under consideration.

There is nothing sectional in this protecting of ourselves.

It is as vital to one part of the nation as to another. Every Congressman ought to see it that way. And act accordingly.

Genuine Sea Serpent

Harvard Digs It Up

Sea serpents may come and sea serpents may go in the marine fields of sailor and passenger fancy.

But, when Harvard wise men find a sea serpent, it stays found. And indisputable.

In Queensland, Australia, members of the staff of the Harvard Museum of Comparative Zoology, uncovered a fossil skeleton.

They hacked the 35-foot long monster out of the solid rock and shipped it to Cambridge in 32 boxes. Weight, six tons.

A real sea serpent. And estimated by the savants to be 120,000,000 years old—known as the plesiosaurus.

There's one for Methuselah! And for those who doubt that sea serpents ever existed.

Human Side of the News

Our Friends, the Animals

By Edwin C. Hill

THE GLOBE TROTTER OF HEARST METROTONE NEWS

From Soviet Russia comes a news dispatch about the disappearance of family pets. Food is too scarce, living quarters too crowded, life too much in flux to carry along with it the friendly creatures who have been man's companions for centuries.

Hope is held out that they will be back again. There is no mandate against them. But for today they are a casualty of tumult and change. It seems all wrong to me. Much of our earth-life we have shared with animals—our emotions, for instance.

This thing we call mind—and who knows what it is?—we have had only since yesterday. One to another we talk a new language.

But, with old Shep, woofing around after squirrels; Bogey, the spotted conch dog with his stately dignity; old Tom, the cat, wise old sybarite—with these we have in common an unspoken and unwritten lexicon of understanding older than the pyramids, older than man's first stone hatchet.

I think blatant little man, with his machine, his great cities, inhospitable to either man or beast, ought to take time out and think of St. Francis, who talked to the birds. Such, in effect, is the counsel of Dr. Frank Thone, in a splendid article, "You May Make Animal Friends," in the magazine, "Nature Study."

The open hand, not the closed one, is what speeds your wooing of the little folk in the forest.

My story has to do with a German scientist, a great, blonde Teuton who lived as a hermit on a mountain side, working with microscope and enjoying friendship with creatures.

He seemed to know everything to be known except the English language. Startling it was to hear him discoursing on deep matters in the lingo of Weber and Fields. He lived on a simple vegetable diet, never touched liquor or tobacco and made a fetish of bodily cleanliness. One day I awaited him at his shack.

"Where have you been?" I asked, when he returned.

"I haf been patting de trouts," he said.

"What!" I exclaimed.

We went to a deep, rocky pool, fed by a tumbling stream. The big, blonde Siegfried, with a mystic, ecstatic look in his eyes, lay down on a rock at the water's edge. He stationed me twenty feet away.

"De trouts don't know you," he said. "But dey know me."

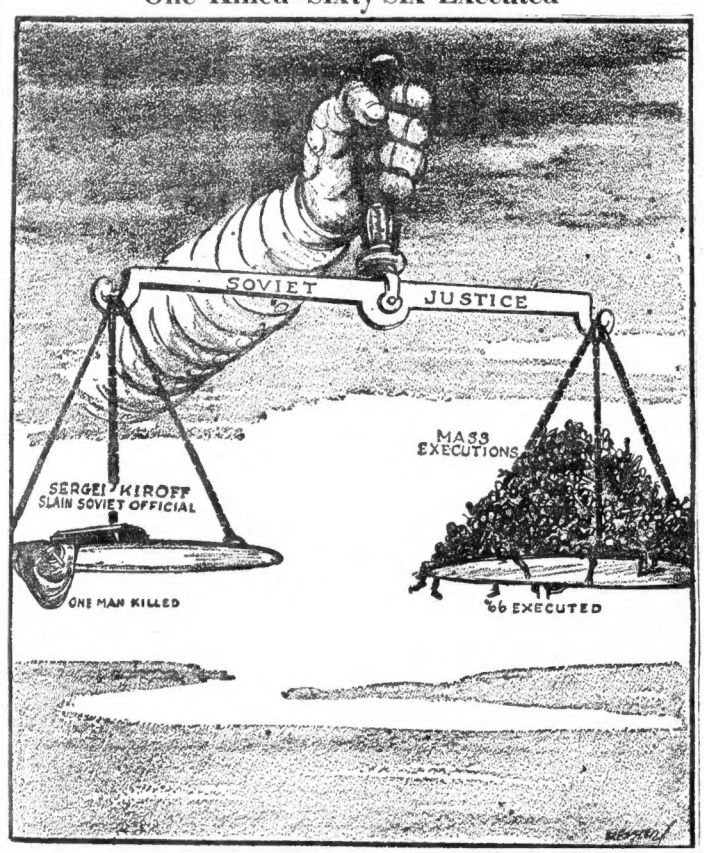
He trailed his fine, sensitive, scientist's fingers gently back and forth in the water. A half hour passed. Then, down in the deep cavern below there was a hovering, formless shadow. It took the shape of a fish. For perhaps 10 minutes it circled and retreated and then came within reach of Herr Doktor's hand.

It was a mountain trout, perhaps seven or eight inches long. Then there came two or three more. The scientist stroked them gently. He was "patting de trouts."

Daily Bible Text *"Blessed is the man that walketh not in the counsel of the ungodly."* —Psalms i, 1.

By the Rev. Luther Morris, Universalist Church, Stoughton.

One Killed—Sixty-Six Executed



Men attack Russia's Government at their peril. Sixty-six dead piled up in the scales of "Russian Justice" on the right, KNOW it—too late.

They were all executed for the murder of one. Other legal killings will follow.

(Reprinted from N. Y. Daily Mirror.)

Number One Public Enemies

(Extracts from an editorial which appeared in Hearst newspapers on Sunday, December 9, 1934.)

WE RECOGNIZED Russia.

Now it is just as well to recognize what we recognized.

It is the same old Russia as under the Czars.

* * *

There is the same old wholesale indiscriminate massacre of opponents of the despotism, whether those slaughtered be guilty or innocent of crime.

* * *

There is the same old conflict for position and power in which the masses are trampled under the feet of the battling factions.

RIGHTS, liberties, opportunities, the people of Russia had not under the Czar and have not under Stalin.

Is it not about time for all of us Americans to realize that peace and progress and happiness only thrive in the soil of liberty and free democracy?

Is it not time for us to realize that those who are attempting to transform this American Republic into a Communistic tyranny of class against class are, above all others, the Number 1 Public Enemies of our country and our people?

They are the most flagrantly seditious and traitorous element of our community.

WILLIAM RANDOLPH HEARST.

Hendrik Van Loon

WRITES ABOUT

Breakers of Laws

I am a criminal and now I am being punished.

I broke the laws of nature and I have to pay a heavy fine.

Hendrik Van Loon

For years I did everything I knew I should not do. I never took any exercise. I sat for hours at a time at my desk and forgot all about that part of the Divine Command that speaks of the necessity of breathing plenty of fresh air.

In the matter of food I completely forgot that Nature intended me to chew whatever I ate. For I was in a hurry and I gobbled things down like a dog, that I might be able to return to my desk all the sooner.

Nature is never in a hurry. She always takes her time about things and, while a strict taskmaster, she is eminently fair and condemns no one without plenty of warning. But I thought that I was brighter and smarter than Nature. In more vulgar language, I thought that I could get away with it.

NATURE STEPS IN

I could not get away with it.

So one day Nature came with a full bill of particulars. I had done this and I had failed to do that. I had broken her commandments so many times. That meant at least four weeks of solitary confinement, and a heavy fine to be paid in the form of pain and misery.

The doctor came and looked at the mess I had made out of things. Then he set himself down to repair the damage. He took a careful inventory of everything. He dug as deeply into my past as he could possibly do.

Now we bid farewell to my excellent physician and the curtain comes down for exactly five seconds to make the reader forget about this cheerful little scene in the sick-room.

John Jones had a grudge against Bill Brown. One day John met Bill in the market place and without a word of warning, hit Bill on the proboscis.

He hit him good and hard. As a result, Bill Brown simos, went to Heaven and John Jones went to jail. He had broken the laws of society, even as I had broken the laws of nature.

Being a man of means (ill-gotten means, but means nevertheless) John Jones was able to hire himself quite an array of lawyers. Meanwhile, the public represented by the State, deeply incensed at the cruelty of this totally unwarranted attack, had also called upon a number of distinguished practitioners to see to it that justice be done.

And finally a distinguished judge donned his toga, and John Jones was brought into the court room to hear these legal luminaries discuss his case.

THE FACTS SIMPLE

The facts, as I told you, were as simple as the facts that were placed before my doctor tha day I was dragged into Nature's hall of justice.

John Jones, without the slightest provocation, had attacked Bill Brown. He had done so in the center of the market place and the whole community had been there to witness his onslaught.

John Jones sat six long weeks in that court room; likewise a hundred witnesses and a dozen jurymen. They were all eager and bright fellows, most anxious that justice be done upon the evidence that was to be brought forward.

But they never heard a scrap of evidence, for neither side seemed interested in the facts. They listened to the reports of high salaried medical experts who dwelt at great length upon the state of lunacy among the ancient Babylonians and among the ancient Assyrians.

As Bill Jones was a descendant of neither of these races (who died out 3000 years ago) this had really very little to do with the case, but it made highly interesting news for the daily papers.

After that, counsel for the defense made an elaborate study of the phalanx as a method of attack used by the Macedonians while the prosecuting attorney delivered a lengthy lecture which proved that the Eskimos of the American mainland had been the real inventors of stewed blubber, and that stewed blubber, as a table delicacy, had not been invented by the Eskimos of Greenland.

Finally the jury, having listened carefully to all these arguments, decided that it hardly knew how to decide the case, and for lack of evidence it bade John Jones go forth and smite some other people on the nose.

There is a moral somewhere in this story, but you will have to discover it for yourself. Meanwhile the art of medicine advances by leaps and bounds while the law—but finish the story for yourself. And if you want to know how the word "phew" is spelled, it is spelled "p-h-e-w."

Stars and Stripes

Winter hasn't given us a cold day yet. Doubt it? Well, winter begins at 7:30 a. m. Saturday.

Soldiers of five nations march into the Saar. Looks like someone would have to keep peace among THEM.

Babe Ruth will come to Boston next year. But wearing what uniform?

The Communist Program Of World Revolution

"The conquest of power by the proletariat is the VIOLENT ABOLITION of the power of the bourgeoisie, the DESTRUCTION of the MACHINERY of the capitalist state.

"WE proclaim openly that our design can only be realized by the VIOLENT OVERTHROW of the ENTIRE TRADITIONAL social order."

[The above policies were formally adopted and promulgated as the Communist program by the Sixth Congress of the Kommintern of the Communists' International, which was held in 1928 in Moscow.]
